### **Farrell Road and Gibson Canyon Road Intersection Improvements Project Notice of Availability of Initial Study Notice of Intent to Adopt a Mitigated Negative Declaration**

#### **WHAT IS BEING PLANNED?**

Solano Irrigation District (District) proposes to relocate an existing water transmission line, and three distribution lines at the intersection of Farrell Road and Gibson Canyon Road in unincorporated Solano County, California. The purpose of the project is to relocate the water transmission line where it conflicts with the intersection improvements project to be completed by Solano County. The District has prepared an Initial Study with Proposed Mitigated Negative Declaration which examines potential environmental impacts caused by the proposed project.

#### **WHY THIS PUBLIC NOTICE?**

The District has studied the effects this project may have on the environment. The studies within the Initial Study with Proposed Mitigated Negative Declaration show it would not significantly affect the quality of the environment.
