**Violations Found:** Yes  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HWLQG  
**Eval Source:** CERS  
**Eval Notes:**

Two minor HW violations noted, labeling and and over stuffed drum of glove waste drum (the lid wasn't able to seal properly). New SHE manager, Chris Staley. Zulma will no longer be the SHE contact.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 03/16/2016  
**Violations Found:** No  
**Eval General Type:** Other/Unknown  
**Eval Type:** Other, not routine, done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Routine Scheduled HMBP, HW- LQG, and stormwater inspection. Reviewed HW disposal records, haz comm/hw training records- all were up to date and available for review during the inspection. The safety Equipment; safety showers, eye wash stations and Fire extinguishers were inspected and an inspection log was completed. The HMBP was submitted electronically via CERS on 2/22/16. It was mentioned during the inspection that DSM would be shutting down completely and relocating pennsylvania at the end of 2017. They were instructed to provide a formal closure plan several months before the actual closure and they are working with an outside contractor to plan for closure. Manufacturing activities have been substantially reduced, the hw reuse as a product has ceased, apparently only one shipment went out. No violations were noted during the inspection. A recent small office build was noted to not have fire sprinklers installed, RP mentioned they would work on getting them installed [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

Returned to compliance on 09/07/2017. Facility failed to provide ey wash to employees handling hazardous waste. Corrective action: mount, at minimum, a portable eye wash station near the hazardous waste accumulation area.

**Violation Description:**

Failure to maintain aisle space to allow the unobstructed movement of personnel, fire protection equipment, spill control equipment, and decontamination equipment to any area of facility operation in an emergency, unless it can be demonstrated to the Department that aisle space is not needed for any of these purposes.

<b>Eval Type:</b>	Routine done by local agency
<b>Eval Division:</b>	Berkeley City Toxics Management Division
<b>Eval Program:</b>	HW
<b>Eval Source:</b>	CERS
<b>Eval Notes:</b>	

EPA ID # is inactive, however shipments have not been made since 2015. Assure that when a hazardous waste is shipped off, the EPA ID, CAL 000 336 391, is active. Universal waste is stored in boxes and shipped off about every two months. visual inspections of haz waste and haz mat areas are conducted. Fire extinguishers are up to date. Hazardous waste drum is 30 gal max capacity. Had about 7 gallons of liquid or less at time of inspection.

<b>Map Key</b>	<b>Number of Records</b>	<b>Direction</b>	<b>Distance (mi/ft)</b>	<b>Elev/Diff (ft)</b>	<b>Site</b>	<b>DB</b>
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

Once 27 gallons is reached, generator must ship off within 180 days. Drum had non-RCRA waste, solid(oily debris, absorbents), last pick up 8/25/15. Onsite 8/9/17 to complete SW and Green Business inspections.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 04/14/2016  
**Violations Found:** Yes

**Waste Code Description:** THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

**Hazardous Waste Code:** F005  
**Waste Code Description:** THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

**Hazardous Waste Handler Details**

**Sequence No:** 5  
**Receive Date:** 20080225  
**Handler Name:** THE POLYMER TECHNOLOGY GROUP  
**Federal Waste Generator Code:** 1  
**Generator Code Description:** Large Quantity Generator  
**Source Type:** Annual/Biennial Report

**Waste Code Details**

**Hazardous Waste Code:** D001  
**Waste Code Description:** IGNITABLE WASTE

**Hazardous Waste Code:** D022  
**Waste Code Description:** CHLOROFORM

**Hazardous Waste Code:** D035  
**Waste Code Description:** METHYL ETHYL KETONE

**Hazardous Waste Code:** D038  
**Waste Code Description:** PYRIDINE

**Hazardous Waste Code:** F003  
**Waste Code Description:** THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

**Evaluations**

**Eval Date:** 11/03/2016  
**Violations Found:** Yes  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Tippett Studio, Inc only handles hazardous materials. Do not generate waste. Compressed gases are properly stored and seismically braced. Paints and other chemicals are kept in flammable cabinets. Chemicals are labeled, in good containers, and compatible. Machining rarely occurs. They occasionally will generate small amounts of used oil and dispose of it properly. Facility has an active EPA ID Number, CAL 000 267 162. Fire Extinguishers are up to date. Emergency Station is located near the front entrance. Station includes emergency phone numbers, telephone, and emergency first aid kit. Environmental contact, Andy Trickle, is no longer with the company. The HMBP should reflect that. The property owner has not been formally notified of the facility's compliance with the HMBP regulations. Training records were not available. Other training for equipment usage is being conducted. Hazardous waste disposal records- none available for review. Don't generate haz waste [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Regulated Programs**

El ID: 10602724 El Description: Chemical Storage Facilities

**Violations**

Violation Date: 08/19/2014 Violation Source: CERS  
 Violation Program: HMRRP Violation Division: Berkeley City Toxics Management Division  
 Citation: HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507  
 Violation Notes:

Returned to compliance on 09/17/2014. Business requested access to the electronic reporting system in July 2013, and has been operating at the site since at least January 2014. Emailed notice to submit a Hazardous Materials Business Plan to Jay Goodwin.

**Violation Description:**

Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.

**Violations**

Violation Date: 10/08/2014 Violation Source: CERS  
 Violation Program: HMRRP Violation Division: Berkeley City Toxics Management Division  
 Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)  
 Violation Notes:

Returned to compliance on 11/04/2014. Hazardous materials inventory is not complete in that some fields are missing and the carbon dioxide needs separated from the liquid carbon dioxide. Corrective action: Update the inventory to include all fields and add separate entry for carbon dioxide.

**Violation Description:**

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

**Violations**

Violation Date: 10/08/2014 Violation Source: CERS  
 Violation Program: HMRRP Violation Division: Berkeley City Toxics Management Division  
 Citation: 19 CCR 6.95 25508(a)(1) - California Code of Regulations, Title 19, Chapter 6.95, Section(s) 25508(a)(1)  
 Violation Notes:

Returned to compliance on 11/04/2014. Business owner operator page does not list environmental contact, emergency contact or certification. Corrective action; Complete the fields electronically.

**Violation Description:**

Failure to complete and electronically submit the Business Activities Page and/or Business Owner Operator Identification Page.

**Violations**

Violation Date: 10/26/2017 Violation Source: CERS

**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Onsite for routine compliance inspection to confirm information in the HMBP. The Rare Barrel produces sour beer and packages and provides tasting of the beer at the site. Met with Jay. Fire extinguishers at the site were last serviced Dec. 17, 2012. Contact company to have all fire extinguishers serviced. Fire extinguisher label on post near office, but no fire extinguisher. Either remove the label or add an extinguisher. Electrical panel does not have three foot clearance. Provide clearance in front of panel. Suggest taping out the area. Compressor used to supply compressed air, not in cylinders, 80 gallon tank, 175 psi. TMD to provide guidance on possible permit requirements. The Rare Barrel also uses a nitrogen generator. Hazardous Materials storage area - 250 cf oxygen cylinder in the fermentation area. Cylinder is not chained. Small 20 cf cylinders are also in area. Provide a cart for the cylinder or chain as required by fire code. TMD can provide guidance. [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Violation Program: HW      Violation Division: Berkeley City Toxics Management Division  
Citation: HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple  
Violation Notes:

Returned to compliance on 09/20/2018. The EPA ID number for the facility, CAL000345337, is inactive. Hazardous waste handlers are required to verify their hazardous waste ID number information per Health & Safety Code section 25205.16 and maintain an active EPA ID number when generating, treating, storing, disposing of, transporting, or offering for transportation a hazardous waste. The reactivation application was submitted this date to DTSC. In addition, ensure that you are completing the EPA ID number verification questionnaire (eVQ), which is an online system through DTSC, in July every year.

**Citation:** 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)  
**Violation Notes:**

Returned to compliance on 01/27/2017. Owner/Operator did not maintain signed copies of manifests from the designated facility. Corrective action: Obtain copies of TSDf-to\_Generator manifest and keep records for 3 years. If TSDf-to-Generator manifest is not available, please complete a manifest exception report.

**Violation Description:**

Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

**Violation Program:** HW **Violation Division:** Berkeley City Toxics Management Division  
**Citation:** HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple  
**Violation Notes:**

Returned to compliance on 02/09/2017. EPA ID Number, CAD983625138, is inactive. Corrective Action: Submit an application to DTSC to reactivate. Complete the Annual Verification Questionnaire so that it does not become inactive.

**Violation Description:**

Hazardous Waste Generator Program - Administration/Documentation - General

**Violations**

**Violation Date:** 11/20/2013 **Violation Source:** CERS  
**Violation Program:** HW **Violation Division:** Berkeley City Toxics Management Division  
**Citation:** HSC 6.5 25189.5(a) - California Health and Safety Code, Chapter 6.5, Section(s) 25189.5(a)  
**Violation Notes:**

Returned to compliance on 12/17/2013. Off-spec inks in 5 gallon drums, est'd 50, marked 'waste' are being held. Allowed option to determine a recycling option, if available, with documentation.

**Violation Description:**

Failure to properly dispose of hazardous waste at an authorized location.

**Violations**

**Violation Date:** 01/12/2017 **Violation Source:** CERS  
**Violation Program:** HW **Violation Division:** Berkeley City Toxics Management Division  
**Citation:** 40 CFR 1 262.34(d)(5)(ii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(ii)  
**Violation Notes:**

Returned to compliance on 02/08/2017. Corrective Action: Complete emergency postings template provided by TMD and post.

**Violation Description:**

Failure to post the following information next to the telephone:  
(A) The name and telephone number of the emergency coordinator;  
(B) Location of fire extinguishers and spill control material, and, if present, fire alarm; and  
(C) The telephone number of the fire department, unless the facility has a direct alarm.

<b>Citation:</b>	40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)		
<b>Violation Notes:</b>			

Returned to compliance on 02/07/2017. Owner/Operator has not properly trained all employees on waste handling and emergency procedures. Corrective Action: Complete the haz waste handling training within 30 days.

**Violation Description:**

Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.

**Violations**

<b>Violation Date:</b>	01/12/2017	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HW	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)		
<b>Violation Notes:</b>			

Returned to compliance on 01/28/2017. Generator did not properly label all containers containing hazardous waste in that the accumulation start dates were absent and buckets of waste did not have names of waste. Corrective Action: For the 55-gal waste drums, always mark accumulation start dates when accumulation begins. For the 3-gal waste buckets, properly label like the 55-gal drums. If waste is transferred to drums as soon as it is generated, then the accumulation start dates is not necessary on buckets.

**Violation Description:**

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

**Violations**

<b>Violation Date:</b>	11/20/2013	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HW	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)		
<b>Violation Notes:</b>			

Returned to compliance on 12/17/2013. Accumulation start date indicates storage greater than 180 days. Generator claims that accumulation start date was put on emptied drums and that accumulation did not start until wastes were generated. Agreed to dispose, amend policies.

**Violation Description:**

Failure to dispose of hazardous waste within 180 days (or 270 if waste is transported over 200 miles) for the generator who generates less than 1000 kilogram per month, but more than 100 kilograms per month.

**Violations**

<b>Violation Date:</b>	01/12/2017	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HW	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)		
<b>Violation Notes:</b>			

Returned to compliance on 02/22/2017. Corrective action: Ship out all waste that began accumulating over 180 days ago. If the accumulation start date is unknown, ship out the waste.

**Violation Description:**

Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Facility inventory is consistent with the reported quantities.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 04/14/2016  
**Violations Found:** Yes  
**Eval General Type:** Other/Unknown  
**Eval Type:** Other, not routine, done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Non-Inspection related violation: Failed to submit annual Hazardous Materials Business Plan for FY17 (PM); Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 01/12/2017  
**Violations Found:** Yes  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Haz Mat: Hazardous materials are kept in th chemical storage room and also throughout the facility, as needed for certain projects. Hazardous materials are consistenet with the inventory provided on CERS and are properly labeled. Safety: Fire extinguishers are up to date and will be due for servicing in March 2017. Emergency station with phone numbers and phone was not available. Records: Complete training records were not available. Only the 2015 training records were available, the content of that training were compliant. Manifests were not properly maintained in that only the generator initial copy was kept. There were no records for any shipment of hazardous waste within the last 180 days - the last manifest available was from 9-7-14. Property owner is aware of the presence of hazardous materials, but no formal notification of compliance with the HMBP requirements was provided. Storm Water: The only outside activity is loading and unloading- which is sometimes done [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 11/20/2013  
**Violations Found:** Yes  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HW  
**Eval Source:** CERS  
**Eval Notes:**

Instructed as to proper labeling and accumulation start requirements. Provided CALCUPA hazardous waste summary/guidelines. Large accumulation of off-spec ink stored in west loading dock area.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 12/11/2019  
**Violations Found:** No  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HW  
**Eval Source:** CERS  
**Eval Notes:**

Observed fluorescent bulbs stored against wall near maintenance shop. Roberto indicates the hazardous waste contractor takes these for recycling. TMD recommends storing these in a box to prevent breakage.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 01/12/2017  
**Violations Found:** Yes

**Eval Program:** HW  
**Eval Source:** CERS  
**Eval Notes:**

Business is regulated by BAAQMD for the solvents used in cleaning process. EPA ID, CAD983625138, is currently inactive. Haz waste: rags used to wipe ink and oil are collected in covered, metal bins and are picked up by aramark about once a week, depending on how busy the business gets. Used oil drum in 32" Press Area is kept in a flammable cabinet. Accumulation start date is 9-17-14. Waste fountain solution drum in 32" Press Area did not have accumulation start date. Used Oil drum in Are of 32" 4 Unit Press is kept in a flammable cabinet. Accumulation start date is 4-30-16. 3-gallon buckets are filled with hazardous waste before being transfered into 55-gallon drums and shipped out. The buckets were found in the 32 " Press Area and in the Bailing Room. The buckets were not properly labeled. The amount of time they have been stored is unknown.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Regulated Programs**

**EI ID:** 10196338 **EI Description:** Chemical Storage Facilities

**Violations**

**Violation Date:** 06/01/2016 **Violation Source:** CERS  
**Violation Program:** HMRRP **Violation Division:** Berkeley City Toxics Management Division  
**Citation:** HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2  
**Violation Notes:**

Returned to compliance on 06/01/2016.

**Violation Description:**

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

**Evaluations**

**Eval Date:** 07/13/2015  
**Violations Found:** No  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

**Eval Date:** 04/13/2018  
**Violations Found:** No  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Hazardous materials onsite are accurately reported on CERS. Diesel tank outside is serviced by outside company, in good condition. Annual training is conducted for hazardous materials handling. ; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 06/01/2016  
**Violations Found:** Yes  
**Eval General Type:** Other/Unknown  
**Eval Type:** Other, not routine, done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Non-Inspection related violation: Failed to submit annual Hazardous Materials Business Plan for FY17 (PM); Note: data in [EVAL Notes] field for some records is truncated from the source.

**Regulated Programs**

El ID: 10195837      El Description: Chemical Storage Facilities

**Violations**

Violation Date: 04/14/2016      Violation Source: CERS  
 Violation Program: HMRRP      Violation Division: Berkeley City Toxics Management Division  
 Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2  
 Violation Notes:

Returned to compliance on 05/05/2016.

**Violation Description:**

Failure to annually review and electronically certify that the business plan is complete, accurate, and up-to-date.

**Evaluations**

Eval Date: 04/14/2016  
 Violations Found: Yes  
 Eval General Type: Other/Unknown  
 Eval Type: Other, not routine, done by local agency  
 Eval Division: Berkeley City Toxics Management Division  
 Eval Program: HMRRP  
 Eval Source: CERS  
 Eval Notes:

Non-Inspection related violation: Failed to submit annual Hazardous Materials Business Plan for FY17 (PM); Note: data in [EVAL Notes] field for some records is truncated from the source.

<b>Map Key</b>	<b>Number of Records</b>	<b>Direction</b>	<b>Distance (mi/ft)</b>	<b>Elev/Diff (ft)</b>	<b>Site</b>	<b>DB</b>
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

**Eval Date:** 06/22/2018  
**Violations Found:** No  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Hazardous materials observed onsite are consistent with the inventory provided on CERS. Employee training consists of hazardous materials handling and emergency procedures. HF specific training is provided to employees. Calcium glutamate is kept onsite in close proximity to HF storage and usage area. Business has a machining area but does not generate hazardous waste.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 08/12/2015  
**Violations Found:** No  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Tom indicates they have quarterly safety meetings. Confirmed completion. During walkthrough, observed consolidated location for universal waste storage. Tom indicates these are transferred to Berkeley Recycling Center. More information requested on borosilicate and graphite recycling.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Evaluations**

**Eval Date:** 08/24/2018  
**Violations Found:** No  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

HMBP submitted in CERS on 2/6/2018. The California Environmental Protection Agency (CalEPA) adopted 24 New Federal Hazard Categories for use in Chemical Inventory Reporting. The categories were updated this date and submitted. Confirmed the storage of gases and other hazardous materials in the shop.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 08/10/2015  
**Violations Found:** No  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

There were no violations noted, this was an unannounced inspection. Site reported this years HMBP and is up to date. HWTS indicated no hazardous waste was disposed of.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Violations

Violation Date: 01/09/2017 Violation Source: CERS  
Violation Program: HMRRP Violation Division: Berkeley City Toxics Management Division  
Citation: HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507  
Violation Notes:

Returned to compliance on 03/03/2017. The facility failed to establish required hazardous materials business plan. The facility exceed the specified thresholds of hazardous materials (>= 55 gallon for liquids) required to submit a hazardous materials business plan (HMBP) in accordance with BMC 15.12.050. Therefore the facility meet the requirement to report Hazardous Materials and submit a HMBP. Corrective Action: Please establish Hazardous Materials Business Plan (HMBP), go to [cers.calepa.ca.gov](http://cers.calepa.ca.gov) and create an account. Report a complete list of Hazardous Materials and Hazardous Waste inventory, site map, emergency response plan and employee training plan.

Violation Description:

Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.

**Violations**

**Violation Date:** 07/11/2017 **Violation Source:** CERS  
**Violation Program:** HW **Violation Division:** Berkeley City Toxics Management Division  
**Citation:** 40 CFR 1 265.32 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.32  
**Violation Notes:**

Returned to compliance on 07/14/2017. Fire extinguishers are provided throughout the building and are due for annual servicing. Corrective action: Contact a company to service the fire extinguishers.

**Violation Description:**

Failure of the facility to maintain the following emergency equipment or equivalents:

- 1) An internal communications or alarm system;
- 2) A device, such as a telephone (immediately available at the scene of Operations/ Maintenance ) or a hand-held two-way radio, capable of summoning emergency assistance from local police departments, fire departments, or State or local emergency response teams;
- 3) Portable fire extinguishers, fire control equipment, spill control equipment, and decontamination equipment; and
- 4) Water at adequate volume and pressure to supply water hose streams, or foam producing equipment, or automatic sprinklers, or water spray systems.

**Enforcements**

**Enf Action Date:** 02/17/2017 **Enf Action Program:** HMRRP  
**Enf Action Type:** Notice of Violation (Unified Program) **Enf Action Source:** CERS  
**Enf Action Division:** Berkeley City Toxics Management Division  
**Enf Action Description:** Notice of Violation Issued by the Inspector at the Time of Inspection  
**Enf Action Notes:**

- 02/28/17: Received a call from Chris Taggart, he stated that he will be working on completing Flying Moose's HMBP. - 02/28/17: Received an email from Chris Taggart stating that he is going to complete and submit Flying Moose's HMBP by the end of this week.

**Evaluations**

**Eval Notes:**

Confirmed the information in the Hazardous Materials Business Plan and submitted confirmation this date.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 01/09/2017  
**Violations Found:** Yes  
**Eval General Type:** Other/Unknown  
**Eval Type:** Other, not routine, done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Toxics Management Division (Jewel Mauricio) conducted a permit screening for Hazardous Materials and Hazardous Waste. If the facility store or handle Hazardous Materials or Hazardous Waste in combined (Aggregate) quantities in amount >= 55 gallons for liquids, >=500 lbs for solids, and 200 cubic ft for compressed gas must submit a Hazardous Materials Business Plan (HMBP). Walk-Through: -Flying moose provide custom metal fabrication with a low profile and low volume production. -Observed one horizontal saw machine, contains 5 gallons of diluted Hangsterfers s-500 CF (Diluted 10-1 with water). -Observed CNC lathe machine, holds 50 gallons of diluted Hangsterfers s-500 C (Diluted 10-1 with water). -Observed CNC mill machine, also holds 50 gallons of diluted Hangsterfers. -Hazardous Materials observed during this inspection is two 5-gallon buckets of Hangsterfers S-500 CF. According to the facility representative who assisted TMD during the permit screening, they only [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Site History:**

The Hall-Scott Motor Car Company began manufacturing automobiles at the Berkeley Industrial Court/Temescal Business Center property in 1910. This same company overhauled and rebuilt large marine engines at the property during World War II in support of the war effort. Limited information is available regarding site uses between 1945 and 1967. In 1967, Airco purchased the property for storage of old equipment, spent dolomite, and neutralized chemical metal etching waste prior to disposal. In 1978, the site was divided into two properties: 2850 7th Street and 729 Heinz Avenue. The Berkeley Industrial Court, a multi-tenant rental complex, currently occupies the 729 Heinz Avenue property. The Temescal Business Center, a multi-tenant industrial complex, currently occupies the 2850 7th Street property.

From 1968 to 1990, solvent-based adhesives were manufactured at the National Starch and Chemical Company's 742 Grayson Street facility using toluene, hexane, acetone, and 1,1,1-TCA. Beginning in 1980, water-based adhesive was manufactured at the 800 Grayson Street property, which was previously used as a lumber distribution warehouse.

The source of contaminants in groundwater beneath the sites has not been determined.

<b>Sub Area:</b>	
<b>Sub Area Link:</b>	
<b>Document Type:</b>	Site Screening
<b>Date Completed:</b>	2/15/2005
<b>Comments:</b>	Site screening determined that PCBs, lead, nickel, and petroleum hydrocarbons had previously been detected in soil samples collected from the Berkeley Industrial Court site. The City of Berkeley has overseen sampling at the site in an effort to characterize chlorinated solvent occurrence in area groundwater.

----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

counter for Mr. Guthrie to sign. DA 5/4/2018 - RTC received. Reduction in inventory was not observed - received documentation only, therefore "unobserved" used as RTC qualifier. DA

**Violation Description:**

Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.

**Evaluations**

**Eval Date:** 09/05/2018  
**Violations Found:** No  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HW  
**Eval Source:** CERS  
**Eval Notes:**

The facility generates used oil and used antifreeze and has an active EPA ID number. Confirmed quantity of hazardous materials is less than registration thresholds. Hazardous waste containers are labeled properly. Facility has absorbent for spills. ; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 04/09/2018  
**Violations Found:** Yes  
**Eval General Type:** Other/Unknown  
**Eval Type:** Other, not routine, done by local agency  
**Eval Division:** Berkeley City Toxics Management Division

**EI ID:** 10602787    **EI Description:** Hazardous Waste Generator

**Violations**

**Violation Date:** 02/15/2019    **Violation Source:** CERS  
**Violation Program:** HW    **Violation Division:** Berkeley City Toxics Management Division  
**Citation:** 22 CCR 12 66262.23(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.23(a)  
**Violation Notes:**

Returned to compliance on 02/28/2019. The facility is using a temporary EPA ID number, CAC002839482, on the hazardous waste manifests for the shipment of hazardous waste in 2016, 2017 and 2018. The temporary EPA ID numbers are only for businesses who do not normally handle hazardous waste. This facility is routinely generating hazardous waste. Corrective action: Submit a manifest correction letter to DTSC for each of the manifests that list the incorrect EPA ID number. All future shipments of hazardous waste must be made using the permanent EPA ID number.

**Violation Description:**

Failure to properly complete the Uniform Hazardous Waste Manifest.

**Violations**

**Violation Date:** 02/15/2019    **Violation Source:** CERS  
**Violation Program:** HW    **Violation Division:** Berkeley City Toxics Management Division  
**Citation:** 22 CCR 12 66262.34(e) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(e)  
**Violation Notes:**

Returned to compliance on 02/28/2019. The 55 gallon drum of waste fire debris is labeled as hazardous waste, but is not labeled with the name and address of the generator, contents, physical state, hazard properties and accumulation start date. Corrective action: Label the hazardous waste drum with the name and address of the generator, contents, physical state, hazard properties and accumulation start date.

**Violation Description:**

Failure to meet the following conditions of satellite accumulation regulations:

- Accumulate up to 55 gallons of hazardous waste or one quart of acute hazardous waste at or near the initial point of accumulation which was under the control of the operator.
- Total time hazardous waste can be accumulated onsite in any generator accumulation area is one year, i.e., the combined accumulation time at a satellite accumulation point and at a 90/180/270 accumulation area (depending on size of generator and distance transported), whichever comes first.

- The generator complies with section 66265.171, 66265.172, and 66265.173(a).
- The container must be clearly marked with the initial date that hazardous waste is first placed in the container and labelled with the words "Hazardous Waste" including specified information
- Container must be labelled with the date the satellite accumulation limit is reached and moved within three days after reaching the 55 gallon (or one quart) limit to a "90 day" accumulation area
- 55 gallons (or one quart of acute hazardous waste) of waste per process may be accumulated

**Citation:** HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507  
**Violation Notes:**

Returned to compliance on 02/28/2019. TMD observed 3, 20 lb cylinders of propane onsite. These cylinders contain approximately 160 cubic feet of propane each. Businesses are required to establish and implement a Hazardous Materials Business Plan when storing/handling hazardous materials, including hazardous waste, at or above aggregate quantities of 500 pounds or more of all solid hazardous materials and waste; 55 gallons or more of all liquid hazardous materials and wastes; or 200 cubic feet or more at standard temperature and pressure of all gaseous hazardous materials. The HMBP must be submitted, electronically, in the California Environmental Reporting System (CERS), at the time the business begins operations, or at the time it first begins to handle a hazardous material or waste that must be disclosed. Corrective action: Facility may decrease storage to below registration thresholds and provide confirmation to TMD, or you shall create an account in the CERS Business Portal, [Truncated]

**Violation Description:**

Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.

1,2-DICHLOROETHYLENE (CIS), TETRACHLOROETHYLENE (PCE), TRICHLOROETHYLENE (TCE)

**Site History:**

The Hall-Scott Motor Car Company began manufacturing automobiles at the site in 1910. This same company overhauled and rebuilt large marine engines at the site during World War II in support of the war effort. Limited information is available regarding site uses between 1945 and 1967. In 1967, Airco purchased the property for storage of old equipment, spent dolomite, and neutralized chemical metal etching waste prior to disposal. In 1978, the site was divided into two properties: 2850 7th Street and 729 Heinz Avenue. The Temescal Business Center, a multi-tenant industrial complex, currently occupies the 2850 7th Street site. This site is a part of the Heinz/Grayson Plume (EnviroStor ID 60000399).

<b>Comments:</b>		Site screening determined that historic site uses had included automobile manufacturing, rebuilding of marine engines, and storage of chemical metal etching waste. The City of Berkeley has overseen sampling at the site in an effort to characterize the occurrence of chlorinated solvents in area groundwater.

**Site History:**

The Hall-Scott Motor Car Company began manufacturing automobiles at the site in 1910. This same company overhauled and rebuilt large marine engines at the site during World War II in support of the war effort. Limited information is available regarding site uses between 1945 and 1967. In 1967, Airco purchased the property for storage of old equipment, spent dolomite, and neutralized chemical metal etching waste prior to disposal. In 1978, the site was divided into two properties: 2850 7th Street and 729 Heinz Avenue. The Temescal Business Center, a multi-tenant industrial complex, currently occupies the 2850 7th Street site. This site is a part of the Heinz/Grayson Plume (EnviroStor ID 60000399).

**Area Name:**  
**Area Link:**  
**Sub Area:**  
**Sub Area Link:**  
**Document Type:** \* Discovery  
**Date Completed:** 2/15/2005  
**Comments:** Site screening determined that historic site uses had included automobile manufacturing, rebuilding of marine engines, and storage of chemical metal etching waste. The City of Berkeley has overseen sampling at the site in an effort to characterize the occurrence of chlorinated solvents in area groundwater.

**Evaluations**

Eval Date: 11/08/2016  
Violations Found: No  
Eval General Type: Compliance Evaluation Inspection  
Eval Type: Routine done by local agency  
Eval Division: Berkeley City Toxics Management Division  
Eval Program: HW  
Eval Source: CERS  
Eval Notes:

The Ed Jones Company does not store any hazardous materials. Only generates hazardous waste. Safety: The emergency response station contains all emergency phone numbers and workers use their cell phones in case of an emergency. Fire extinguishers are up to date. Training: Ric is the only person that handles hazardous waste, other employees do not need hazardous waste handling training. Safety meetings are held about twice a year. Evacuation procedures are covered in initial training and will be covered annually. Records for training were available. Haz Waste: There was no haz waste at the facility at the time of inspection. The waste was last shipped 6/28/16 by J & B Enterprises. Metal scraps are picked up for recycling. Note: Fan blower suctions the metal sweeps No violations observed.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Violation Notes:**

Returned to compliance on 08/29/2018. Business failed to include start dates on hazardous waste labels for used oil, used coolant, used oil filtered.  
 Corrective Action: Update labels to include accumulation start dates.

**Violation Description:**

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

**Evaluations**

**Eval Date:** 08/06/2018  
**Violations Found:** Yes  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HW  
**Eval Source:** CERS  
**Eval Notes:**

Served 55 gal of used oil, used coolant, 30-gal of used oil filters. Hazardous waste should be shipped off within 180 days of accumulation start date. Used lead acid batteries properly stored. Fire extinguishers are up to date. First aid kit is available.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 02/08/2016  
**Violations Found:** No  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Met Glenn Oliveria on-site. Observed the chemical inventory, everything was properly reported. No employees, so no training is required.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 02/08/2016  
**Violations Found:** No

**Evaluations**

<b>Eval Date:</b>	02/04/2019
<b>Violations Found:</b>	Yes
<b>Eval General Type:</b>	Compliance Evaluation Inspection
<b>Eval Type:</b>	Routine done by local agency
<b>Eval Division:</b>	Berkeley City Toxics Management Division
<b>Eval Program:</b>	HMRRP
<b>Eval Source:</b>	CERS
<b>Eval Notes:</b>	

Conducted walk through with Denise Lapidus, Alan Yee, and Jerry Wingate. Hazardous materials observed onsite are consistent with the inventory provided on CERS. Hazardous materials were properly stored - containers were in good condition, stored with other compatible materials, in secondary containment, secondary containers were labeled. Annual training on safety responsibilities, accident prevention and reporting, inspections, fire prevention, spill, evacuation, and emergency procedures, ergonomics - sign off sheet for all employees was provided. ; Note: data in [EVAL Notes] field for some records is truncated from the source.

<b>Eval Date:</b>	03/16/2016
<b>Violations Found:</b>	No
<b>Eval General Type:</b>	Compliance Evaluation Inspection
<b>Eval Type:</b>	Routine done by local agency
<b>Eval Division:</b>	Berkeley City Toxics Management Division
<b>Eval Program:</b>	HW
<b>Eval Source:</b>	CERS
<b>Eval Notes:</b>	

Routine Scheduled HMBP, HW- LQG, and stormwater inspection. Reviewed HW disposal records, haz comm/hw training records- all were up to date and available for review during the inspection. The safety Equipment; safety showers, eye wash stations and Fire extinguishers were inspected and an inspection log was completed. The HMBP was submitted electronically via CERS on 2/22/16. It was mentioned during the inspection that DSM would be shutting down completely and relocating pennsylvania at the end of 2017. They were instructed to provide a formal closure plan several months before the actual closure and they are working with an outside contractor to plan for closure. Manufacturing activities have been substantially reduced, the hw reuse as a product has ceased, apparently only one shipment went out. No violations were noted during the inspection. A recent small office build was noted to not have fire sprinklers installed, RP mentioned they would work on getting them installed [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Notes:**

No violations noted during the inspection. Facility has large quantities of flammable liquids located inside both buildings, 829 Heinz & 2810 Seventh street. Hazardous Waste disposal records were available and up to date the day of the inspection. Training records were current and provided/ emailed after the inspection, the same day. Safety equipment, eye wash and fire Extinguishers were checked on a regular basis, the service tags were current. SAA's were verified to be labeled, sealed according to good hazardous waste practices. Hazardous materials spill cleanup equipment was located where needed. Facility Environmental Manager Zulma Machillanda-Hahn mentioned that the Fire Department conducts annual inspections.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Violations**

<b>Violation Date:</b>	07/13/2016	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HMRRP	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507		
<b>Violation Notes:</b>			

Returned to compliance on 08/15/2016. Failed to establish required hazardous materials business plan. The facility exceed the specified thresholds of hazardous materials (55gal/500lbs/200cubic ft) required to submit a hazardous materials business plan (HMBP) in accordance with 19 CCR 2729.1.

<b>Map Key</b>	<b>Number of Records</b>	<b>Direction</b>	<b>Distance (mi/ft)</b>	<b>Elev/Diff (ft)</b>	<b>Site</b>	<b>DB</b>
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

Therefore the facility meet the requirement to report chemical inventory and submit hazardous materials business plan. Please go to CERS.CALEPA.CA.gov and create an account. Report a complete list of chemical inventory, site map, emergency response plan, and employee training plan. Please establish hazardous materials business plan by Aug 13, 2016 and submit a certification of return to compliance form after the required documents have been submitted.

**Violation Description:**

Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.

**Violations**

<b>Violation Date:</b>	12/13/2016	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HMRRP	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)		
<b>Violation Notes:</b>			

Returned to compliance on 02/28/2017. Inadequate completion and electronic submission of annotated site map with all required content. The facility map is incomplete. Hazardous Materials business plans are required to be complete and accurate. The following deficiencies were noted in the facility map: Required information missing: Storm water drain, sewer drains, evacuation area, and emergency shutoff. Corrective Action: Please add the required information on your site map.

**Violation Description:**

Failure to complete and electronically submit a site map with all required content.

**Evaluations**

<b>Eval Date:</b>	12/13/2016
<b>Violations Found:</b>	Yes
<b>Eval General Type:</b>	Compliance Evaluation Inspection
<b>Eval Type:</b>	Routine done by local agency
<b>Eval Division:</b>	Berkeley City Toxics Management Division
<b>Eval Program:</b>	HMRRP
<b>Eval Source:</b>	CERS
<b>Eval Notes:</b>	

- No changes on business activities and business owner operator information from the last submittal. - The facility did a good job reporting their hazardous materials inventory, however there some materials with very small amount and can be considered as household/janitorial amount and doesn't need to be included in the hazmat inventory list. - The facility's site map and hazmat locations are hard to identify. The facility should increase size of labels to make it readable. The site map is also missing some required information. - No violations observed on Emergency Response and contingency plan.; Note: data in [EVAL Notes] field for some records is truncated from the source.

<b>Eval Date:</b>	12/11/2019
<b>Violations Found:</b>	No
<b>Eval General Type:</b>	Compliance Evaluation Inspection
<b>Eval Type:</b>	Routine done by local agency

<b>Eval Program:</b>	HMRRP
<b>Eval Source:</b>	CERS
<b>Eval Notes:</b>	

Walk through observations: Shop - Motor Oil Grease Bio-Air compressor Fluid Paint - 20 gal simple green sanitizer 15 gal Vinegar Side Storage room - Hydraulic oil - 20 gal Paints, sealants, primers - 30 gal Outside storage cabinet- Motor oil - for topping off fleet. Fleet vehicles are serviced offsite. Cleaning supplies Brake fluid Production Areas- Aerosol sprays - PAM Canola Oil - 2 55-gal drums Olive oil - 2 55-gal drums Emergency Generators- Belly tanks are 211 gallons. Annual servicing by 3rd party Fueling done about annually by 3rd party biweekly tests done by designated facility employee Generators do not have an alarm system in case of release. Releases would be detected via visual inspections during biweekly tests or by observation during general outside activity. Generators are located in fleet parking areas where they can be observed regularly. Flour Tanks- Two tanks located outside are used to store flour. Flour is [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

#### Violation/Evaluation Summary

**Note:** NO RECORDS: As of May 2020, there are no Compliance Monitoring and Enforcement (violation) records associated with this facility (EPA ID).

#### Handler Summary

**Importer Activity:** No  
**Mixed Waste Generator:** No  
**Transporter Activity:** No  
**Transfer Facility:** No  
**Onsite Burner Exemption:** No  
**Furnace Exemption:** No  
**Underground Injection Activity:** No  
**Commercial TSD:** No  
**Used Oil Transporter:** No  
**Used Oil Transfer Facility:** No  
**Used Oil Processor:** No  
**Used Oil Refiner:** No  
**Used Oil Burner:** No  
**Used Oil Market Burner:** No  
**Used Oil Spec Marketer:** No

#### Hazardous Waste Handler Details

**Sequence No:** 1  
**Receive Date:** 19980310  
**Handler Name:** ALDERSON CONSTRUCTION  
**Source Type:** Implementer  
**Federal Waste Generator Code:** N  
**Generator Code Description:** Not a Generator, Verified

<b>Violation Date:</b>	03/09/2017	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HMRRP	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)		
<b>Violation Notes:</b>			

Returned to compliance on 04/10/2017.

**Violation Description:**

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

**Violations**

<b>Violation Date:</b>	12/14/2015	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HMRRP	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)		
<b>Violation Notes:</b>			

Returned to compliance on 01/29/2016. The emergency response plan submitted 3/10/14 is incomplete and inaccurate in that emergency contacts are no longer working at the facility, and the plan does not include immediate notification to the unified program agency in the event of release or threatened release of a hazardous material. Corrective action: Update the emergency response plan and submit electronically in CERS.

**Violation Description:**

Failure to establish and electronically submit an adequate emergency response plan and procedures for a release or threatened release of a hazardous material.

**Violations**

<b>Violation Date:</b>	12/14/2015	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HMRRP	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)		
<b>Violation Notes:</b>			

Returned to compliance on 01/29/2016. The hazardous materials inventory does not include oxygen or carbon dioxide as was observed onsite. In addition, glycine is marked as a radioactive material and is not, and the fire code hazard class and federal hazard categories are not listed for all applicable hazardous materials. Corrective action: Update the inventory to reflect storage at the facility and add fire code hazard class and federal hazard categories for all applicable hazardous materials.

**Violation Description:**

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

2017 cers submittal was done on 3 8 2017. Current maps were not available during the inspection and will be reviewed at office. RP was Anne Marie Baker- EH&S Consultant. A referral will be made to Fire Prevention regarding storage room that contains a large amount of Liquid O2, liquid Nitrogen and a single wall Diesel fuel tanks. Site plan need revision to include the mentioned storage room. Inventory statement needs revision to list the gases in cubic feet.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Onsite for routine inspection to confirm information in the HMBP. HMBP submitted in CERS 3/10/14. The facility information and inventory were updated 2/25/15. Alex Naroditsky, emergency contact and environmental contact listed on the Business Owner Operator form is no longer with the company. The secondary emergency contact and EH&S coordinator, Jose Ortiz, is no longer with the company. Met with Anne-Marie Bakker, Manager, Environmental Health and Safety. Entrance to lab areas have a health and safety door sign with emergency contacts and pictograms of hazards. Observed storage of oxygen, carbon dioxide, trypan blue waste onsite, as well as hydrochloric acid, acetic acid, sodium hydroxide and boiler chemicals. Employees received chemical hygiene training 11/7/14, which included chemical and waste handling, initiation of ER procedures. They have not received refresher training this year. Correct violations noted within 30 days and provide documentation of correction. [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 03/09/2017  
**Violations Found:** No

**Eval Notes:**

Onsite to confirm proper management of hazardous waste. Confirmed that fire extinguishers are available and serviced annually. Eyewash/safety showers are checked monthly. Please note, ANSI eyewash standard Z358.1, indicates plumbed flushing equipment shall be activated weekly. Ensure that your maintenance and testing comply with manufacturer standards. Ann-Marie indicates she conducts an annual lab inspection to look for compliance issues and outdated chemicals. Manifests are available and complete.; Note: data in [EVAL Notes] field for some records is truncated from the source.

<b>Office:</b>	CLEANUP BERKELEY		
<b>Past Use that Caused Contam:</b>	UNKNOWN		
<b>Potential Media Affected:</b>	OTHER GROUNDWATER AFFECTED (USES OTHER THAN DRINKING WATER), SOIL		
<b>Site History:</b>			

The Hall-Scott Motor Car Company began manufacturing automobiles at the site in 1910. This same company overhauled and rebuilt large marine engines at the site during World War II in support of the war effort. Limited information is available regarding site uses between 1945 and 1967. In 1967, Airco purchased the property for storage of old equipment, spent dolomite, and neutralized chemical metal etching waste prior to disposal. In 1978, the site was divided into two properties: 2850 7th Street and 729 Heinz Avenue. The Berkeley Industrial Court, a multi-tenant rental complex, currently occupies the 729 Heinz Avenue site. This site is a part of the Heinz/Grayson Plume (EnviroStor ID 60000399).

**Potential Contamin of Concern:**

METALS, POLYCHLORINATED BIPHENYLS (PCBS), UNCATEGORIZED, VOLATILE ORGANICS (8260B VOCS)

<b>Comments:</b>	Site screening determined that PCBs, lead, nickel, and petroleum hydrocarbons had previously been detected in soil samples collected from the site. The City of Berkeley has overseen sampling at the site in an effort to characterize chlorinated solvent occurrence in area groundwater. See Heinz/Grayson Plume Site - Temescal Business Center for site screening dated 2/15/2005

**Site History:**

Prior to 1978, this site was operated by Airco Inc, now referred to as Temescal Business Center. The portion of the site referred to as the Berkeley Industrial Complex was historically utilized as a storage area for old equipment, spent dolomite, and neutralized chemical etching waste before disposal. Prior to Airco's ownership of the site, Hall Scott Marine Engine Foundry occupied the site before and during World War II. They produced engines for naval ships during World War II; however, the exact scope of their activities is unknown. The site currently supports three buildings and a nursery on an approximately 1.5-acre parcel. Berkeley Industrial Complex is presently a multi-tenant industrial complex. The main tenants include Magic Garden Nursery, Goldberg Cabinets, and Artworks Foundry. Seventy-five percent of the property is utilized to grow, store and sell plants, shrubs, and trees. The site is bounded by Temescal Business Center to the east, and National Starch and Chemical to the north. A Southern Pacific rail spur forms the northwest boundary. Since 1978 there has been no chemical storage or heavy industrial practices that would lend to the potential for soil and/or groundwater impaction. Last updated: 1/21/2020

		Talked to Berkeley Industrial Complex (BIC) RP, Piero Mussi. He is planning to have consultants work on the GW assessment workplan starting next month, and requested extension due to COVID-19 issues to deliver the workplan to the RWB in October. He is planning to utilize all the available GW wells at the property.

<b>Past Use that Caused Contam:</b>	UNKNOWN		
<b>Potential Media Affected:</b>	OTHER GROUNDWATER AFFECTED (USES OTHER THAN DRINKING WATER), SOIL		
<b>Site History:</b>			

The Hall-Scott Motor Car Company began manufacturing automobiles at the site in 1910. This same company overhauled and rebuilt large marine engines at the site during World War II in support of the war effort. Limited information is available regarding site uses between 1945 and 1967. In 1967, Airco purchased the property for storage of old equipment, spent dolomite, and neutralized chemical metal etching waste prior to disposal. In 1978, the site was divided into two properties: 2850 7th Street and 729 Heinz Avenue. The Berkeley Industrial Court, a multi-tenant rental complex, currently occupies the 729 Heinz Avenue site. This site is a part of the Heinz/Grayson Plume (EnviroStor ID 60000399).

**Potential Contamin of Concern:**

METALS, POLYCHLORINATED BIPHENYLS (PCBS), UNCATEGORIZED, VOLATILE ORGANICS (8260B VOCS)

<b>Sub Area Link:</b>	
<b>Document Type:</b>	Correspondence
<b>Date Completed:</b>	2/15/2005
<b>Comments:</b>	Site screening determined that PCBs, lead, nickel, and petroleum hydrocarbons had previously been detected in soil samples collected from the site. The City of Berkeley has overseen sampling at the site in an effort to characterize chlorinated solvent occurrence in area groundwater. See Heinz/Grayson Plume Site - Temescal Business Center for site screening dated 2/15/2005

TPH-MOTOR OIL, TPH-DIESEL

**Site History:**

The property was occupied by a vegetable oil company from 1916 to 1984. In 1985, Wareham Development purchased the site and found tanks and sumps containing nickel, acids, oil and grease, and retrograde lab chemicals.

**RB Case No:** 01S0237  
**Local Case No:**  
**Begin Date:** 1/1/1999  
**Stop Method:**  
**Lead Agency:** SAN FRANCISCO BAY RWQCB (REGION 2)  
**Local Agency:**  
**Potential COC:** \* Chlorinated Solvents - TCE  
**Potential Media of Concern:** Other Groundwater (uses other than drinking water), Soil, Soil Vapor  
**How Discovered:**  
**How Discovered Description:**  
**Stop Description:**  
**Calwater Watershed Name:** Bay Bridges - Berkeley (203.30)  
**DWR GW Subbasin Name:** Santa Clara Valley - East Bay Plain (2-009.04)  
**Disadvantaged Community:**  
**Site History:**

The Proen Products Company facility operated from approximately 1952 to June 1990. Proen manufactured fertilizer tablets, lawn sprinklers, and lawn edgers at the Site. The fertilizer tablet manufacturing operation was separate from the metal parts manufacturing operation. The fertilizer process consisted of combining fertilizer ingredients (e.g., urea) in a mixer and baking the combined ingredients in an oven. Metal sprinkler parts were manufactured from zinc alloy in the die casting operation and the metal parts cut in the punch press were cut from brass, aluminum, or steel sheets of metal. Solvents used for degreasing metal parts included 1,1,1-trichloroethane (1,1,1-TCA, reportedly used from 1982 to 1990) and trichloroethene (TCE, reportedly used before 1982). Carbon tetrachloride was reportedly used for degreasing during the earlier years of the facility's operation. Additional chemicals used at the facility reportedly included isopropanol, petroleum naphtha, dipping enamels, copper sulfate, Hampene 200 (EDTA), manganese sulfate, zinc sulfate, and Houghto-Safe 620 (ethylene glycol). Wastes removed and disposed off site by licensed contractors included paint thinner, waste paints, and waste 1,1,1-TCA. Soil and groundwater investigations conducted in 1990 and 1991 revealed that elevated concentrations of VOCs were present in collected soil samples. The highest concentrations of VOCs and TPH-g and BTEX were detected in the hand augered boring SB -1 near the sump: TCE up to 2.2 mg/kg in soil and up to 230 mg/l in GW sample. Five MWs installed along the site perimeter (corner of 9th and Grayson St) in August 1990 to monitor the VOCs plume; additional eight wells installed in 1992. The highest concentrations of TCE was detected in MW-2 located downgradient from the Site. 1.4 mg/l of TCE (April 1991). Add site investigation and removal of the sump, soil excavation and removal of approx. 1,130 tons in May 1992; TCE was detected in soil up to 17 mg/kg and in water up to 230 mg/l. After the cleanup TCE concentrations were reduced to 0.68 mg/kg and 0.068 mg/l. Annual monitoring until 2009.

**Site History:**

The Proen Products Company facility operated from approximately 1952 to June 1990. Proen manufactured fertilizer tablets, lawn sprinklers, and lawn edgers at the Site. The fertilizer tablet manufacturing operation was separate from the metal parts manufacturing operation. The fertilizer process consisted of combining fertilizer ingredients (e.g., urea) in a mixer and baking the combined ingredients in an oven. Metal sprinkler parts were manufactured from zinc alloy in the die casting operation and the metal parts cut in the punch press were cut from brass, aluminum, or steel sheets of metal. Solvents used for degreasing metal parts included 1,1,1-trichloroethane (1,1,1-TCA, reportedly used from 1982 to 1990) and trichloroethene (TCE, reportedly used before 1982). Carbon tetrachloride was reportedly used for degreasing during the earlier years of the facility's operation. Additional chemicals used at the facility reportedly included isopropanol, petroleum naphtha, dipping enamels, copper sulfate, Hampene 200 (EDTA), manganese sulfate, zinc sulfate, and Houghto-Safe 620 (ethylene glycol). Wastes removed and disposed off site by licensed contractors included paint thinner, waste paints, and waste 1,1,1-TCA. Soil and groundwater investigations conducted in 1990 and 1991 revealed that elevated concentrations of VOCs were present in collected soil samples. The highest concentrations of VOCs and TPH-g and BTEX were detected in the hand augered boring SB -1 near the sump: TCE up to 2.2 mg/kg in soil and up to 230 mg/l in GW sample. Five MWs installed along the site perimeter (corner of 9th and Grayson St) in August 1990 to monitor the VOCs plume; additional eight wells installed in 1992. The highest concentrations of TCE was detected in MW-2 located downgradient from the Site. 1.4 mg/l of TCE (April 1991). Add site investigation and removal of the sump, soil excavation and removal of approx. 1,130 tons in May 1992; TCE was detected in soil up to 17 mg/kg and in water up to 230 mg/l. After the cleanup TCE concentrations were reduced to 0.68 mg/kg and 0.068 mg/l. Annual monitoring until 2009.

**DWR GW Subbasin Name:** Santa Clara Valley - East Bay Plain (2-009.04)  
**Disadvantaged Community:**  
**Site History:**

The Proen Products Company facility operated from approximately 1952 to June 1990, manufacturing fertilizer tablets, lawn sprinklers, and lawn edgers at the Site. The fertilizer process used ingredients including urea. Solvents used for degreasing metal parts included 1,1,1-trichloroethane (1,1,1-TCA, reportedly used from 1982 to 1990) and trichloroethene (TCE, reportedly used before 1982). Carbon tetrachloride was reportedly used for degreasing during the earlier years of the facility's operation. Additional chemicals used at the facility reportedly included isopropanol, petroleum naphtha, dipping enamels, copper sulfate, Hampene 200 (EDTA), manganese sulfate, zinc sulfate, and Houghto-Safe 620 (ethylene glycol). Soil and groundwater investigations conducted in 1990 and 1991 revealed that elevated concentrations of VOCs were present in collected soil samples. The highest concentrations of VOCs and TPH-g and BTEX were detected in the hand augered boring SB -1 near the sump:TCE up to 2.2 mg/kg in soil and up to 230 mg/l in GW sample. Five MWs installed along the site perimeter (corner of 9th and Grayson St) in August 1990 to monitor the VOCs plume; additional eight wells installed in 1992. The highest concentrations of TCE was detected in MW-2 located downgradient from the Site. 1.4 mg/l of TCE (April 1991). Add site investigation and removal of the sump, soil excavation and removal of approx.. 1,130 tons in May 1992; TCE was detected in soil up to 17 mg/kg and in water up to 230 mg/l. After the cleanup TCE concentrations were reduced to 0.68 mg/kg and 0.068 mg/l.

**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

In 2013, TMD and Wareham Development reviewed the consolidated HMBP for 800 Heinz Avenue, which included the generators for 2929 Seventh Street, 820 Heinz, 717 Potter, 725 Potter, and 700 Heinz. TMD required a separate HMBP for 2929 Seventh Street and allowed the other generators to be combined as follows: 820 Heinz (820 Heinz and 700 Heinz) and 725 Potter (725 Potter and 717 Potter). In 2017, Wareham Development submitted HMBPs for generators located at 2910 7th Street (petroleum storage of 2,000 gallons) and 740 Heinz (petroleum storage of 660 gallons). On 5/8/2018, Wareham Development submitted an updated HMBP for 820 Heinz in CERS, which added the inventory for the generator servicing 804 Heinz, which sits adjacent to the generator for 820 Heinz. The combined total petroleum storage capacity for the 820 Heinz submission is 1,356 gallons. Wareham Development, or a Professional Engineer on behalf of the facility owner/operator, must make a judgment of what [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Disadvantaged Community:  
Site History:**

Case history for Preliminary Endangerment Assessment can be found at DTSC, with electronic information captured in DTSC's EnviroStor database. Petroleum corrective actions assigned to the City of Berkeley, Toxics Management Division, by DTSC. Property has been used commercially or industrially as a paint formulator. Commercial/industrial activity at this site spans approximately 100 years. Corrective actions implemented to remove impacted soil. Added observation well in excavation area and added oxygen releasing material to soil/groundwater interface to enhance petroleum degradation in groundwater. Fourth quarter monitoring results due in July 2013. Continued improvement of groundwater suggests corrective action completion has met goals and should be considered for no further action.

<b>Gndwater Monitoring Freque:</b>			
<b>Designated Beneficial Use Desc:</b>	Municipal and Domestic Supply, Agricultural Supply, Industrial Service Supply, Industrial Process Supply		
<b>Site History:</b>			

Case history for Preliminary Endangerment Assessment can be found at DTSC, with electronic information captured in DTSC's EnviroStor database. Petroleum corrective actions assigned to the City of Berkeley, Toxics Management Division, by DTSC. Property has been used commercially or industrially as a paint formulator. Commercial/industrial activity at this site spans approximately 100 years. Corrective actions implemented to remove impacted soil. Added observation well in excavation area and added oxygen releasing material to soil/groundwater interface to enhance petroleum degradation in groundwater. Fourth quarter monitoring results due in July 2013. Continued improvement of groundwater suggests corrective action completion has met goals and should be considered for no further action.

**LUST Sites from GeoTracker Search - Cleanup Action Report (as of Feb 24, 2020)**

**Action Type:** EXCAVATION  
**Phase:** Soil, Water  
**Contaminant Mass Removed:** 4,720 Pounds  
**Description:** Approximately 5900 tons of soil were excavated during corrective action implementation. The estimated pounds removed is based on an estimated average soil concentration of 400 mg/kg. Groundwater treated to enhance natural degradation through the addition of an oxygen-releasing material, thus determining amount of contaminant removed from groundwater is not possible.

**Begin Date:** 1/10/2012  
**End Date:** 6/21/2013

<b>RB Case No:</b>	01-0557	<b>Potential COC:</b>	Acetone, Other Solvent or Non-Petroleum Hydrocarbon
<b>Local Case No:</b>	01-0557	<b>How Discovered:</b>	Tank Closure
<b>Begin Date:</b>	4/18/1990	<b>Stop Method:</b>	Close and Remove Tank
<b>Lead Agency:</b>	SAN FRANCISCO BAY RWQCB (REGION 2)	<b>Stop Description:</b>	Close UST
<b>Local Agency:</b>	BERKELEY, CITY OF	<b>Case Worker:</b>	UUU
<b>CUF Case:</b>	NO	<b>File Location:</b>	Local Agency
<b>Potential Media of Concern:</b>	Other Groundwater (uses other than drinking water), Soil		
<b>How Discovered Description:</b>	Tank Closure/removal		
<b>Calwater Watershed Name:</b>	Bay Bridges - Berkeley (203.30)		
<b>DWR GW Subbasin Name:</b>	Santa Clara Valley - East Bay Plain (2-009.04)		
<b>Disadvantaged Community:</b>			
<b>Site History:</b>			

6,000-gal underground single walled tank was removed in October 1990. The UST consisted of two compartments: one contained ethyl alcohol, the other propanol. Soil samples contained small amounts of DCA and TCA; no petroleum hydrocarbons detected. A groundwater sample collected from the excavation contained up to 19 ug/l of TCE, 5,000 ug/l of TCA, and other VOCs. The groundwater was pumped out prior to backfilling the excavation. A soil and GW investigation conducted in June 1992 included installation of 3 monitoring wells. Only one soil sample contained 160,000 ug/l acetone. The source of the acetone was unknown. GW samples from the MWs revealed chlorinated solvent contamination and some TPH contamination in all wells. Two additional MWs installed in 1993 (one off-site); four soil borings advanced as well. TCE was reported in the grab water sample from B-4 up to 2,800 ug/l. The review of the environmental data for the neighboring properties may suggest that there are other additional off-site sources of the VOCs not associated w/the former Emerald Packaging onsite operations. Site Closure Summary dated July 17, 1999 approved by the Berkeley TMD and NFA letter from the Water Board dated October 19, 2000.

**User Defined Beneficial Use:**

**DWR GW Sub Basin:** Santa Clara Valley - East Bay Plain (2-009.04)

**Calwater Watershed Name:** Bay Bridges - Berkeley (203.30)

**Post Closure Site Management:**

**Future Land Use:**

**Cleanup Oversight Agencies:** SAN FRANCISCO BAY RWQCB (REGION 2) (LEAD) - CASE #: 01-0557

CASEWORKER: Regional Water Board

BERKELEY, CITY OF - CASE #: 01-0557

CASEWORKER: GEOFFERY FIEDLER

**Gndwater Monitoring Freque:**

**Designated Beneficial Use** Municipal and Domestic Supply, Agricultural Supply, Industrial Service Supply, Industrial Process Supply

**Desc:**

**Site History:**

6,000-gal underground single walled tank was removed in October 1990. The UST consisted of two compartments: one contained ethyl alcohol, the other propanol. Soil samples contained small amounts of DCA and TCA; no petroleum hydrocarbons detected. A groundwater sample collected rom the excavation contained up to 19 ug/l of TCE, 5,000 ug/l of TCA, and other VOCs. The groundwater was pumped out prior to backfilling the excavation. A soil and GW investigation conducted in June 1992 included installation of 3 monitoring wells. Only one soil sample contained 160,000 ug/l acetone. The source of the acetone was unknown. GW samples from the MWs revealed chlorinated solvent contamination and some TPH contamination in all wells. Two additional MWs installed in 1993 (one off-site); four soil borings advanced as well. TCE was reported in the grab water sample from B-4 up to 2,800 ug/l. The review of the environmental data for the neighboring properties may suggest that there are other additional off-site sources of the VOCs not associated w/the former Emerald Packaging onsite operations. Site Closure Summary dated July 17, 1999 approved by the Berkeley TMD and NFA letter from the Water Board dated October 19, 2000.

**Site History:**

The Vegetable Oil Company, a subsidiary of the Stauffer Oil Company, began construction of the earliest known buildings to occupy the site in 1916-17. All that remains of these earliest structures are the Copra Building (currently owned by Garr Land & Resources, Inc.) And the smokestack of the recently demolished Boiler Room Building. Durkee Famous Foods (hereinafter referred to as Durkee), a subsidiary of Glidden Foods, purchased the site and buildings in 1929. Durkee expanded many of existing buildings and constructed the distinctive Art Deco "Durkee Building", 800 Heinz Avenue, on the northern boundary of the site. Additional expansion of the plant occurred following World War II when building permits were issued for the hydrogenation building, cooling tower deodorizer, storage/ office area, lighted electric sign, and the experimental kitchen. These developments allowed Durkee to describe the plant as the largest refinery of edible oil on the Pacific Coast. Durkee ceased refinery operations at the plant in 1974. The plant lay dormant until November 1976 when Agricom, Inc., an oil processing firm from San Francisco, purchased the property and buildings. Agricom continued to refine vegetable oil at the plant until declaring bankruptcy in 1984. During Agricom's occupation, small portions of the site were rented for other light industrial uses, small businesses, and live/work uses. This included the leasing of the 700 Heinz Avenue property to EBWRI in 1983. In 1985, Wareham Development (Seventh Street Properties II) purchased the site from Charles Duck, the bankruptcy trustee for Agricom, Inc. This purchase included hazardous waste and hazardous materials (caustic liquids) contained in open tanks and sumps on the site, as well as asbestos sidings and coverings on the old Warehouse Building. In June 1985, Wareham Development began the demolition of the buildings on the 2900 Fifth Street property, whereas the 700 Heinz Avenue property was still under lease to EBWRI, who continued to occupy the site until August 1986. In July 1985, the Environmental Health Division of the City of Berkeley, Department of Health and Human Services discovered a black-colored, caustic (pH = 12.6), oily liquid seeping into the drainage swale located on the adjacent SP right-of-way. After a more detailed inspection of the site, the City of Berkeley contacted the California Department of Health Services (DOHS) to further assist in site investigations. The DOHS issued an Order to Post and Fence the area (29 July 1985) and the City of Berkeley issued an Abatement Order (30 July 1985) requiring that the demolition of the site structures be delayed until contamination characterization work be implemented and a remedial action plan developed. The DOHS issued a Determination of Imminent or Substantial Endangerment and Remedial Action Order (August 1985) after inventorying waste products on the 2900 Fifth Street property and sampling the black liquid found in the drainage swale. The order required the removal of the black liquid, a detailed site characterization clean-up of the waste products identified on the 2900 Fifth Street property, and an investigation into the source of the black liquid. The black liquid was removed from the SP drainage swale in September 1985. However, within two weeks after removal of the liquid, the seepage reappeared in the drainage swale. In response to the DOHS orders, Wareham Development and EBWRI each retained consultants to perform site investigation studies, and clean-up of the 2900 Fifth Street property was initiated.

<b>Disadvantaged Community:</b>			
<b>Site History:</b>			

The Business Center is situated in the large, historic industrial building bounded by San Pablo Ave to the east, 9th to the west, Heinz Ave on the north, and Ashby Ave to the south. Originally built by H.W. Heinz in 1927-28 as a cannery for his now-famous ketchup and relish products. The facility had two (2) underground storage tanks (USTs) for refueling their trucks (15,000-gal each, diesel fuel). The USTs were located on the western / northern side of the parcel (see basic site map in SAMPLING RESULTS FROM TANK REMOVAL documents dated 12/11/1987, page 4 of 22). Location of former USTs has been paved over with asphalt for driveway and parking. The previous owner had converted the function of the building to a retail office center and has been used as such by the current owner since the change in ownership in 1984 when the Heinz company moved operations to Tracy, California. Tanks were removed in 1987, with soil excavation and off-site removal. In Sept 1993 TCE (Trichloroethene) was reported above (2,200 ug/L in MW-3) regulatory limits for drinking water (5 ug/L) and is suspect of an off-site source. With monitoring wells and analytical testing, request for case closure came in Jan 1995 based on non-detect levels of petroleum hydrocarbon compounds. Case Closure by the City of Berkeley, Toxics Management Division (TMD) in June of 2013 transferred the case to the Regional Water Board (SF Bay Region 2). There is a likely orphaned TCE groundwater plume at the Site whose source has not been defined as of 9/1/16. The nature and extent of this orphaned groundwater has not been defined to date. This TCE detection in the sole onsite monitoring well exceeds the drinking water MCL. The Berkeley Business Center waste oil tank is not known to be the source of this TCE contamination at the Site.

**Title Description Comments:**

Source investigation work plan - We concur with the recommendation to implement the embedded work plan for additional investigation. Contamination at the location B-3 should be monitored with one year of additional groundwater monitoring at MW-6 before additional investigation is required. If detections of diesel persist, then additional investigation will be required. This concurrence will be followed with an email acceptance of the document by April 30, 2020. The due date for the implementation report for the approved work plan is June 26, 2020.

**Global ID:** T10000014370 **Site Facility Type:** CLEANUP PROGRAM SITE  
**Status:** OPEN - SITE ASSESSMENT **County:** ALAMEDA  
**Status Date:** 4/15/2020 **Latitude:** 37.85436  
**Longitude:** -122.28831  
**Data Source:** Cleanup Program Sites from GeoTracker Search; Cleanup Sites from GeoTracker Cleanup Sites Data Download

**Cleanup Sites from GeoTracker Cleanup Sites Data Download - Facilities Detail**

**RB Case No:** **CUF Case:** NO  
**Local Case No:** **Case Worker:** MS  
**Begin Date:** 1/1/2000 **File Location:**  
**Stop Method:**  
**Lead Agency:** SAN FRANCISCO BAY RWQCB (REGION 2)  
**Local Agency:**  
**Potential COC:**  
**Potential Media of Concern:**  
**How Discovered:**  
**How Discovered Description:**  
**Stop Description:**  
**Calwater Watershed Name:** Bay Bridges - Berkeley (203.30)  
**DWR GW Subbasin Name:** Santa Clara Valley - East Bay Plain (2-009.04)  
**Disadvantaged Community:**  
**Site History:**

**Cleanup Sites from GeoTracker Cleanup Sites Data Download - Regulatory Acitivity**

**Action Type:** Other  
**Date :** 2020-04-10 00:00:00  
**Action:** Leak Reported  
**Action Type:** Other  
**Date :** 2000-01-01 00:00:00  
**Action:** Leak Discovery  
**Action Type:** Other  
**Date :** 2000-01-01 00:00:00  
**Action:** Leak Began

**Cleanup Sites from GeoTracker Cleanup Sites Data Download - Status History**

**Status:** Open - Site Assessment  
**Status Date:** 2020-04-15 00:00:00  
**Status:** Open - Case Begin Date  
**Status Date:** 2000-01-01 00:00:00

**Cleanup Sites from GeoTracker Cleanup Sites Data Download - Regulatory Contacts**

**Contact Type:** Regional Board Caseworker **Address:** 1515 CLAY STREET, SUITE 1400  
**Contact Name:** MAX SHAHBAZIAN **City:** OAKLAND  
**Phone No:**  
**Organization Name:** SAN FRANCISCO BAY RWQCB (REGION 2)  
**Email:** max.shahbazian@waterboards.ca.gov

**Site History:**

The former Veriflo facility operated as a metals-finishing plant from 1968 to 1994. The metals finishing process included five sumps which stored acidic solutions. Volatile organic compounds (VOCs) were also used at the Site and were stored in aboveground storage tanks (ASTs). After Veriflo discontinued operations in 1994, soil and groundwater investigations revealed chemical impacts to soil and groundwater beneath the Site. Results of the investigations indicated elevated concentrations of zinc, nickel, and chrome in shallow soils beneath the former chrome plating room. Elevated levels of VOCs, mostly TCE, were also detected in soil and groundwater sampled near the drain pipes, Sump F located in the pre-treatment room, and the sanitary sewer. In October and November 1996, soils were excavated to remove the heavy metals- and VOC-impacted soils outside the building. The plant building was demolished in 1999. Additional site investigation followed - 13 groundwater MWs were installed at and offsite. Onsite MWs decommissioned due to construction of a new building. There are four remaining offsite wells. Groundwater remediation 2000-2004: injections of potassium permanganate and later implementation of EISB to stimulate degradation of VOCs. Site redeveloped w/new building in 2005. The new building foundation is equipped with a vapor barrier. A passive vent system beneath the slab-on-grade foundation of the new building was installed as an additional mitigation measure to protect on-site occupants from potential intrusion by VOCs vapor. In July 2015 groundwater sampling event of the existing four offsite wells: MW-7, MW-8, MW-10, and MW-11. In general, concentrations of TCE and VC have decreased significantly.

**Site History:**

The former Veriflo facility operated as a metals-finishing plant from 1968 to 1994. The metals finishing process included five sumps which stored acidic solutions. Volatile organic compounds (VOCs) were also used at the Site and were stored in aboveground storage tanks (ASTs). After Veriflo discontinued operations in 1994, soil and groundwater investigations revealed chemical impacts to soil and groundwater beneath the Site. Results of the investigations indicated elevated concentrations of zinc, nickel, and chrome in shallow soils beneath the former chrome plating room. Elevated levels of VOCs, mostly TCE, were also detected in soil and groundwater sampled near the drain pipes, Sump F located in the pre-treatment room, and the sanitary sewer. In October and November 1996, soils were excavated to remove the heavy metals- and VOC-impacted soils outside the building. The plant building was demolished in 1999. Additional site investigation followed - 13 groundwater MWs were installed at and offsite. Onsite MWs decommissioned due to construction of a new building. There are four remaining offsite wells. Groundwater remediation 2000-2004: injections of potassium permanganate and later implementation of EISB to stimulate degradation of VOCs. Site redeveloped w/new building in 2005. The new building foundation is equipped with a vapor barrier. A passive vent system beneath the slab-on-grade foundation of the new building was installed as an additional mitigation measure to protect on-site occupants from potential intrusion by VOCs vapor. In July 2015 groundwater sampling event of the existing four offsite wells: MW-7, MW-8, MW-10, and MW-11. In general, concentrations of TCE and VC have decreased significantly.

<b>Title Description Comments:</b>		Tel. conversation w/consultant TRC re WB comments on the 2015 Addendum to RBCA Report. The site does not meet the criteria for low-threat closure at this time. Although the Addendum follows our guidance document, the Assessment Tool for Closure of Low-Threat Chlorinated Solvent Sites (2009), it does not provide adequate responses to some criteria. An email w/summary of comments will be prepared shortly.

**Site History:**

The former Berkeley Pump site is located in a commercial and industrial area in the city of Berkeley. The original building no longer exists. Presently, Bancroft Plaza, a commercial office complex at the corner of Bancroft way and Sixth Street is on the former Berkeley Pump site. The site included a former coal storage area, 2 pump test pits, a former chemical manufacturing area, a machine shop, an abandoned building formerly used as a macaroni factory and a former greenhouse area. A Phase II Environmental Site Assessment was conducted by Kennedy/Jenks/Chilton in 1988. As part of that assessment the excavation in the machine shop building was expanded. Approximately 35 cubic yards of soil was excavated. Following the excavation, five soil samples from walls and floor of the new excavation were collected. The samples were analyzed for petroleum hydrocarbon and volatile organic compounds (VOCs). No petroleum hydrocarbons or VOCs were detected in any of the five soil samples. The excavated soils were aerated onsite and one soil sample was collected. No VOCs or petroleum hydrocarbons were detected. 0.3 ug/l of kerosene was detected in a groundwater sample collected from a supply well in the machine shop. The San Francisco Bay Regional Water Quality Control Board's Environmental Screening Level (ESL) for kerosene is 100 ug/l. Two monitoring wells (MW-1, MW-2) were constructed and samples were collected in May and August 1988. No petroleum hydrocarbons or VOCs were detected. A year of quarterly groundwater sampling was conducted at the Berkeley Pump site starting in March 1989 to provide the City of Berkeley with data set to evaluate groundwater quality. Four monitoring events detected 0.36 mg/l to 2.3 mg/l of kerosene in MW-2. 1.2 to 1.3 mg/l of motor oil were detected in MW-1. Seven ug/l of xylene was detected in a well MW-2 in March 1989. However, no xylene has been found in subsequent monitoring. The City of Berkeley approved the site closure for 829 Bancroft Way in May 1990.

<b>DWR GW Subbasin Name:</b>	Santa Clara Valley - East Bay Plain (2-009.04)		
<b>Disadvantaged Community:</b>			
<b>Site History:</b>			

The Site is situate within a mix of commercial and residential zoning, on the southeastern corner of San Pablo Ave and Derby Street in Berkeley, California. A single structure (Cooper Hawkins) sits in the western part of the parcel, while the fully asphalt-paved yard comprises the balance of the Site. In May, 1992 a 550-gal underground storage tank (UST) was removed. The soil was screened for TPH-g (total petroleum hydrocarbons as gasoline) and benzene, a petroleum contaminant. No groundwater was tested. Subsequent soil testing found no TPH-g or related compounds above regulatory limits in on Site soil samples.

**Gndwater Monitoring Freque:**  
**Designated Beneficial Use** Municipal and Domestic Supply, Agricultural Supply, Industrial Service Supply, Industrial Process Supply  
**Desc:**  
**Site History:**

The Site is situate within a mix of commercial and residential zoning, on the southeastern corner of San Pablo Ave and Derby Street in Berkeley, California. A single structure (Cooper Hawkins) sits in the western part of the parcel, while the fully asphalt-paved yard comprises the balance of the Site. In May, 1992 a 550-gal underground storage tank (UST) was removed. The soil was screened for TPH-g (total petroleum hydrocarbons as gasoline) and benzene, a petroleum contaminant. No groundwater was tested. Subsequent soil testing found no TPH-g or related compounds above regulatory limits in on Site soil samples.

----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

The site is located between Channing Way to the north and Bancroft Way to the south on San Pablo Avenue. Julius Chase purchased the property in 1939 from Joe Long and operated an auto wrecking yard on site to approximately 1980. The property originally extended from San Pablo to 10th Street and consisted of a storage lot and a brick building used to support auto wrecking activities. The western half of the lot was sold and residential homes were built on 10th Street. In 1967 or 1968, most of the site was paved except, two small areas located west along the fence separating residential homes and this site. Soil contamination is located in an unpaved section of approximately ten (10) feet by forty (40) feet, along the property's western boundary adjacent to residential homes' backyards. An A&W Root Beer restaurant was built on the eastern portion of the lot and operated until 1980. In 1980, the restaurant closed, and the eastern parcel was divided into two lots, Ali Baba restaurant and Greg's Auto Repair (in the brick building) which occupied the northern and southern portion respectively. The auto repair shop operated under Greg's Auto Repair from 1980 to March 1983. Under different ownership, the shop operated from 1983 to 1988 under various names such as Mitchell's Auto Repair, Peter's Automotive Service, Peter Mitchell Imports and Berkeley Auto Repair. The property was sold in April 1999. Currently, there are no business activities at the site. The site is fenced.

<b>Potential Contamin of Concern:</b>	

LEAD, METHYLENE CHLORIDE, TPH-DIESEL, TPH-GAS

**Site History:**

The site is located between Channing Way to the north and Bancroft Way to the south on San Pablo Avenue. Julius Chase purchased the property in 1939 from Joe Long and operated an auto wrecking yard on site to approximately 1980. The property originally extended from San Pablo to 10th Street and consisted of a storage lot and a brick building used to support auto wrecking activities. The western half of the lot was sold and residential homes were built on 10th Street. In 1967 or 1968, most of the site was paved except, two small areas located west along the fence separating residential homes and this site. Soil contamination is located in an unpaved section of approximately ten (10) feet by forty (40) feet, along the property's western boundary adjacent to residential homes' backyards. An A&W Root Beer restaurant was built on the eastern portion of the lot and operated until 1980. In 1980, the restaurant closed, and the eastern parcel was divided into two lots, Ali Baba restaurant and Greg's Auto Repair (in the brick building) which occupied the northern and southern portion respectively. The auto repair shop operated under Greg's Auto Repair from 1980 to March 1983. Under different ownership, the shop operated from 1983 to 1988 under various names such as Mitchell's Auto Repair, Peter's Automotive Service, Peter Mitchell Imports and Berkeley Auto Repair. The property was sold in April 1999. Currently, there are no business activities at the site. The site is fenced.

 Local Case No: TT01-1444  
 Begin Date: 5/8/1986  
 Lead Agency: SAN FRANCISCO BAY RWQCB (REGION 2)

Potential COC: Gasoline  
 How Discovered: Tank Closure  
 Stop Method: Close and Replace Tank  
 Stop Description: Remove tanks and replace, Single-wall fiberglass

Local Agency: BERKELEY, CITY OF  
 CUF Case: YES  
 Case Worker:  
 File Location: Local Agency

Potential Media of Concern: Aquifer used for drinking water supply, Indoor Air, Soil, Soil Vapor  
 How Discovered Description: During replacement of underground tanks.  
 Calwater Watershed Name: Bay Bridges - Berkeley (203.30)  
 DWR GW Subbasin Name: Santa Clara Valley - East Bay Plain (2-009.04)  
 Disadvantaged Community:  
 Site History:

The site is an active service station dispensing 76•-branded gasoline located on the northeast corner of the intersection of Ashby Avenue and 7th Street in Berkeley, Alameda County, California. The Alameda County Assessor's Parcel Number is 53•-1641•-9•5. The site is located on 0.18•-acre lot approximately 3,000 feet west of the San Francisco Bay. The service station is located at an elevation of approximately 30 feet above mean sea level. The site is located in a mixed commercial and industrial area and is bounded on the south by Ashby Avenue (State Highway 13), to the north by Potter Street, to the east by a commercial facility (tub makers), and to the west by 7th Street (beyond which is the former Whole Earth Access/West Marine facility). The station facilities include four 12,000•-gallon underground storage tanks (USTs) containing regular unleaded, mid•]grade unleaded, premium unleaded, and diesel fuels; three fuel dispenser islands; and a small cashier•fs kiosk located in the central portion of the site. Other site features include a treatment system compound containing an air•-sparging/dual-phase extraction system. A service station reportedly has occupied the site for at least 50 years. Southland Corporation (Southland) reportedly acquired the property in 1982, and installed the existing four 12,000•-gallon, single•]walled, fiberglass USTs at the site in 1983 for storage of regular, unleaded, premium unleaded, and diesel fuel and operated a Super 7 Service Station at the site. It is not known if USTs were present on•]site during previous service station operations. In 1986, ownership of the property was transferred to Mr. Keet Neerhan, who subsequently sold the property to Mr. Marvin Goodwyn in 1987. Mr. Goodwyn then leased the property to Union Oil Company of California (Unocal) in 1987. Unocal operated a service station at the site until 1997. Tosco Marketing Company (now ConocoPhillips) assumed the existing site lease in 1997, and currently operates the 76 service station. In 2003, the property was sold to Mr. Ronald Siegel. Mark Bare will provide summarizing our current knowledge of the nature, extent, potential source of this orphaned groundwater and likely soil vapor plume.
