Project Title: Guadalupe River Bridge Replacement Project

Project Applicant: Peninsula Corridor Joint Powers Board

Project Location (include county): Willow St, Delmas Ave, Virginia St, McLellan Ave, Santa Clara County

Project Description: Caltrain operates on two tracks over the Guadalupe River in San José. The northbound track is on a wooden trestle bridge constructed in 1935 and the southbound track is on a concrete bridge constructed in 1990. To address safety issues and protect the bridges, the 187-foot northbound bridge will be replaced with a new, 265-foot concrete bridge; the southbound bridge extended by 90 feet; and the channel widened by approx. 75 feet to create a connection to the existing Santa Clara Valley Water District's Reach 6 Bypass channel which exists downstream of the project. Construction of the project is estimated to take approximately two years and is expected to begin in 2022.

This is to advise that the Peninsula Corridor Joint Powers Board has approved the above (Lead Agency or Responsible Agency)

described project on February 4, 2021 and has made the following determinations regarding the above described project.

- 1. The project will not have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

1250 San Carlos Avenue, San Carlos, CA 94070-1306; and at www.caltrain.com/guadalupebridge
