**RB Case No:** 01-0972      **Potential COC:** Alcohols, Acetone, Trichloroethylene (TCE), Diesel, Gasoline, Kerosene  
**Local Case No:** TT01-0972      **How Discovered:** Tank Closure  
**Begin Date:** 1/13/1987      **Stop Method:** Close and Remove Tank  
**Lead Agency:** SAN FRANCISCO BAY RWQCB (REGION 2)      **Stop Description:** Closed tanks by removal and In-place closure  
**Local Agency:** BERKELEY, CITY OF      **Case Worker:** KEB  
**CUF Case:** NO      **File Location:** Local Agency  
**Potential Media of Concern:** Other Groundwater (uses other than drinking water)  
**How Discovered Description:** Primarily during UST closures and investigations  
**Calwater Watershed Name:** Bay Bridges - Berkeley (203.30)  
**DWR GW Subbasin Name:** Santa Clara Valley - East Bay Plain (2-009.04)  
**Disadvantaged Community:**  
**Site History:**

The Site has operated as a bus maintenance facility for the Berkeley Unified School District (BUSD) from 1971 to 1994, when the property was sold to Miles in 1992. Prior to 1971 it was used by a storage tank and rail car manufacturer. The current Site is a portion of the Miles facility with two (2) buildings, one a vehicle maintenance structure, and the other an office. Four (4) underground fuel storage tanks (UFSTs) and one (1) underground storage tank (UST) and one (1) oil-water separator were removed from the Site in 1993. Approx. 1,850 cubic yards of soil were also removed, along with 2,700 gallons of groundwater in order to help in the excavation process.

**Regulatory Activity**

**Action Type:** ENFORCEMENT

<b>Gndwater Monitoring Freque:</b>			
<b>Designated Beneficial Use Desc:</b>	Municipal and Domestic Supply, Agricultural Supply, Industrial Service Supply, Industrial Process Supply		
<b>Site History:</b>			

The Site has operated as a bus maintenance facility for the Berkeley Unified School District (BUSD) from 1971 to 1994, when the property was sold to Miles in 1992. Prior to 1971 it was used by a storage tank and rail car manufacturer. The current Site is a portion of the Miles facility with two (2) buildings, one a vehicle maintenance structure, and the other an office. Four (4) underground fuel storage tanks (UFSTs) and one (1) underground storage tank (UST) and one (1) oil-water separator were removed from the Site in 1993. Approx. 1,850 cubic yards of soil were also removed, along with 2,700 gallons of groundwater in order to help in the excavation process.

TRICHLOROETHYLENE (TCE), UNSPECIFIED OIL CONTAINING WASTE

**Site History:**

The Colgate-Palmolive Company plant in Berkeley, produced soaps, and personal and household cleaning products from 1916 until 1981. It consisted of 27 buildings, a tank farm, several individual storage tanks, and other structures. In October 1981 the Colgate-Palmolive plant ceased operation at the site.

**Date Completed:** 3/18/1991  
**Comments:** SITE SCREENING DONE SITE WAS VETERINARY PHARMACEUTICAL RE- SEARCH AND DEVELOPMENT FACILITY FROM MID 1940'S TO 1950'S. A SCREW WORM REPELLENT WAS DEVELOPED & TESTED; IT WAS THEN BLENDED WITH A SOLVENT AND COAL TAR BASE FOR APPLICATION TO ANIMAL WOUNDS. SURFACE SOIL SAMPLES HAD CARBON TETRA- CHLORIDE (18 MG/KG), CHLOROFORM 994 MG/ KG) AND OTHER PURGEABLE ORGANICS. ONE AREA HAD TOTAL PETROLEUM HYDROCARBON 2,000 PPM @ 30 INCHES BELOW GROUND SURFACE, AND POLYNUCLEAR AROMATICS 410 MG/ KG @ 12 INCHES BELOW THE GROUND SURFACE. A GRAB WATER SAMPLE WAS ANALYZED AND DID NOT HAVE TPH. PEA MEDIUM. THE RP IS WORKING W/CITY HEALTH SERVICES DEPT. IN REMEDIATION

**Citation:** HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)  
**Violation Notes:**

Returned to compliance on 07/11/2019. Table 2: Cross-Reference to SPCC Contingency Requirements in Bayer's Integrated Contingency Plan indicates the contact list and phone numbers are included in Section II attachment C of the Integrated Contingency Plan. The list in attachment C is an Internal Notifications list and does not include the National Response Center, cleanup contractors, and all Federal, State and local agencies who must be contacted in the case of a discharge as described in 112.1(b). Table 2 indicates that the discharge reporting information is found in Section II attachment E and Section III-Annex 2, but these sections do not include the information and procedures that would enable a person reporting an oil discharge to relate all information as described in 40 CFR 112.7(a)(4), including estimates of the total quantity discharged, source of the discharge, cause of the discharge, actions being used to stop, remove, and mitigate the effects of the discharge, and whether an evacuation may be [Truncated]

**Violation Description:**

Failure to include in the SPCC Plan:

1. A contact list and phone numbers for the facility response coordinator, National Response Center, cleanup contractors with an agreement for response, and all Federal, State, and local agencies who must be contacted in case of a discharge
2. Information and procedures that would enable a person reporting an oil discharge to relate all information as described in 40 CFR 112.7(a)(4), unless facility submitted a Facility Response Plan.

Returned to compliance on 07/11/2019. Observed the following: B50, Room 9: Hazardous waste container collecting hazardous waste from HPLC machine is not closed. B50, Room 18A, hood 7099H35: silver staining reagent hazardous waste container does not have an accumulation start date. B50, Room 18A: Hazardous waste container collecting hazardous waste from HPLC machine is not labeled properly. B53, Room 109: Hydranal hazardous waste container does not have accumulation start date, physical state, composition or hazard. B57, Room 223/223A: Cedex Trypan blue solution container in tote near sink is not labeled properly. B57, Room 251: The ethidium bromide container has an accumulation start date of December 7, 2016. B57, Room 333/335: IPA waste bottle is not closed B57, Room 341: Hazardous waste bottles are not closed. Corrective action: Obtain lids or bottles for hazardous waste that meet the closed container requirements and ensure that hazardous waste containers are closed. 6/13/2019 - RTC extension [Truncated]

**Violation Description:**

- Failure to meet the following conditions of satellite accumulation regulations,
- Accumulate up to 55 gallons of hazardous waste or one quart of acute hazardous waste at or near the initial point of accumulation which was under the control of the operator
  - Total time hazardous waste can be accumulated onsite in any generator accumulation area is one year, i.e., the combined accumulation time at a satellite accumulation point and at a 90/180/270 accumulation area (depending on size of generator and distance transported), whichever comes first.
  - The generator complies with sections 66265.171, 66264.172, and 66265.173(a).
  - The container must be clearly marked with the initial date that hazardous waste is first placed in the container and labelled with the words "Hazardous Waste" including specified information
  - Container must be labelled with the date the satellite accumulation limit is reached and moved within three days after reaching the 55 gallon (or one quart) limit to a "90 day" accumulation area
  - 55 gallons (or one quart of acute hazardous waste) of waste per process may be accumulated

Met onsite May 9, 2019 to conduct hazardous materials release response plan and inventory, hazardous waste, aboveground petroleum storage, stormwater and to begin review of the CalARP Program with USEPA - Don Nixon, Robert Lucas, and Kimberly Burckle, and Bayer - Michael Gravink, Dan Rivers, Kingsley Chigbu, Jeffrey Bowan. Additional inspection dates: May 16 & 17, 2019. RMP contact changed November 2018. The RMP is being reviewed and updated as part of the 5 year update. TMD will complete the inspection following receipt of the updated RMP and additional documents. TMD has requested documents for review and completion of the inspection. The CalARP inspection will be completed once those documents have been received and reviewed.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** APSA  
**Eval Source:** CERS  
**Eval Notes:**

The SPCC Plan was reviewed and amended January 2019. The Facility Site Plan has been updated (Section 1.1.1) and the berms for 9098X17, 9098X09, and 0908X01 have been corrected to provide adequate secondary containment (Table 1) per Jeff Bowman. The building TC-1 is referenced in the Facility Layout section of the SPCC Plan but is no longer a Bayer building. Met with Nicholas Joachim, Principal Electrical Engineer, to discuss AST inspections. Spoke with Mark Geiser, California Generator Services, who conducts the generator tests. All employees review the LMS training for environmental awareness, HESS 140-WBT, annually and the training includes a slide on the SPCC plan. TMD does not believe that this slide is adequate to assure that oil handling personnel have adequate understanding of the Plan and discharge prevention procedures annually.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Violations**

<b>Violation Date:</b>	06/29/2015	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HMRRP	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	HSC 6.95 25508.1(a)-(e) - California Health and Safety Code, Chapter 6.95, Section(s) 25508.1(a)-(e)		
<b>Violation Notes:</b>			

Returned to compliance on 12/14/2015. Henkel RTC date was extended because violations that were observed on 6/29 were not reported to Henkel until 8/17 due to GAF vacation, FMLA and sick leave for Henkel representatives. Henkel received a return to compliance inspection on 10/15/15. Hazardous waste violations confirmed as corrected. The deadline to comply with HMBP violation has been extended to allow staff and consulting support to upload chemical inventory information from a spreadsheet. There has not been a functioning spreadsheet, but staff are working with the vendor to correct this. Additional time may be needed to convert the existing inventory of chemicals into the new spreadsheet. Henkel has hired a consultant to support this effort. On 11/16/15, contacted Henkel to request progress report after being forwarded CERS upload template for chemical inventory. Taha Nassar requested an extension to 12/15, though suggested it would be completed sooner. Taha having issues with email, agreed to confirm by as [Truncated]

**Violation Description:**

Failure to electronically update business plan within 30 days of any one of the following events:  
A 100 percent or more increase in the quantity of a previously disclosed material.  
Any handling of a previously undisclosed hazardous materials at or above reportable quantities.  
A change of business address, business ownership, or business name.

- 15) A list of each measure considered but not selected for a detailed evaluation as a potentially viable source reduction measure. For each measure rejected, explain the generator's rationale. This list shall be supplemented for waste streams where no measures were identified with a narrative demonstrating the good faith efforts undertaken to identify measures.
- 16) A timetable for making reasonable and measurable progress towards implementation of the selected source reduction measures specified in subsection (13) of this section. It shall also include an implementation schedule for completing the evaluation of potentially viable source reduction measures and it shall prioritize processes and wastes for future research, development and source reduction analysis,
- 17) P.E. Certification,
- 18) A summary progress report that briefly summarizes the results of implementing the source r; Note: data in [Violation Description] field for some records is truncated from the source.

**Citation:** 22 CCR 15 66265.16 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.16  
**Violation Notes:**

Returned to compliance on 10/15/2015. Henkel failed to demonstrate their training plan satisfies requirements for LQG. No training plan available to show, personnel, their title and job description, required training and frequency of recurring training.

**Violation Description:**

Failure to provide employees within the first six months after the date of their employment, or assignment to the facility, or to work unsupervised, or to a new position at a facility with hazardous waste training to ensure employees are competent in the following areas: hazardous waste management procedures (including contingency plan implementation) relevant to the positions in which they are employed, emergency response and emergency equipment, and procedures for using, inspecting, repairing, and replacing facility emergency and monitoring equipment. In addition, the owner/operator shall ensure facility personnel take part in an annual review of the initial training and training records training records on current personnel shall be kept until closure of the facility. Training records on former employees shall be kept for at least three years from the date the employee last worked at the facility. The records shall include the following: the job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job; a written job description for each position, duties of facility personnel assigned to each position, and a written description of the type and amount of both introductory and continuing training that will be given to each person filling a position.

#### Site History:

The Hall-Scott Motor Car Company began manufacturing automobiles at the Berkeley Industrial Court/Temescal Business Center property in 1910. This same company overhauled and rebuilt large marine engines at the property during World War II in support of the war effort. Limited information is available regarding site uses between 1945 and 1967. In 1967, Airco purchased the property for storage of old equipment, spent dolomite, and neutralized chemical metal etching waste prior to disposal. In 1978, the site was divided into two properties: 2850 7th Street and 729 Heinz Avenue. The Berkeley Industrial Court, a multi-tenant rental complex, currently occupies the 729 Heinz Avenue property. The Temescal Business Center, a multi-tenant industrial complex, currently occupies the 2850 7th Street property.

From 1968 to 1990, solvent-based adhesives were manufactured at the National Starch and Chemical Company's 742 Grayson Street facility using toluene, hexane, acetone, and 1,1,1-TCA. Beginning in 1980, water-based adhesive was manufactured at the 800 Grayson Street property, which was previously used as a lumber distribution warehouse.

The source of contaminants in groundwater beneath the sites has not been determined.

**Evaluations**

**Eval Date:** 07/11/2017  
**Violations Found:** No  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Routine Hazardous Materials Business Plan, Hazardous waste and Storm Water facility compliance inspection. The 2017 CERS submission was done on 2.24.27 by Daniel David. Bike repair, storage and mostly personal vehicle storage. The auto repair operation has not been in active for several years according to Daniel David. There is a used car selling operation at the site. There were a number of old cars in various state of repairs mainly stored inside and a number of dissembled/junk cars stored outside along with various junk car parts. While the exterior and interior were messy & unkempt, there was no spilled liquids or oil noted on the grounds. Several 55-gallon drums were on the property and were noted to be empty or containing water. The two 1/4 full drums of oil were reported as being moved from the foundry and were in the process of being used. Daniel David stated he has a car dealers license for selling used cars. The electric bicycle shop and small quantity used car [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 10/10/2014

**Site History:**

Groundwater contamination due to a plating shop operations since 1960's; historical spills and leaks around tanks with chromic acid. Groundwater and soil contaminated with total and hexavalent chromium. Soil and groundwater chromium contamination has been found on- and offsite. In 1991 the City of Berkeley TMD required the RP to prepare a work plan for chromium 6 contamination delineation in soil and GW, a feasibility study for corrective actions to remove chromium from soil and GW, risk assessment, and evaluation of the facility storm water pollution prevention plan. Implementation of the in-situ reduction of Cr 6 to Cr 3 as proposed in the 3/1998 Arcadis Gerathy & Miller revised CAP; installation of 12 injection points on- and offsite and injections of an enriched carbohydrate solution into the saturated and vadose zones in 12/1998 and 4/1999. Site closure requested from the TMD in April 2005 by Tamalpais Environmental Consultants (TEC) based on low concentrations in GW. Additional subsurface treatments in 11/2008 to address residual Cr 6 at the site based on results from well MW-1 downgradient of the former source area. Temporary injection points installed to inject a remediation mixture w/whey and an emulsified soybean oil. An additional round of groundwater remediation injections performed in four locations in June 2013 to address chromium 6 detected in well MW-1. The concentration of chromium 6 in MW-1 was below 10 ug/L during the groundwater monitoring events conducted in 12/2014 and 12/2015 by TEC .

**Site History:**

Groundwater contamination due to a plating shop operations since 1960's; historical spills and leaks around tanks with chromic acid. Groundwater and soil contaminated with total and hexavalent chromium. Soil and groundwater chromium contamination has been found on- and offsite. In 1991 the City of Berkeley TMD required the RP to prepare a work plan for chromium 6 contamination delineation in soil and GW, a feasibility study for corrective actions to remove chromium from soil and GW, risk assessment, and evaluation of the facility storm water pollution prevention plan. Implementation of the in-situ reduction of Cr 6 to Cr 3 as proposed in the 3/1998 Arcadis Gerathy & Miller revised CAP; installation of 12 injection points on- and offsite and injections of an enriched carbohydrate solution into the saturated and vadose zones in 12/1998 and 4/1999. Site closure requested from the TMD in April 2005 by Tamalpais Environmental Consultants (TEC) based on low concentrations in GW. Additional subsurface treatments in 11/2008 to address

<b>Map Key</b>	<b>Number of Records</b>	<b>Direction</b>	<b>Distance (mi/ft)</b>	<b>Elev/Diff (ft)</b>	<b>Site</b>	<b>DB</b>

ACID SOLUTION 2->PH WITH METALS, HALOGENATED SOLVENTS, METALS - SLUDGE, SLUDGE - DEGREASING

**Site History:**

Electro-Coatings, Inc. (ECI) has been operating on the northwest corner of 7th and Carleton Streets in Berkeley, Alameda County since May 1964. The Site is located 18,000 feet east of Aquatic Park and is approximately 1/2 mile east of San Francisco Bay. The surrounding area is zoned for manufacturing and the nearest residential area is approximately 1,000 feet from the site. The property is currently owned by Electro-Coatings, Inc., which is located in Texas. Electro Coatings, Inc., a wholly owned subsidiary of Electro-Coatings Industries Inc. purchased the property in 1984 from the

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB
---------	-------------------	-----------	------------------	----------------	------	----

Mechanics Bank of Richmond, who acted as Trustee under the will fo Dannie C. Harrington, who died in 1975. Harrington Investment Corporation had purchased the property in 1960. In May 1986, ECI filed for bankruptcy under Chapter 11. U.S. Bankruptcy Code. ECI conducted machining and eletroplating operations, which involves the use of re-circulating plating baths (currently triple contained concrete vaults lined with polypropylene). 50/50 mix of chromic acid and water were spilled. On October 7, 1981 rains filled a catch panel on the scrubber unit and released chromic acid to the street gutters and storm drain. Subsequent groundwater monitoring revealed chromium and hexavalent chromium in on-site and off-site monitoring wells. In March 1998, a Corrective Action Plan (CAP) was submitted to the City of Berkeley, Toxics Managment Division ("City"). Following approval of the revised CAP, groundwater remediation was initiated, using the application of a molasses mixture to subsurface via injection or monitoring wells. Subsequently, the molasses was swithed to a proprietary In-situ Reductive Zone Technology (IRZ) remediation solution (cheese whey). Injection events into eight onsite injection points were completed in December '98 and April '99, with an additional limited event following in December 2002. Remediation has significantly decreased, and in some cases, eliminated chromium and hexavalent chromium in on-site and off-site monitoring wells. Concentrations of hexavalent chromium dropped in an on-site monitoring well, from 46,000 ppb in February 1999, to 150 ppb in December 2002, and in another well, from 620,000 ppb in November 1999 to < 10 ppb in December 2002. Most recently, a proposed installation of an additional monitoring well downgradient of the ECI facility, as requested by the City. AS of September 2003, Electro-Coatings is in the process of obtaining a well permit for the installation of this additional well.

**Sub Area Link:**  
**Document Type:** Site Screening  
**Date Completed:** 3/26/1993  
**Comments:** This facility is a possible source for the Cr(VI) found in groundwater below a neighboring facility (Macauley Foundry, 811 Carleton, Berkeley). There is no on-site data available Chromium was found at up to 60ppm in soil and 30 ppm in groundwater at the Macauley facility. The site appears to have no exposed soil, all areas not covered by the building appear to be paved. This facility has a sister facility in Emeryville at 1401 Park St., which has soil and groundwater contaminated with chromium and TCE. A former employee of th city of Berkeley said he believed that in the past the facility disposed of wastes into the ground. The only known use of groundwater in the immediate vicinity id for indust- rial purposes, according to the the well inventory provided the Alameda County Public Works Dept. A hazard ranking pack age will be prepared.

**Violation Notes:**

**Violation Source:** CERS  
**Violation Division:** Berkeley City Toxics Management Division

Returned to compliance on 05/20/2015. At the Landis grinder, solids accumulate in the reservoir of the machine. Facility has an open tray that sits below the opening of this reservoir to catch the overflow and allow the operator to shovel out the sludge. The sludge in this tray is transferred to a hazardous waste drum a couple times per month, according to Aaron. Sludge in process equipment is not considered to be generated until the waste is removed from the equipment. TMD does not consider the open tray part of the equipment and considers the tray an in-process container, which would not need to be closed during working hours. The hazardous waste should be transferred to a closed and properly labeled hazardous waste container at the end of working hours, or the tray can be managed as the hazardous waste container and be labeled and closed, along with compliance for accumulation time limits.

**Violation Description:**

Failure to properly close hazardous waste containers when not in active use.

**Violation Source:** CERS  
**Violation Division:** Berkeley City Toxics Management Division  
**Violation Notes:**

Returned to compliance on 05/20/2015. At the Mesta grinder, Cimtech 46C, a metal working fluid is conveyed from the grinder through a filter and into a tray below that captures the liquid and returns it to the machine. The sludge and filter are transferred to a hazardous waste container and managed as non-RCRA hazardous waste (grinding sludge). This material meets the recycling exemption of HSC 25143.9. However, the facility has not complied with the requirements of HSC 25143.9 in that the tank/tray is not labeled in accordance with generator requirements except that the tank shall be labeled with the words "Excluded Recyclable Material" instead of the words hazardous waste.

**Violation Description:**

<b>Map Key</b>	<b>Number of Records</b>	<b>Direction</b>	<b>Distance (mi/ft)</b>	<b>Elev/Diff (ft)</b>	<b>Site</b>	<b>DB</b>
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

Failure to meet the following requirements of excluded recyclable materials:

- 1) Used or reused as an ingredient in an industrial process to make a product if the material is not being reclaimed,
- 2) Used or reused as a safe and effective substitute for commercial products if the material is not being reclaimed,
- 3) Returned to the original process from which the material was generated, without first being reclaimed, if the material is returned as a substitute for raw material feedstock, and the process uses raw materials as principal feedstocks,
- 4) The material is recycled and used at the same facility at which the material was generated, or by the same corporate entity,
- 5) The material is recycled within the applicable generator accumulation time,
- 6) The material is managed in accordance with all applicable requirements for generators of hazardous wastes,
- 7) If the material is held in a container or tank, the container or tank is labeled, marked, and placarded in accordance with the department's hazardous waste labeling, marking, and placarding requirements which are applicable to generators, except that the container or tank shall be labeled or marked clearly with the words "Excluded Recyclable Material" instead of the words "Hazardous Waste,"
- 8) If the material is used oil, the containers, aboveground tanks, and fill pipes used to transfer oil into underground storage tanks shall also be labeled and clearly marked with the words "Used Oil",
- 9) The owner or operator of the business location where the material is located has a business plan that meets the following minimal requirements: emergency response plans and procedures, which specifically address the material or that meets the emergency response and contingency requirements which are applicable to generators of hazardous waste, and
- 10) The material shall be stored and handled in accordance with all local ordinances and codes.

**Violations**

<b>Violation Date:</b>	04/04/2016	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HWLQG	<b>Violation Division:</b>	Berkeley City Toxics Management Division

<b>Violation Notes:</b>			

Returned to compliance on 05/20/2015. TMD observed, during the inspection, blasting media on ground around sand blast room and out to the loading area of the building. TMD observed square holes in the side of the sand blast room through which a hose runs through. These holes are larger than the hose, and the accumulation of sand blast media below the hole appears to indicate this is a source of release of media from the room. The blasting media is collected and managed as hazardous waste, non-RCRA hazardous waste (hopper dust). Generator failed to maintain and operate facility in a manner to protect against/prevent any unplanned release to air, soil or surface water. Corrective action: Immediately clean up the area around the sand blast room and manage in accordance with hazardous waste regulations. Provide TMD with a plan outlining how the facility will change its operation to minimize the possibility of the release of blasting media.

**Violation Description:**

Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to the air, soil, or surface water which could threaten human health or the environment.

<b>Violation Notes:</b>			

Returned to compliance on 06/05/2015. The hazardous waste training was last conducted 12/2013. Refresher training is to be conducted on an annual basis. Generator did not provide refresher training for employees. Corrective action: Conduct training and provide a copy of the training record to TMD.

**Violation Description:**

Failure to provide employees within the first six months after the date of their employment, or assignment to the facility, or to work unsupervised, or to a new position at a facility with hazardous waste training to ensure employees are competent in the following areas: hazardous waste management procedures (including contingency plan implementation) relevant to the positions in which they are employed, emergency response and emergency equipment, and procedures for using, inspecting, repairing, and replacing facility emergency and monitoring equipment. In addition, the owner/operator shall ensure facility personnel take part in an annual review of the initial training and training records training records on current personnel shall be kept until closure of the facility. Training records on former employees shall be kept for at least three years from the date the employee last worked at the facility. The records shall include the following: the job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job; a written job description for each position, duties of facility personnel assigned to each position, and a written description of the type and amount of both introductory and continuing training that will be given to each person filling a position.

Hazardous waste containers are in good condition, kept closed when not adding or removing waste, properly labeled. Hazardous wastes are accounted for in inventory and shipment records. Hazardous Waste manifests were reviewed for 2018-2019. Wastes shipped off are consistent with waste reported on CERS inventory. Fire extinguishers are properly serviced and inspected about monthly. Emergency eyewash stations are available throughout the facility and are inspected monthly. Emergency phone numbers and facility map are posted in office area, near a phone. Weekly hazardous waste inspections are conducted to account for hazardous waste and verify proper containment. Hazardous waste management training was provided to 9 employees 6/2018. Training will need to be conducted by 6/2019. Note that the person signing the manifests is required to have training. ; Note: data in [EVAL Notes] field for some records is truncated from the source.

Onsite for routine hazardous waste inspection at facility. Operations at this facility include hard chrome plating, copper plating, electroless nickel plating, sandblasting and various machining. Met with Aaron Plechaty, Production Manager, for inspection. Aaron indicates they do not conduct cyanide solution plating. They had a clean out of lab chemicals in 2014. Reveiwed hazardous waste manifests. Manifest 013193084JJK, dated 6/10/14 does not have a designated facility to generator copy. Aaron indicates they do not have a process for ensuring receipt of these copies, and has not submitted an exception report to DTSC. Aaron indicates they do send a copy of the manifest to DTSC. Reviewed training program and records. One employee has hazwoper training. Confirmed that facility completes and submits as appropriate biennial report and SB 14 reports. Walkthrough - Aaron conducts

<b>RB Case No:</b>	01S0742	<b>CUF Case:</b>	NO
<b>Local Case No:</b>		<b>Caseworker:</b>	CH
<b>Begin Date:</b>	3/8/2001	<b>File Location:</b>	All Files are on GeoTracker or in the Local Agency Database

**Stop Method:**  
**Lead Agency:** SAN FRANCISCO BAY RWQCB (REGION 2)  
**Local Agency:**  
**Potential COC:**  
**Potential Media of Concern:** Aquifer used for drinking water supply, Other Groundwater (uses other than drinking water)  
**How Discovered:** \* GOV  
**How Discovered Description:**  
**Stop Description:**  
**Calwater Watershed Name:** Bay Bridges - Berkeley (203.30)  
**DWR GW Subbasin Name:** Santa Clara Valley - East Bay Plain (2-009.04)  
**Disadvantaged Community:**  
**Site History:**

Groundwater contamination due to a plating shop operations since 1960's; historical spills and leaks around tanks with chromic acid. Groundwater and soil contaminated with total and hexavalent chromium. Soil and groundwater chromium contamination has been found on- and offsite. In 1991 the City of Berkeley TMD required the RP to prepare a work plan for chromium 6 contamination delineation in soil and GW, a feasibility study for corrective actions to remove chromium from soil and GW, risk assessment, and evaluation of the facility storm water pollution prevention plan. Implementation of the in-situ reduction of Cr 6 to Cr 3 as proposed in the 3/1998 Arcadis Gerathy & Miller revised CAP; installation of 12 injection points on- and offsite and injections of an enriched carbohydrate solution into the saturated and vadose zones in 12/1998 and 4/1999. Site closure requested from the TMD in April 2005 by Tamalpais Environmental Consultants (TEC) based on low concentrations in GW. Additional subsurface treatments in 11/2008 to address residual Cr 6 at the site based on results from well MW-1 downgradient of the former source area. Temporary injection points installed to inject a remediation mixture w/whey and an emulsified soybean oil. An additional round of groundwater remediation injections performed in four locations in June 2013 to address chromium 6 detected in well MW-1. The concentration of chromium 6 in MW-1 was below 10 ug/L during the groundwater monitoring events conducted in 12/2014 and 12/2015 by TEC .

CASEWORKER: CELINA HERNANDEZ  
BERKELEY, CITY OF

**Site History:**

Groundwater contamination due to a plating shop operations since 1960's; historical spills and leaks around tanks with chromic acid. Groundwater and soil contaminated with total and hexavalent chromium. Soil and groundwater chromium contamination has been found on- and offsite. In 1991 the City of Berkeley TMD required the RP to prepare a work plan for chromium 6 contamination delineation in soil and GW, a feasibility study for corrective actions to remove chromium from soil and GW, risk assessment, and evaluation of the facility storm water pollution prevention plan. Implementation of the in-situ reduction of Cr 6 to Cr 3 as proposed in the 3/1998 Arcadis Gerathy & Miller revised CAP; installation of 12 injection points on- and offsite and injections of an enriched carbohydrate solution into the saturated and vadose zones in 12/1998 and 4/1999. Site closure requested from the TMD in April 2005 by Tamalpais Environmental Consultants (TEC) based on low concentrations in GW. Additional subsurface treatments in 11/2008 to address residual Cr 6 at the site based on results from well MW-1 downgradient of the former source area. Temporary injection points installed to inject a remediation mixture w/whey and an emulsified soybean oil. An additional round of groundwater remediation injections performed in four locations in June 2013 to address chromium 6 detected in well MW-1. The concentration of chromium 6 in MW-1 was below 10 ug/L during the groundwater monitoring events conducted in 12/2014 and 12/2015 by TEC .

<b>Violation Program:</b>	HMRP	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)		
<b>Violation Notes:</b>			

Returned to compliance on 09/22/2019. Facility failed to establish and adequately implement a Hazardous Materials Business Plan (HMBP). The facility exceeds the specified thresholds of hazardous materials required to submit a HMBP in accordance with BMC 15.12.050. Therefore, the facility meets the requirements to report hazardous materials inventory and submit a HMBP. Corrective Action: Please establish a Hazardous Materials Business Plan

**Evaluations**

**Eval Date:** 09/18/2014  
**Violations Found:** No  
**Eval General Type:** Other/Unknown  
**Eval Type:** Other, not routine, done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

TMD confirmed all HazMats have been moved offsite.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 09/18/2014  
**Violations Found:** No  
**Eval General Type:** Other/Unknown  
**Eval Type:** Other, not routine, done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HW  
**Eval Source:** CERS  
**Eval Notes:**

Conducted a closure inspection, confirmed site is not generating HW anymore.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 08/23/2019  
**Violations Found:** Yes  
**Eval General Type:** Other/Unknown  
**Eval Type:** Other, not routine, done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Conducted a screening for hazardous materials and hazardous waste. At any one time during a year, if a facility uses, handles, stores, or generates combined (aggregate) quantities of hazardous materials and hazardous waste in amounts = 55 gallons for liquids, 500 pounds for solids, and/or 200 cubic feet of compressed gases, the facility must submit a Hazardous Materials Business Plan (HMBP), and must submit a Hazardous Waste Generator form for any amount of waste. Facility has laboratories and produces biomaterials including putty for expedited bone-healing. Facility is kept clean and aisles are clear; fire extinguishers are current and need servicing in October of 2019. Flammable storage lockers are in use and self-shutting. Representative states that no hazardous waste or biohazardous waste is generated at the facility - sodium bicarbonate is used to neutralize all wastes which are then washed into sanitary sewer. TMD to verify that this is an acceptable [Truncated]; Note: data in [EVAL Notes] field for some records is

**Violations**

<b>Violation Date:</b>	01/09/2018	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HW	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173		
<b>Violation Notes:</b>			

Returned to compliance on 02/28/2018. The used oil drum in the back corner of the hazardous waste storage area is covered with a grate and is not closed. The used oil tank lid is not closed when not adding or removing waste. Corrective action: Maintain these containers/tanks closed except when adding or removing hazardous waste. 2/14/18 - Spoke with Pamela and received email. Extension granted.

**Violation Description:**

Failure to meet the following container management requirements:

- (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
- (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

**Violations**

<b>Violation Date:</b>	01/09/2018	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HW	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	40 CFR 1 265.177 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.177		
<b>Violation Notes:</b>			

Returned to compliance on 02/28/2018. John indicates the used antifreeze usually gets added to the used oil container for disposal. Used oil may not be mixed with other hazardous wastes or other materials. Corrective action: Maintain a separate container for the used antifreeze and label properly as hazardous waste. 2/14/18 - Spoke with Pamela and received email. Extension granted.

**Violation Description:**

Failure to separate incompatible wastes from the same container, nearby containers, or unwashed containers which previously contained incompatible waste or materials.

**Violations**

<b>Violation Date:</b>	01/09/2018	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HMRPP	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)		
<b>Violation Notes:</b>			

Returned to compliance on 03/02/2018. The emergency response plan does not include immediate notification to the CUPA in the event of a release or threatened release of a hazardous material and does not include the phone number of the CUPA. Corrective action: Complete and submit an emergency response plan which contains the notification to the CUPA and the phone number in CERS. A template can be found here: <https://calepa.ca.gov/wp-content/uploads/sites/62/2017/05/CUPA-Documents-eTemplates-Contingency.pdf>. 2/14/18 - Spoke with Pamela and received email. Extension granted.

**Violation Description:**

Failure to establish and electronically submit an adequate emergency response plan and procedures for a release or threatened release of a hazardous material.

**Violations**

<b>Violation Date:</b>	01/09/2018	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HMRPP	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)		
<b>Violation Notes:</b>			

Returned to compliance on 02/28/2018. John indicates that they are provided on the job training, but he is not aware of any training documentation. Corrective action: Provide a training to employees reviewing hazards of materials, emergency response procedures, coordination of emergency response actions, notification procedures for local emergency responders, CUPA, Cal OES and onsite and offsite personnel, PPE, use and maintenance of emergency response equipment and supplies, evacuation procedures and any other items included in your in-house developed training program. Document the training and provide a copy of the training record to TMD. 2/14/18 - Spoke with Pamela and received email. Extension granted.

**Violation Source:** CERS  
**Violation Division:** Berkeley City Toxics Management Division  
**Violation Notes:**

Returned to compliance on 03/07/2018. Facility is storing transmission drive train oil, approximately 10, 5 gallon containers, and a 318 cubic foot cylinder of argon/CO2 onsite. This is not disclosed on the inventory. Corrective action: Update the inventory to include all hazardous materials stored onsite. 2/14/18 - Spoke with Pamela and received email. Extension granted.

**Violation Description:**

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

**Violations**

**Violation Date:** 01/09/2018  
**Violation Program:** HW  
**Citation:** HSC 6.5 25250.22 - California Health and Safety Code, Chapter 6.5, Section(s) 25250.22  
**Violation Source:** CERS  
**Violation Division:** Berkeley City Toxics Management Division  
**Violation Notes:**

Returned to compliance on 02/28/2018. The 55 gallon drum of used oil filters was not closed and was not labeled as used oil filters or with an accumulation start date. Corrective action: Maintain the container closed except when adding or removing the filters. Label the drum with the contents and an accumulation start date. 2/14/18 - Spoke with Pamela and received email. Extension granted.

**Violation Description:**

Failure to properly manage used oil and/or fuel filters in accordance with the requirements.

**Violations**

**Violation Date:** 01/09/2018  
**Violation Program:** HW  
**Citation:** HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple  
**Violation Source:** CERS  
**Violation Division:** Berkeley City Toxics Management Division  
**Violation Notes:**

Returned to compliance on 02/14/2018. Facility generates hazardous waste but does not have an active EPA ID number. CAL000273418 is inactive. Corrective action: Submit the application to DTSC, [https://www.dtsc.ca.gov/HazardousWaste/upload/GISS\\_FORM\\_1358.pdf](https://www.dtsc.ca.gov/HazardousWaste/upload/GISS_FORM_1358.pdf), to reactivate your EPA ID number. In addition, ensure to complete the eVerification Questionnaire, electronically, every year. 2/14/18 - Pamela indicates The EPA ID application was submitted by email over 3 weeks ago. She then went online, resubmitted an electronic application and paid the bill 1.5 weeks ago. DTSC hasn't reactivated their EPA ID number.

**Violation Description:**

Hazardous Waste Generator Program - Administration/Documentation - General

**Violations**

**Violation Date:** 01/09/2018  
**Violation Program:** HW  
**Citation:** 40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)  
**Violation Source:** CERS  
**Violation Division:** Berkeley City Toxics Management Division  
**Violation Notes:**

Returned to compliance on 02/28/2018. Employees are not thoroughly familiar with proper waste handling as demonstrated by the container management violations observed at the time of the inspection. Corrective action: Provide a training which reviews the hazardous waste management

<b>Map Key</b>	<b>Number of Records</b>	<b>Direction</b>	<b>Distance (mi/ft)</b>	<b>Elev/Diff (ft)</b>	<b>Site</b>	<b>DB</b>
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

requirements and document the training. Provide a copy of the training record to TMD. 2/14/18 - Spoke with Pamela and received email. Extension granted.

**Violation Description:**

Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.

**Violations**

**Violation Date:** 01/09/2018  
**Violation Program:** HW  
**Citation:** 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)  
**Violation Source:** CERS  
**Violation Division:** Berkeley City Toxics Management Division  
**Violation Notes:**

Returned to compliance on 02/28/2018. The label on the used oil drum in the corner is labeled as hazardous waste, but the label is otherwise illegible. Corrective action: Clean the label on the drum or place a new label on the drum with all required information. 2/14/18 - Spoke with Pamela and received email. Extension granted.

**Violation Description:**

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

**Evaluations**

**Eval Date:** 04/29/2015

**Eval Notes:**

Training records available and appropriate to operations. Waste disposal records complete. ER posting near phone.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 01/09/2018  
**Violations Found:** Yes  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Met with John Burke to confirm the information in the 3/1/2017 HMBP submittal. Please note that the annual review and certification is due 3/1/2018 and must include an update to the hazard categories on the inventory. Please see the items marked on the printed inventory provided by TMD. Observed storage of argon/carbon dioxide, transmission drive train oil, a water bottle of antifreeze, parts washer, propane, used oil, and oil. The 5 gallon water bottle of antifreeze is open and sitting, leaning, on top of the oil tank and is unlabeled. The container must be labeled within 10 days or is considered a hazardous waste. In addition, the container must be stored in a manner to prevent or minimize a release, including closing it. ; Note: data in [EVAL

Notes] field for some records is truncated from the source.

**Eval Date:** 01/09/2018  
**Violations Found:** Yes  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HW  
**Eval Source:** CERS  
**Eval Notes:**

Facility generates used oil, used oil filters, used rags from equipment maintenance and oily water/sludge from the oil water separator. John indicates the rags are taken by the uniform service for laundering and the parts washer is serviced as needed. The copies of waste disposal records onsite were illegible. Provide TMD with copies of waste disposal records for the used oil, used antifreeze, oily debris, oily water, used lead acid batteries and used oil filters. For the hazardous waste manifests, provide the generator retains copy, as well as the designated facility to generator copy. In addition, please provide your procedure for submitting copies of the hazardous waste manifests to DTSC. ; Note: data in [EVAL Notes] field for some records is truncated from the source.

Meeting to discuss 10/16/2018 Soil Remediation Workplan Meeting was held to discuss the soil remediation workplan for source area soil excavation and pre-excavation soil sampling and contingency step-out soil sampling. Discharger proposes to initiate pre-excavation soil sampling on October 25-25 and excavate/backfill from November 12-26. I indicated that I would provide an email response to the workplan prior to the proposed sampling date.

**Action Date:** 11/1/2017  
**Received Issue Date:** 11/1/2017  
**Action:** Meeting  
**Doc Link:**

**Title Description Comments:**

Meeting to discuss Water Board staff concerns following review of 10/18/2017 Updated Phase II ESA Report Meeting with Amy Breckenridge (consultant) and John Blain (discharger rep) to discuss Updated Phase II Investigation Report. Focus of discussions was on issues that need to be resolved in order for the western area of the site impacted with petroleum hydrocarbons (AOC-1) to qualify for low threat closure. Data indicate that the eastern area of the site (AOC-2) appears to be impacted with chlorinated solvents from the Temescal Business Center and Berkeley Industrial Complex located to the south. I indicated my intent to draft a letter in November specifying our position regarding these two issues.

**Action Type:** Other Regulatory Actions  
**Action Date:** 10/18/2017  
**Received Issue Date:** 10/18/2017  
**Action:** Meeting

**Doc Link:**

**Title Description Comments:**

Meeting As a followup meeting to the meeting during prior week, Amy Breckinridge presented the revised scope of work for areas AOC-1 and AOC-2. The revised scope of work included additional groundwater samples downgradient of AOC-1.

**Action Type:** Other Regulatory Actions  
**Action Date:** 5/23/2017  
**Received Issue Date:** 5/23/2017  
**Action:** Meeting  
**Doc Link:**

**Title Description Comments:**

Meeting with discharger representative to discuss site investigation results The meeting with Amy Breckinridge was held to discuss the results of site investigations of petroleum hydrocarbons in AOC-1 and VOC pollutants in AOC. We also discussed the tentative scope of work in order to further define and to remediate pollutants in AOC-1 and to identify pollutant sources in AOC-2. We agreed that Henkel would modify the tentative scope of work and

present the modified scope of work in a meeting in the following week.

**Action Type:** Other Regulatory Actions  
**Action Date:** 6/1/2016  
**Received Issue Date:** 6/1/2016  
**Action:** Site Visit / Inspection / Sampling  
**Doc Link:**  
**Title Description Comments:**

On-site meeting, inspection, observation of remedial investigation sampling During meeting we discussed the tentative schedule for action items. Following the meeting we agreed that the investigation report would be submitted on 7/8/16 or 7/11; I would provide verbal comments to the report; we would meet to discuss the report on 8/11/16; I would provide formal comments by 9/8/16.

**Action Type:** Other Regulatory Actions  
**Action Date:** 2/16/2016  
**Received Issue Date:** 2/16/2016  
**Action:** Technical Correspondence / Assistance / Other  
**Doc Link:**  
**Title Description Comments:**

Meeting with discharger and consultant to present strategy for site investigation Discharger/consultant reviewed the site history and status, potential site redevelopment plans, and described the potential pollutant source areas and investigation strategy.

**Action Type:** Other Regulatory Actions  
**Action Date:** 1/22/2016  
**Received Issue Date:** 1/22/2016  
**Action:** Technical Correspondence / Assistance / Other  
**Doc Link:**  
**Title Description Comments:**

Technical discussion regarding site history, status, and discharger's intent to conduct additional investigations. Amy Grayson initiated contact regarding discharger's intent to conduct additional investigations. I indicated that I would likely provide active oversight due to the site being listed among SB445 inactive cases and the discharger's willingness to move forward.

**Violations**

<b>Violation Date:</b>	08/29/2019	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HMRP	<b>Violation Division:</b>	Berkeley City Toxics Management Division
<b>Citation:</b>	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)		
<b>Violation Notes:</b>			

Returned to compliance on 09/25/2019. Facility failed to establish and adequately implement a Hazardous Materials Business Plan (HMBP). The facility exceeds the specified thresholds of hazardous materials required to submit a HMBP in accordance with BMC 15.12.050. Therefore, the facility meets the requirements to report hazardous materials inventory and submit a HMBP. Corrective Action: Please establish a Hazardous Materials Business Plan (HMBP) within 30 days, by September 28th. To complete a HMBP, please go to [cers.calepa.ca.gov](http://cers.calepa.ca.gov) and create an account. Report complete list of HazMat inventory, Site Map, and Emergency Response/Training Plans.

**Violation Description:**

Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

**Evaluations**

**Eval Date:** 06/18/2020  
**Violations Found:** No  
**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Routine done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Inspection was conducted remotely using video inspection program. Jake walked Toxics Management around the facility. Facility is small, approximately 750 square feet. Materials are all stored indoors. Currently facility has no employees, they were let go because of COVID. Former employees were trained. Please ensure employees receive hazmat safety training within 30 days of hire, when employees return.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 08/29/2019  
**Violations Found:** Yes  
**Eval General Type:** Other/Unknown  
**Eval Type:** Other, not routine, done by local agency  
**Eval Division:** Berkeley City Toxics Management Division  
**Eval Program:** HMRRP  
**Eval Source:** CERS  
**Eval Notes:**

Conducted a screening for hazardous materials and hazardous waste. At any one time during a year, if a facility uses, handles, stores, or generates combined (aggregate) quantities of hazardous materials and hazardous waste in amounts = 55 gallons for liquids, 500 pounds for solids, and/or 200 cubic feet of compressed gases, the facility must submit a Hazardous Materials Business Plan (HMBP), and must submit a Hazardous Waste Generator form for any amount of waste. Facility is small scale a whiskey distillery. They receive chemicals/components for whiskey, then barrel it for sale. The whiskey and chemicals storage room is closed, secure, indoors, and not a threat to storm water. Outdoor area is clear and has seating; dumpster is shared with property next door. No apparent stormwater threats. All fire extinguishers are up to date. Facility operator was able to produce SDSs immediately upon request. Observed -10x 55 gallon drums of ethyl alcohol = 550 gallons -1x 1000 [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.
