SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108

State Clearinghouse Number: 2020110179

Project Title: Brazelton Pipeline Realignment Project (Lake or Streambed Alteration Agreement No. EPIMS-SOL-39938-R3)

Project Location (Solano): The Project is located at an unnamed tributary to Ulatis Creek in unincorporated area of the County of Solano, State of California; at Latitude 38.379228 °N, Longitude -121.998311 °W; and at the intersection of Farrell Road and Gibson Canyon Road.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement (EPIMS-SOL-39938-R3), pursuant to Fish and Game Code section 1602, to the project Applicant, Solano Irrigation District.

The project is limited to relocating and re-sizing one existing water transmission pipeline and relocating two water distribution pipelines. The portion of the existing 27-inch diameter concrete cylinder transmission pipeline to be relocated begins approximately 80 feet south of the intersection of Gibson Canyon Road and Farrell Road and extends approximately 160 feet northwest under a paved area of the intersection. The pipeline will be relocated and upsized to a 30-inch diameter pipe beginning approximately 80 feet south of the intersection and extending approximately 230 feet along the south side of Farrell Road, then turning north and running under Farrell Road, then turning east and extending approximately 65 feet to connect to the existing water transmission line. An existing 10-inch diameter water main that crosses Gibson Canyon Road just north of the intersection will be relocated approximately 100 feet south of the intersection. Two existing 4-inch water distribution pipelines that run along the east edge of Gibson Canyon Road may be relocated approximately 10 feet west, into an existing paved area.

The Project will result in 0.15 acres and approximately 230 linear feet of temporary impacts to ephemeral stream habitat. The Project will not result in permanent impacts, remove trees, or include stream dewatering.

This is to advise that CDFW, acting as a Responsible Agency, approved the project described above on January 24, 2024 and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the **Mitigated Negative Declaration** prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures **were** made a condition of CDFW's approval of the project.
4. A Mitigation Reporting or Monitoring Plan **was not** adopted by CDFW for this project.
5. A Statement of Overriding Considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to California Code of Regulations section 15091.

Notice of Determination

The Mitigated Negative Declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of project approval as a Responsible Agency is available at CDFW's regional office.
