

**Summary Form for Electronic Document Submittal****Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: TBD

Project Title: Proposed Rule 2305 – Warehouse Indirect Source Rule; Proposed Rule 316 – Fees for Regulation XXIII

Lead Agency: South Coast Air Quality Management District (South Coast AQMD)

Contact Name: Barbara Radlein

Email: bradlein@aqmd.gov Phone Number: 909-396-2716

Project Location: South Coast AQMD Jurisdiction  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

See attached NOP.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The analysis of the proposed project in the Initial Study identifies potentially significant adverse impacts to the environmental topic areas of air quality and greenhouse gas emissions, energy, and transportation (traffic). Each of these environmental topic areas will be further analyzed in the Draft Environmental Assessment and mitigation measures will be adopted, as applicable.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

To date, no controversial issues relevant to the CEQA analysis were raised as a part of developing the proposed project.

Provide a list of the responsible or trustee agencies for the project.

There are no responsible or trustee agencies for the proposed project.

**NOTICE OF PREPARATION (NOP) OF A DRAFT ENVIRONMENTAL ASSESSMENT (EA), INITIAL STUDY (IS), AND OPPORTUNITY FOR PUBLIC COMMENT**

---

**Project Title:** Proposed Rule 2305 – Warehouse Indirect Source Rule - Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program; and Proposed Rule 316 – Fees for Regulation XXIII

---

**Project Location:** The proposed project may affect existing and new warehouses located throughout the South Coast Air Quality Management District (South Coast AQMD) jurisdiction, which includes the four-county South Coast Air Basin (all of Orange County and the non-desert portions of Los Angeles, Riverside and San Bernardino counties), and the Riverside County portion of the Salton Sea Air Basin and the non-Palo Verde, Riverside County portion of the Mojave Desert Air Basin.

---

**Description of Nature, Purpose, and Beneficiaries of Project:** The proposed project is comprised of Proposed Rule (PR) 2305, including a mitigation program component, PR 316 to recover administrative costs, and the submittal of PR 2305 into the State Implementation Plan (SIP). PR 2305 has been developed to facilitate local and regional emission reductions associated with existing and new warehouses with an indoor warehouse floor space equal to or greater than 100,000 square feet within a single building and the mobile sources attracted to these warehouses. Under PR 2305, operators of applicable existing and new warehouses would be subject to an annual Warehouse Actions and Investments to Reduce Emissions (WAIRE) Points Compliance Obligation (WPCO) intended to reduce regional and local emissions from warehouse indirect sources. To meet the WPCO, WAIRE Points can be earned by warehouse operators and/or owners by selecting from a menu of implementation measures: 1) acquiring and/or using near-zero emissions (NZE) and zero-emission (ZE) trucks; 2) acquiring and/or using ZE yard trucks; 3) installing and/or using ZE charging/fueling infrastructure (e.g., electric charger, hydrogen fuel station) for cars, trucks, and/or transport refrigeration units; 4) installing and/or using onsite energy systems (e.g., solar panels); and 5) implementing community benefits (e.g., air filters for sensitive receptors). In addition, warehouse operators may apply to earn WAIRE Points through a custom WAIRE Plan specific to their operations that satisfy prescribed performance metrics. WAIRE Points may be earned only for “surplus” actions that go beyond existing state and federal regulations. In lieu of satisfying the WPCO via implementation measures, a warehouse operator may choose to pay an optional mitigation fee to the South Coast AQMD that would be used in a mitigation program to achieve the emissions reductions. Similar to the measures used to earn WAIRE Points, the mitigation program would implement measures such as subsidizing the purchase of NZE and ZE trucks and/or the installation of charging and fueling infrastructure for ZE trucks. The mitigation program would prioritize use of the mitigation fees in areas near the warehouses using this compliance option. Therefore, the environmental impacts associated with the mitigation program are similar to implementation of measures to earn WAIRE Points and are analyzed in this NOP/IS. Implementation of the proposed project is expected to result in emission reductions of nitrogen oxides and particulate matter, including diesel particulate matter and reduced associated public health impacts from warehouse activities which will vary depending upon the implementation measures employed. There may be additional industrial properties and warehouse operators and owners that will only be required to provide reports but will not be required to earn WAIRE Points. PR 2305 will be submitted into the State Implementation Plan. PR 316 has been developed to establish fees to be paid by warehouses subject to PR 2305 to recover South Coast AQMD administrative costs associated with submittal and review of various notifications and reports, custom WAIRE Plan evaluation, and implementing a program using mitigation fees from warehouse operators that chose to pay a mitigation fee, as well as compliance activities such as conducting desktop audits, onsite inspections, and reviewing records. While reducing emissions is an environmental benefit, the NOP/IS identifies potentially significant adverse impacts to the environmental topic areas of air quality and greenhouse gas emissions, energy, and transportation (traffic). Warehouses that will be subject to the proposed project may be identified on lists compiled by the California Department of Toxic Substances Control per Government Code Section 65962.5.

**NOP/IS Review Period (32 days):** Friday, November 13, 2020 – Tuesday, December 15, 2020

---

**Scheduled Public Meeting Dates (subject to change):** The proposed project may have statewide, regional, or areawide significance; therefore, a CEQA scoping meeting is required (pursuant to Public Resources Code Section 21083.9(a)(2) and CEQA Guidelines Section 15162(d)) and will be held on Wednesday, December 2, 2020 at 1:30 p.m. PR 2305 and PR 316 are scheduled to be considered for adoption at the Governing Board Meeting (Public Hearing) on March 5, 2021 at 9:00 a.m. This date is subject to change. Board meeting agendas, which include details on how the public can participate electronically, are posted at least 72 hours prior to the meeting and are available from South Coast AQMD's website at: <http://www.aqmd.gov/home/news-events/meeting-agendas-minutes>.
