The San Francisco Planning Department (San Francisco Planning) has studied this project’s potential physical environmental effects and welcomes your comments on the adequacy of the Draft EIR. Refer to the Project Description and Purpose of Notice sections below for more information.

Project Description

A Draft EIR has been prepared by San Francisco Planning in connection with this project as required by the California Environmental Quality Act (CEQA) to study the project’s potential physical environmental effects.

San Francisco International Airport is proposing the Shoreline Protection Program, which would install a new shoreline protection system around the Airport that would comply with current Federal Emergency Management Administration requirements for flood protection against a 100-year flood and would incorporate protection from future sea-level rise. The proposed project would remove the existing shoreline protection features and construct a new shoreline protection system comprised of a combination of reinforced concrete and steel sheet pile walls. These structures would vary from one reach (a segment of shoreline) to another, depending on the existing site characteristics, and would range in height from about 4 feet to about 14 feet above the existing or newly graded ground surface, given that the elevation and slope of the ground varies for each reach.

Draft EIR: The Draft EIR finds that implementation of the proposed project would lead to significant and unavoidable project-level and cumulative impacts related to air quality. The Draft EIR provides a detailed project description, an analysis of physical environmental effects of the project, and identifies feasible mitigation measures and alternatives that would avoid or lessen the severity of project impacts. The Draft EIR is available for public review and comment on the San Francisco Planning Department’s website at sfplanning.org/sfceqadocs and at the San Francisco Permit Center, 49 South Van Ness Avenue, 2nd Floor, San Francisco, CA 94103. Paper

copies and electronic copies (on a flash drive) of the Draft EIR are available upon request to the project planner. Referenced materials are available through the following Planning Department's web pages: sfplanning.org/sfceqadocs and sfplanning.org/resource/permits-my-neighborhood.

Projects on State Hazardous Materials Lists: As required by CEQA Guidelines section 15087(c)(6), the following information is provided because the project site contains multiple listed properties included on the GeoTracker (State Water Resources Control Board) and EnviroStor (California Department of Toxic Substances Control) lists, compiled pursuant to California Government Code section 65962.5. The detailed list of properties and their regulatory identification numbers are available at sfplanning.org/sfceqadocs or by contacting cpc.sfosppeir@sfgov.org.

Purpose of Notice

You are not required to take any action. If you wish to comment on the adequacy of the Draft EIR, you may do so in either or both of the following ways:

The purpose of the public hearing is for the San Francisco Planning Commission and San Francisco Planning staff to receive comments on the adequacy and accuracy of the Draft EIR. The commission will not respond to any of the comments or take action on the project at this hearing. Certification of the Final EIR will be considered at a later hearing. Additional information may be found on San Francisco Planning's website or by contacting the EIR coordinator listed above.

General Information about Procedures

Members of the public are not required to provide personal identifying information when they communicate with San Francisco Planning Commission or staff. All written or oral communications, including submitted personal contact information, may be made available to the public for inspection and copying upon request and may appear on the department's website or in other public documents. Only commenters on the Draft EIR will be permitted to file an appeal of the certification of the Final EIR to the Board of Supervisors.

At the close of the public review period, San Francisco Planning Department will prepare a Responses to Comments document to respond to all comments on the Draft EIR presented at the public hearing and received in writing during the public review period. This Responses to Comments document and all other associated documents will be made available at sfplanning.org/sfceqadocs.

This notice is being issued during the suspension of certain CEQA posting requirements pursuant to San Francisco Administrative Code Chapter 31 requirements. This notice complies with local requirements under the March 23, 2020, Fifth Supplement to the Mayoral Proclamation Declaring the Existence of a Local Emergency dated February 25, 2020.
