Project Description: (please use a separate page if necessary)

The County proposes to restate and amend the existing water supply contracts for the Lopez Water Project to allow the Contractors to store their unused annual water entitlement in Lopez Reservoir for future use. The purpose of the proposed change is to provide the Contractors greater flexibility to better manage their water supply portfolios, which may also include groundwater and allocations from the State Water Project. The project is expected to improve water supply resiliency for the region.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
