Greetings,

After a review of the *Environmental Impact Documents*; no impact to the Visalia Area's local operations and/or public safety by SCH# 2020109026 was identified.

Please let me know should you need further information.

Regards,

Governor's Office of Planning & Research

CC to Division is FYI only.

Special Projects Section (SPS) recently received the referenced "Notice of Completion" environmental impact document from the State Clearinghouse outlined in the attached files (memorandum, checklist, and project file) and/or Web site:

Due to the project's geographical proximity to the Visalia Area, please use the attached checklist to assess its potential impact to local Area/Section operations and public safety.

If IMPACT is determined, responses should be emailed directly to Jason Watts, City of Dinuba, with a "cc" to SCH and myself.

Please call or e-mail if you have any questions.

Thank you,

Mary
