Citation: 23 CCR 16 2716(a) through (e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(a) through (e)

Violation Description: For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.

Violation Notes: Returned to compliance on 04/19/2019. OBSERVATION: Facility did not comply with one or more of the following DO monthly inspection requirements: DO inspections conducted after 9/30/2018 must be every 30 days and in accordance with sections 2716(a)-(e). Inspections occurred greater than 30 days on 2 different occasions: between 10/27/18 & 11/27/18(31 days) and again between 12/27/18 & 1/27/19(31 days). CORRECTIVE ACTION: Ensure that DO is complying with all the requirements noted above. Submit copy of compliant DO inspection record.

Violation Source: CERS

Site ID: 395521
Site Name: FRANKLIN ARGYLE INC
Violation Date: 02-19-2019
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)

Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1,- 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Violation Notes: Returned to compliance on 04/04/2019. OBSERVATION: Owner/Operator failed to meet one or more of the requirements applicable to overfill prevention equipment. Was due by 10/13/18, but going to be tested today(2/19/19). Not witnessed by LAFD, results to be reviewed upon submittal. CORRECTIVE ACTION: Apply for permit for new drop tubes and repair/retest. Submit verification.

than drinking water)
Potential Contaminants of Concern: 1,1,1-Trichloroethane (TCA), Acetone, Tetrachloroethylene (PCE), Trichloroethylene (TCE)
Site History: The site, located at the northwest corner of Seward Street and Barton Avenue in Hollywood, was formerly used for film processing activities from 1926 until 2002. The site was occupied by approximately eleven structures (Buildings 1 through 11), parking lots, and an interior courtyard. Film processing and associated activities were conducted in three main buildings; Buildings 1, 2 and 3. The majority of the chemicals that had been used in film processing were stored in the basement of Buildings 2 and 3. Historically, the chemicals used for film processing included isopropyl alcohol, acetone, 1,1,1-Trichloroethane (1,1,1-TCA), Perchloroethylene (PCE), ammonium thiosulfate, and proprietary development solutions. The remaining buildings were used as offices and for other purposes, such as general storage, a maintenance shop, an electrical shop, and for archiving films. Buildings 1 through 11 were demolished between April and August of 2005. The site is presently vacant and awaiting commercial redevelopment.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

The Fire Department responded to scene, evacuating 9 persons from the construction site. The release began at 1323 and was controlled at 1435 hours. The evacuations orders have not yet been lifted. Tamarind Ave (between Sunset and Fountain Ave) remains closed at this time. No waterways were affected. ESAB Construction Contractor Licence Number: E998929. |

| Description: | Caller states that a third party construction operator was excavating and looking for a sewer when they struck a 2" plastic main. The damage to the main and subsequent release of natural gas prompted local Fire Department to order the precautionary evacuation of 180 construction workers and 10 residents from the immediate area. Estimated time of control for the release is 3 hours. |

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

POTW: Not reported
Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Completed Date: 10/01/2001
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Completion Report
Completed Date: 12/12/2001
Comments: Approximately 136 cubic yards of soil were removed. Based on confirmation sampling, the estimated mean for surface soil based on 95% UCL was 0.860 mg/kg and for subsurface 1.91 mg/kg. Based on this, residual arsenic levels are below the cleanup goal.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Workplan
Completed Date: 12/07/2001
Comments: RAW/CEQA - DTSC approved the Removal Action Workplan for the removal of arsenic contaminated soil. CEQA completed.

DTSC will provide oversight for a Preliminary Endangerment Assessment (PEA) for the proposed Central Los Angeles High School No. 1 site (aka Metromedia)

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Certification
Completed Date: 07/02/2002
Comments: DTSC has determined that all appropriate response actions have been completed, that all acceptable engineering practices were implemented and that no further removal/remedial action is necessary, specific only to the removal around the underground storage tank. Additional sampling will be conducted post- demolition near on-site hydraulic elevators and residential structures. For Arsenic only. FA for hydraulic elevators and lead

| Fatafs: Comments: Description: | Not reported Not reported Quoting the NRC report, "Caller reported that a gas meter set was struck by a truck that went out of control due to unknown causes and ignited setting fire to a private residence. Driver was sent to the hospital with injuries. Unknown information about the occupants of the home." Under REMEDIAL ACTIONS the NRC report goes on to state, "In the process of shutting down the service line, expect to have the gas controlled at 1030." |

Site History: There is a State Water Board closure Order for this case issued 2/2/2015. The State Water Board needs confirmation that the corrective action wells and wastes have been removed from the site in order to close the case. Once confirmation has been received State Water Board can issue a Uniform Closure Letter and close the case. Attempts to reach the RP have failed. gwl 4/14/2016.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 04/27/2020

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

LOS ANGELES CO LF METHANE: Methane Producing Landfills

This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

USGS TOPOGRAPHIC MAP

| | |
|----------------------|-----------------------|
| Target Property Map: | 5630741 HOLLYWOOD, CA |
| Version Date: | 2012 |

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

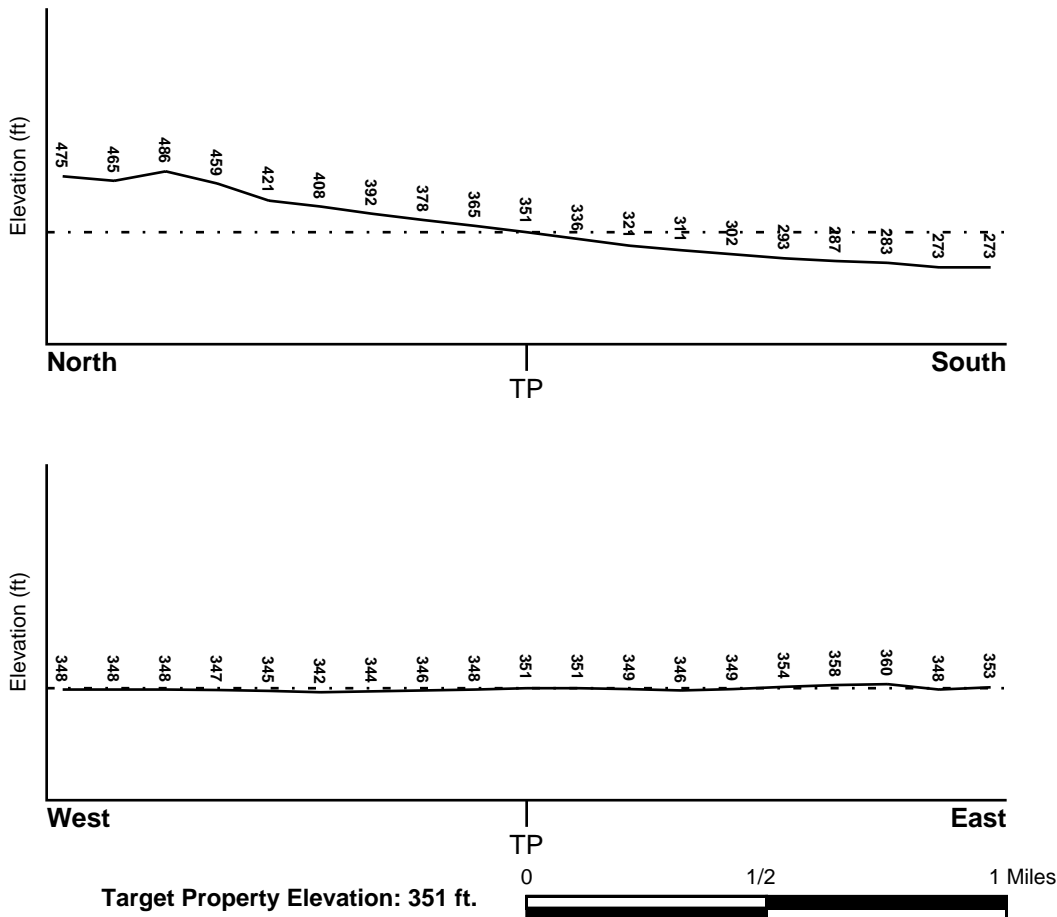

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

| | |
|---|-------------------------|
| <u>Flood Plain Panel at Target Property</u> | <u>FEMA Source Type</u> |
| 06037C1605F | FEMA FIRM Flood data |
| <u>Additional Panels in search area:</u> | <u>FEMA Source Type</u> |
| Not Reported | |

NATIONAL WETLAND INVENTORY

| | |
|------------------------------------|--|
| <u>NWI Quad at Target Property</u> | <u>NWI Electronic Data Coverage</u> |
| HOLLYWOOD | YES - refer to the Overview Map and Detail Map |

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

| | |
|----------------|------------|
| Search Radius: | 1.25 miles |
| Status: | Not found |

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

| <u>MAP ID</u> | <u>LOCATION FROM TP</u> | <u>GENERAL DIRECTION GROUNDWATER FLOW</u> |
|---------------|-------------------------|---|
| 1 | 1/2 - 1 Mile SSW | SW |
| 1G | 1/2 - 1 Mile SSW | SW |

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era: Cenozoic
System: Tertiary
Series: Miocene
Code: Tm (decoded above as Era, System & Series)

GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: URBAN LAND

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 10 inches

Depth to Bedrock Max: > 10 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

| Soil Layer Information | | | | | | | |
|------------------------|----------|----------|--------------------|----------------|--------------|---------------------------|------------------------|
| Layer | Boundary | | Soil Texture Class | Classification | | Permeability Rate (in/hr) | Soil Reaction (pH) |
| | Upper | Lower | | AASHTO Group | Unified Soil | | |
| 1 | 0 inches | 6 inches | variable | Not reported | Not reported | Max: 0.00 Min: 0.00 | Max: 0.00 Min: 0.00 |

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: loam
 clay
 silt loam
 loamy sand
 sandy loam
 fine sand
 clay loam
 gravelly - sandy loam
 coarse sand
 gravelly - sand
 sand

Surficial Soil Types: loam
 clay
 silt loam
 loamy sand
 sandy loam
 fine sand
 clay loam
 gravelly - sandy loam
 coarse sand
 gravelly - sand
 sand

Shallow Soil Types: fine sandy loam
 gravelly - loam
 sand
 silty clay

Deeper Soil Types: stratified
 clay loam
 silty clay loam
 gravelly - sandy loam
 coarse sand
 sand
 weathered bedrock
 very fine sandy loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

RICHARD O'NEIL, P.G. **Senior Project Geologist**

Richard O'Neil has over fourteen years of professional experience in environmental evaluation and remediation. He has performed Phase I Environmental Site Assessments (ESAs), Phase II Subsurface Investigations, as well as soil and groundwater remediation projects. Mr. O'Neil is knowledgeable of federal, state and local regulations governing the environmental industry as they impact environmental assessment.

Professional Experience:

- Performed Phase I ESAs on office, industrial, retail and multi-family residential properties.
- Performed Phase II Subsurface Investigations, Soil and Groundwater Investigations, and Site Characterization, Vapor Phase Contaminant Modeling and Analysis & Remediation Projects for private clients.
- Installations of remediation systems using pump and treat, soil vapor extraction and air sparging technologies.
- Performed remediation of sites with petroleum hydrocarbons, volatile organic compounds and heavy metals resulting in site closures from State Regulatory Agencies.
- Installation of groundwater monitoring wells, soil vapor wells, including monitoring and sampling wells for long-term projects.
- Installation of oxygen diffusion system for bioremediation for in-situ remediation of petroleum hydrocarbon impacted groundwater.
- Installation of oxygen diffusion systems petroleum hydrocarbon remediation.
- Constructed and interpreted geologic cross-sections, groundwater contour maps and contaminant plume maps, generated site and groundwater contour maps, and geologic cross-sections.
- Prepared soil boring and well logs.
- Conducted underground storage tank (UST) removals and associated sampling according to regulatory guidelines.
- Conducted aquifer pump tests.
- Monitored and maintained vapor extraction systems.
- Prepared manifests and supervised the disposal of petroleum hydrocarbon, volatile organic compounds and heavy metal contaminated soils and groundwater.

Education: B.S., Geology, California State University, Northridge, 2003.
Environmental Field Techniques, ISU/NIU, 2003.

Certifications: State of California Professional Geologist. No. 9489

RUSSELL M. COTE
M. Sc., CA P.G. 7139, AZ P.G. 69641
Manager, Environmental Services

Russell M. Cote has over twenty-six years of professional experience in environmental consulting. He has performed numerous Phase I Environmental Site Assessments (ESA's), Phase II Subsurface Investigations and Site Characterizations, Underground Storage Tank (UST) removals, as well as soil, soil vapor and groundwater remediation projects. As manager of environmental services, Mr. Cote personally oversees all environmental projects with BA Environmental. Mr. Cote has interacted with city, county and state environmental agencies within California, as well as Oregon, Washington, Arizona and Texas. Mr. Cote is very knowledgeable of federal, state and local regulations governing the environmental industry and how they impact environmental assessment. Mr. Cote is a State of California licensed Profession Geologist (P.G. #7139) and State of Arizona Professional Geologist (P.G. #69641).

Professional Experience:

- Performed numerous Phase I ESA's on office, industrial, retail, multi-family residential, golf courses and undeveloped properties.
- Conducted numerous environmental audits, environmental transaction screens and environmental compliance audits.
- Conducted and managed numerous Phase II Subsurface Investigations, Soil and Groundwater Investigations, and Site Characterization & Remediation Projects for private clients and public agencies. Assessed numerous sites for contaminants including, petroleum hydrocarbons, fuel oxygenates, volatile organic compounds (VOCs), semi-volatile organic compounds (SVOCs), heavy metals, uranium, polychlorinated biphenyls (PCBs), polycyclic aromatic hydrocarbons (PAHs), explosive compounds and pyrotechnics, perchlorates, pesticides, herbicides, pH, nitrates/nitrites and phosphorus.
- Conducted surface and subsurface soil sampling for pesticides and herbicides for school and public park sites.
- Conducted drinking water surveys and surface water sampling.
- Prepared Environmental Compliance Protocols and conducted surface water sampling to protect wetlands. Prepared Environmental Stewardship Program for shooting ranges.
- Performed hydrogeologic characterizations of subsurface geologic formations in order to develop Remedial Action Plans.
- Prepared subsurface investigation and remedial action work plans.
- Designed and installed remediation systems using pump and treat, soil vapor extraction, air sparging and dual-phase extraction technologies.
- Designed and implemented bioremedial alternatives for in-situ remediation of petroleum hydrocarbon- and VOC-impacted groundwater.
- Designed and implemented chemical oxidation alternatives for in-situ remediation of chlorinated hydrocarbon-impacted groundwater.
- Supervised the excavation and disposal of petroleum hydrocarbon, VOC, SVOC, pH, and heavy metal impacted soil.
- Performed remediation of sites with petroleum hydrocarbons, volatile organic compounds and heavy metals resulting in site closures from State Regulatory Agencies.
- Designed, installed, monitored and sampled groundwater monitoring and soil vapor wells for long-term projects.
- Constructed, generated and interpreted geologic cross-sections, groundwater contour maps, and isoconcentration maps.
- Calculated groundwater flow direction and gradient.
- Calculated contaminate volumes within subsurface soils, soil vapor and groundwater.

- Prepared soil boring and well logs.
- Supervised numerous geophysical surveys for subsurface tanks, structures and abandoned oil wells.
- Supervised the decommissioning of industrial facilities and gasoline service stations.
- Conducted numerous underground storage tank (UST) and wastewater clarifier removals and associated sampling.
- Conducted groundwater pump tests and soil vapor extraction pilot tests.
- Monitored and maintained vapor extraction systems.
- Managed numerous radon and indoor air quality testing for potential intrusion into structures.
- Managed numerous lead-based paint and asbestos investigations.
- Prepared manifests and supervised the disposal of petroleum hydrocarbon, volatile organic compounds and heavy metal contaminated soils and groundwater.
- Conducted Risk Based Assessments to obtain site closure from regulatory agencies.
- Prepared site specific health and safety plans.
- Conducted lead-based paint and asbestos sampling as part of Phase I ESAs.
- Interacted with numerous state, county and local environmental agencies in California, Arizona, Oregon, Washington and Texas.

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professionals as defined in §312.10 of 40 CFR 312. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

EXECUTIVE SUMMARY

BA Environmental (a Division of Building Analytics) has conducted a Phase I Environmental Site Assessment (ESA) at the subject property located at 1413 Cole Place, in the City of Los Angeles, California. This Phase I ESA was conducted in general accordance with ASTM Standard Practice E 1527-13 and the United States Environmental Protection Agency All Appropriate Inquiry (AAI) Rule (as defined in the Code of Federal Regulations 40 CFR Part 312). Any exceptions to, or deletions from, this practice are described in the Objective and Scope of Work Section of this report. This Executive Summary presents a brief summary of the salient portions of the document. The Executive Summary, however, is not a stand-alone document, and must be read in conjunction with the entire Phase I ESA Report.

| Wetlands | X | | | | | | |

- † De Minimis Conditions are those defined as conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. The term de minimis refers to having such a low or minimal risk that it is not considered to be of concern.
- †† Recognized Environmental Condition (REC) is defined as “the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.”
- ††† Historical Recognized Environmental Condition (HREC) is defined as “a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).”
- †††† Controlled Recognized Environmental Condition (CREC) is defined as “a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-

based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).”

††††† An Environmental Concern is defined as any other environmental condition which BA Environmental would not identify/consider a REC, CREC or an HREC.

Note 1: Suspect ACMs were observed on the subject site during the site reconnaissance. All building materials were observed to be in good condition, with a low potential for damage. Some friable suspect ACMs were observed on the subject property. Based on the date of construction of the subject building (constructed in 1985), there is a low to moderate potential for ACMs to exist within the subject building.

Significant Data Gap Summary

| Report Section | Description |
|---|-------------------------|
| Environmental Liens and Activity Use Limitations (AULs) | No significant data gap |
| Interviews | No significant data gap |
| Historical Site Usage | No significant data gap |
| Historical Adjacent Property Usage | No significant data gap |
| Site Reconnaissance | No significant data gap |
| Environmental Agency Files | No significant data gap |
| Environmental Database | No significant data gap |

Findings and Conclusions

BA Environmental has identified no RECs, no HRECs, no CRECs and one environmental concern in connection with the subject property. BA Environmental has also identified no significant data gaps in connection with the subject property.

Recommendations

Based on the findings of this Phase I ESA, BA Environmental recommends the following with regard to the subject property:

- Any suspect ACMs should be sampled prior to any renovations or demolition. Any identified ACMs scheduled for renovation or demolition, they should be abated by a licensed asbestos abatement contractor, in accordance with all local, state and federal regulations; and
- Replace water-stained or damaged ceiling panels.

PHASE I ENVIRONMENTAL SITE ASSESSMENT
1413 Cole Place
Los Angeles, California

1.0 INTRODUCTION

BA Environmental (a Division of Building Analytics) has prepared the following Phase I Environmental Site Assessment (ESA) for **Seward Partners LLC**. This report is regarding the subject property located at 1413 Cole Place, in the City of Los Angeles, California.

This report was prepared in accordance with the BA Environmental Proposal and Contract (LA11957) dated November 7, 2019. The assessment was performed at the Client's request using the methods and procedures consistent with good commercial and customary practice designed to conform to acceptable industry standards.

The independent conclusions represent our professional judgment based on information and data available to us during the course of this assignment. Factual information regarding operations, conditions, and test data provided by the Client or their representative has been assumed to be correct and complete. The conclusions presented are based on the data provided, observations, and conditions that existed on the date of the on-site visit.

In expressing the opinions stated in this report, BA Environmental has exercised the degree of skill and care ordinarily exercised by a reasonable prudent environmental professional in the same community and in the same time frame given the same or similar facts and circumstances. Documentation and data provided by the Client, designated representatives of the Client or other interested third parties, or from the public domain, and referred to in the preparation of this assessment, have been used and referenced with the understanding that BA Environmental assumes no responsibility or liability for their accuracy.

The information contained in this Phase I ESA report will be used by the Client to: 1) evaluate its legal and financial liabilities for transactions related to foreclosure, purchase, sale, loan origination, loan workout, or seller financing; 2) evaluate the site's overall development potential, the associated market value, and the impact of applicable laws that restrict financial and other types of assistance for the future development of the site; and/or 3) determine whether specific actions are required to be performed prior to the foreclosure, purchase, sale, loan origination, loan workout, or seller financing of the site.

This document is intended to be used only in its entirety. No portion of the document, by itself, is designed to completely represent any aspect of the project described herein. BA Environmental should be contacted if the reader requires any additional information or has questions regarding the content, interpretations presented, or completeness of this document.

Phase I ESA reports are valid for up to 180 days prior to the date of an acquisition, per ASTM E1527-13.

2.0 RELIANCE

All reports, both written and verbal, are for the sole use and benefit of **Seward Partners LLC., (Client)**. This report may not be relied upon by any other person or entity without the express written permission of BA Environmental. Either verbally or in writing, third parties may come into possession of this report or all or part of the information generated as a result of this investigation. In the absence of a written agreement with BA Environmental/Building Analytics granting such rights, no third parties shall have rights of recourse or recovery whatsoever under any course of action against BA Environmental/Building Analytics, its officers, employees, vendors, successors or assigns. Any such unauthorized user shall be responsible to protect, indemnify and hold BA Environmental/Building Analytics, Client and their respective officers, employees, vendors, successors and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys' fees) and costs attributable to such use. Unauthorized use of this report shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties may apply for misuse or misapplication of this report.

3.0 OBJECTIVE AND SCOPE OF WORK

The purpose of the ESA is to identify, to the extent feasible, recognized environmental conditions. The identification of the presence or lack of recognized environmental conditions will “permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability (hereinafter, the “landowner liability protections,” or “LLPs”); that is, the practice that constitutes “all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice” as defined at 42 U.S.C. §9601(35)(B)” (ASTM E1527-13).

This Phase I ESA meets or exceeds the general requirements of the American Society for Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments E1527-13, and the United States Environmental Protection Agency All Appropriate Inquiry (AAI) Rule (as defined in the Code of Federal Regulations 40 CFR Part 312). The ASTM standard practice defines good commercial and customary practice for conducting ESAs using reasonable inquiry. The scope of services for this Phase I ESA consisted of several tasks, including:

- A reconnaissance of the site and its vicinity;
- Interviews with current owners and occupants of the subject property, and personnel at local government agencies;
- A compilation of the property history, including the review of previous environmental reports regarding the subject property (if available);
- A review of pertinent local regulatory agency files;
- An agency list search of facilities with recorded environmental issues located within the radii required by ASTM E1527-13;
- Tier 1 Vapor Encroachment Screen; and
- A summary of our findings, conclusions and recommendations.

Additional services that were provided include:

- A visual survey and review of a map of designated wetlands;
- A visual mold survey;
- A visual asbestos survey of suspect asbestos-containing materials (ACMs);
- A visual lead-based paint survey;
- A review of a survey and map of radon zones; and
- A review of relevant Methane Zones.

The scope of this Phase I ESA is not intended to address, assess, or otherwise determine whether soil or groundwater contamination, waste emplacement, existing or threatened mold/fungus growth, asbestos-containing building materials, and/or lead-based paint actually exists at the subject property. BA Environmental considers a Tier 2 vapor encroachment screen beyond the scope of this Phase I ESA, and therefore a Tier 2 vapor encroachment screen was not conducted as part of this ESA. Additionally, this ESA does not serve as a comprehensive wetlands, mining, oil, pipeline, and/or gas well survey. Such determination would require additional surveys, comprehensive subsurface exploration and/or other sampling activities, which are beyond the scope of service for this Phase I ESA. This practice does not address requirements of any state or local laws or of any federal laws other than the all appropriate inquiry provisions as noted by AAI Rule (as defined in the Code of Federal Regulations 40 CFR Part 312). Further, this report does not intend to address all of the safety concerns, if any, associated with the subject property.

As per ASTM Practice E1527-13, there are no deviations from, or deletions of, the general requirements of this standard practice contained in this report. This Phase I ESA has been performed by, or under the direct supervision of an “environmental professional,” as defined in ASTM E1527-13 and the EPA AAI Rules.

A Phase I ESA is a non-intrusive investigation. As such, it is not a full and complete assessment of all environmental conditions. Adverse conditions may exist that could not be discovered by such an assessment. No ESA can completely eliminate uncertainty regarding the potential for recognized environmental conditions in connection with a subject property. There is a possibility that even with the proper application of these methodologies there may exist on the subject property conditions that could not be identified within the scope of the assessment or which were not reasonably identifiable from the available information. The ESA is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with a property. The practices of ASTM E1527-13 recognize reasonable limits of time and cost. The term “All appropriate inquiry” does not mean an exhaustive assessment of a property. There is a point at which the cost of information obtained, or the time required to gather it outweighs the usefulness of the information, and in fact may interrupt or interfere with the orderly or timely completion of a property transaction. One of the purposes of ASTM E1527-13 is to identify a balance between limiting the costs and time demands inherent in performing an ESA and the reduction of uncertainty about unknown conditions resulting from additional information. BA Environmental has made every reasonable effort to discover and interpret the information and current conditions regarding the site within the time available. We will recommend prudent additional investigations, if deemed necessary.

Several terms are commonly used throughout this report. For the purpose of this report, the **site vicinity** refers to an area within a 1-mile radius of the subject site. The term **adjacent property** includes those properties next to or across a street or a railroad track

from the subject property. **Adjoining properties** are those which directly abut the subject property. **Recognized environmental conditions** (RECs) refers to “the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.” The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include de minimis conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies” (ASTM E1527-13). The term de minimis refers to having such a low or minimal risk that it is not considered to be of concern. “Conditions determined to be de minimis are not recognized environmental conditions” (ASTM E1527-13).

A Historical REC (HREC) is defined as “a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).” If a past release of a hazardous substance or petroleum product that has occurred at the subject property and has been remediated, and the remediation has been accepted by the responsible regulatory agency (for example, as evidenced by the issuance of a no further action letter or equivalent), this condition shall be considered an HREC.

Controlled Recognized Environmental Condition (CREC) is defined as “a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).” A condition considered by the environmental professional to be a controlled recognized environmental condition shall be listed in the findings section of the Phase I Environmental Site Assessment report, and as a recognized environmental condition in the conclusions section of the Phase I Environmental Site Assessment report.

An Environmental Concern is defined as any other environmental conditions which BA Environmental would not be identified or considered as a REC CREC or HREC.

BA Environmental uses risk levels (low, moderate and high) to provide the user with a relative risk for the potential for impact to the subject property. These risk levels are qualitative only, and have no quantitative basis.

It should be understood that the conditions of a site can change with time as a result of natural processes or the activities of humankind at the subject site or nearby sites. In addition, changes to the applicable laws, regulations, codes, and standards of practice may occur at any time due to government action or the broadening of knowledge. Therefore, the recommendations and conclusions presented as a result of this assessment apply strictly to the environmental regulations, standards of practice, and property conditions existing at the time the assessment was performed. BA Environmental/Building Analytics cannot be held responsible or liable for any changes in

conclusions or recommendations affected by changes in the site or government regulations.

Responses received from local, state, or federal agencies or other secondary sources of information after the issuance of this report may change certain facts, findings, conclusions, or circumstances to the report. A change in any fact, circumstance, or industry-accepted procedure upon which this report was based may adversely affect the findings, conclusions, and recommendations expressed in this report.

4.0 DESCRIPTION OF SUBJECT PROPERTY

4.1 Site Location and Legal Description

The subject property is located at 1413 Cole Place, on the northwest corner of the intersection of Cole place and De Longpre Avenue, in the City of Los Angeles, California. The subject site is identified as APN 5546-014-017.

4.2 Site Improvements

The subject property is occupied by a two-story commercial office and a one-story storage building, totaling 4,848 square feet. The subject buildings are situated on a approximate 0.165 acre parcel of land. Currently, the subject property is occupied by the offices of The Post Group. Other improvements include surface parking and landscaping. The subject building was reportedly constructed in 1985 from previously developed land. Vehicular access is from Cole Place to the east.

4.3 Utilities

| | |
|-----------------------|---|
| Electric: | Los Angeles Department of Water and Power (LADWP) |
| Natural Gas: | Southern California Gas Company |
| Water: | Los Angeles Department of Water and Power (LADWP) |
| Sewer: | City of Los Angeles |
| Storm Drain: | City of Los Angeles |
| Solid Waste Disposal: | City of Los Angeles |

4.4 Drinking Water

Municipal water service is supplied by the City of Los Angeles. According to the 2018 Water Quality Report for the City of Los Angeles Municipal Water System, there are no MCL violations, and the drinking water supplied by this municipal supplier meets all drinking water standards. A copy of the 2018 Water Quality Report for the City of Los Angeles Municipal Water System is included in Appendix A.

4.5 Adjacent Land Use

During the reconnaissance of the surrounding area within a 0.25-mile radius, BA Environmental observed that the subject site is located in an area of commercial, retail and residential properties.

The adjacent properties to the subject site are as follows (Figures 1 and 2):

North: Asphalt parking and a commercial office building occupied by The Post Group.

East: Cole Place followed by a commercial office building occupied by The Post Group.

South: De Longpre Avenue followed by Los Angeles City Police Department (LAPD) and LAFD facilities.

West: Commercial office building

5.0 PHYSICAL SETTINGS

5.1 Topography

The property is depicted on the Hollywood, California Topographic Quadrangle map of the United States Geological Survey (USGS). The location of the subject site is at Latitude 34° 5' 47.17" North, Longitude -118° 19' 49.68" West of the Prime Meridian. The topography of the subject site slopes generally towards the south at a gradient of approximately 73 feet per mile. The elevation at the site is approximately 341 feet above mean sea level (msl).

Surface drainage of the subject site generally flows towards the south. Some localized changes in surface drainage are present throughout the subject site.

No other major bodies of surface water (i.e., oceans, lakes, rivers, streams, etc.) are depicted within a 1.0-mile radius of the site.

5.2 Geology and Hydrogeology

The subject Site is located in the Hollywood Piedmont Slope area of the Los Angeles Coastal Plain, on the northern side of the Hollywood Syncline (DWR 1961). The Coastal Plain of the Los Angeles County consists primarily of unconsolidated sediments of alluvium, underlain and bounded to the north and east by bedrock and the west and south by the Pacific Ocean. The Santa Monica Mountains are located to the north and east-west trending Santa Monica-Hollywood Fault is located approximately ½ miles north of the subject site. The subject Site is situated over the Hollywood Sub-basin of the Central Groundwater Basin of the Los Angeles, San Gabriel Hydrologic Unit. The alluvium within the site vicinity consists of Holocene alluvium, underlain by the Pleistocene deposits of the Lakewood Formation. The Lakewood Formation included the Bellflower Aquiclude, and the Exposition and Gage Aquifers (DWR 1961).

A site located approximately 1,600 feet to the southeast of the subject site reported groundwater typically encountered at 35 to 40 feet bgs with a hydraulic gradient of approximately 0.006 feet per foot (ft/ft) (Murex 2019).

5.3 Oil Wells and Oil Fields

The State of California Geologic Energy Management Division (CalGEM), formerly the Division of Oil, Gas, and Geothermal Resources (DOGGR), oversees the drilling, operation, maintenance, and plugging and abandonment of oil, natural gas, and geothermal energy wells.

A review of relevant Munger oil and gas field maps and CalGEM Well Finder GIS indicated that the subject site was not located within any oil or gas fields, and that no oil or natural gas wells were located on the subject site (Munger, 1993; Cal GEM, 2020).

6.0 USER PROVIDED INFORMATION

As stated in the ASTM E1527-13 guidelines, the “User” of the Phase I ESA is responsible to provide any or all information and records regarding environmental liens and activity and use limitations (AULs) for the subject property, unless contracted with the Consultant. The Consultant is also to be informed of any abnormal sale pricing of the subject property and any special conditions. The Consultant should also be informed of the purpose of the Phase I ESA. Unless otherwise stated, the purpose of the Phase I ESA is assumed to be in the preparation for a commercial real estate transaction.

During this investigation, BA Environmental has requested from the Client any information, records, and/or knowledge of the subject property. BA Environmental also requests any past environmental reports (including but not limited to Phase I ESAs, Phase II Subsurface Investigations, Site Characterization Reports, Groundwater Monitoring Reports, Remediation Reports, Asbestos or Lead-Based Paint Surveys or Abatement Documents, Mold Surveys or Abatement Documents, and Indoor Air Quality Reports) regarding the subject property. BA Environmental has requested copies of all operating permits regarding environmental issues (i.e., generators, USTs and ASTs, wastewater discharge, hazardous materials storage and handling, hazardous waste storage and disposal and air emissions permits). BA Environmental has also requested any present or historic knowledge of environmental litigations, administrative proceedings and violations associated with hazardous materials/wastes and/or petroleum products.

6.1 Title Records

A title records review, or chain-of-title, can be used to identify prior ownership of a property and to evaluate previous activities or operations in terms of environmental significance. It is also reviewed to determine if there are any easements, covenants, restrictions, limitations or environmental liens which may affect the subject properties usage.

BA Environmental was provided a copy of a Preliminary Title Report. A review of this Preliminary Title Report did not indicate that there were any Environmental Liens and Activity and Use Limitations (AULs) associated with the subject property. A copy of the Preliminary Title Report is included in Appendix B.

6.2 Environmental Liens and Deed Restrictions

BA Environmental reviewed a copy of a Preliminary Title Report which revealed no indications of Environmental Liens or AULs associated with the subject property. The EDR Radius Map report searched databases for Federal Superfund Liens, US Engineering Controls, US Institutional Controls, and Deed Restrictions. According to the EDR report, **no** Federal Superfund Liens, US Engineering Controls, US Institutional Controls, or Deed Restrictions exist for the subject site (EDR, 2020a).

6.3 Specialized Knowledge

No specialized knowledge of the subject site was reported to BA Environmental by the Client.

6.4 Valuation Reduction Due to Environmental Issues

In a transaction involving the purchase of a parcel of commercial real estate, the user shall consider the relationship of the purchase price of the property to fair market value of the property if the property was not affected by hazardous substances or petroleum products. No information regarding abnormal property pricing for the subject property was reported to BA Environmental by the Client.

6.5 Interviews

Attempts were made to interview various individuals with regard to the subject property's current and past usages. Interviews were also conducted with regard to the presence of underground storage tanks (USTs), usage and storage of hazardous materials, and the possibilities of any spills or unauthorized releases of hazardous materials on the subject property. BA Environmental assumes that the interviewees used good faith in answering questions and in obtaining information for the subject property.

Mr. Michael Shuken, Managing Director of Savills for the subject building, was interviewed with regard to the subject site. According to Mr. Shuken, he has been with the subject site for approximately eleven years. Mr. Shuken indicated that he was unaware of the properties history prior the current office building occupying the subject site. According to Mr. Shuken, the subject property is used for movie and television production space. Mr. Shuken indicated that no USTs or ASTs are located on-site. According to Mr. Shuken, to the best of his knowledge, there are no wastewater clarifiers or grease interceptors on-site. According to Mr. Shuken, no hazardous materials are used or stored on-site, except for small quantities of janitorial supplies. Mr. Shuken was unaware of any releases or spills of hazardous materials on the subject property. Mr. Shuken was interviewed with regard to asbestos and lead-based paint existing on the subject property. Mr. Shuken stated that he was not aware of any asbestos or lead-based paint on-site. Mr. Shuken was interviewed with regard to water leaks and mold. According to Mr. Shuken he was unaware of any current mold growth within the building. The quality of the answers obtained from Mr. Shuken during the interview was judged to be good.

6.6 Review of Previous Environmental Reports

No previous environmental reports for the subject site were provided to BA Environmental for review.

6.7 Permits

BA Environmental was not provided operating or handling permits by the Client.

6.8 Reason for Performing Phase I ESA

The Phase I ESA was conducted in accordance with ASTM Standard Practice for Environmental Site Assessments E1527-13, and the United States Environmental Protection Agency AAI. This Phase I ESA was conducted for the purpose of a commercial property transaction/sale.

7.0 HISTORICAL REVIEW

As part of the historical review, BA Environmental reviewed available historical aerial photographs for the years 1928, 1938, 1948, 1952, 1954, 1964, 1970, 1977, 1981, 1989, 1994, 2002, 2005, 2009, 2012 and 2016 (EDR, 2019b); city directories for the years 1920-2014 (EDR, 2019c); historical topographic maps for the years 1894, 1896, 1898, 1900, 1902, 1920, 1921, 1924, 1926, 1948, 1953, 1966, 1972, 1981, 1991 and 2012 (EDR, 2019d); historical fire insurance maps for the years 1907, 1913, 1919, 1950, 1955, 1957, 1960, 1961, 1962, 1966, 1968, 1969 and 1970 (EDR, 2019e); and building online records (City of Los Angeles, 2019). Copies of the above historical documents are provided in Appendices C through F.

7.1 History of Subject Property

The subject property consisted of vacant parcels of land prior to 1907. By 1907, the subject property was occupied by single family residences. By 1950, the northern portion of the subject property was redeveloped into a retail store with the remaining portion occupied by single-family residence. By 1961, the remaining residence was converted into an office building. By 1966, the subject property was occupied by an office building and single family residence. By 1968, the office building had been converted back into a residence, and the residence was converted into a store front. In 1985, the existing structures were demolished, and the subject property was redeveloped into a light industrial/office building. Currently, the subject building is occupied by The Post Group.

7.2 History of Adjacent Properties

From prior to 1907 until around 1945, the adjacent property to the north was occupied by an alleyway followed by single-family residences. By 1945, the properties facing Wilcox Avenue were occupied by retail stores, while the properties facing Cole Place were occupied by single-family residences. There continued to be no changes in the adjacent properties to the north until around 1957. By 1957, the western portion of the property facing Wilcox Avenue was occupied by retail store fronts. The eastern portion of the

property was occupied by an office, warehouse and optical glass grinding building occupied by the American Optical Company. The southernmost portion of the property was occupied by a store front and single family residences. By 1968, the western portion of the adjacent property to the north remained developed by store fronts. The eastern portion of the adjacent property was occupied by a musical instrument stage and rehearsal studio. The southernmost portion of the adjacent property remained unchanged. By 1977, the residence and store fronts in the southernmost portion of the adjacent property had been redeveloped and these properties were used as parking lots. Other entertainment industries occupied this subject warehouse building facing Cole Place from the early 1990s until around the mid-2000s. Around 2008, the warehouse building in the eastern portion of the adjacent property to the north was demolished, creating automobile parking for the retail/office buildings facing Wilcox Avenue. Currently, the structures facing Wilcox Avenue are occupied by film and television production companies.

Historically, the adjacent properties to the east of the subject site were occupied by vacant parcels of land prior to 1907. Sometime prior to 1913, the adjacent properties to the east were developed by residential dwellings. Sometime prior to 1928, the adjacent property to the east was redeveloped by Cole Place, followed by residential dwellings. The adjacent properties to the east following Cole Place remained developed by residential properties, office properties, and retail store front properties up until sometime prior to 1970. By 1970, some of the residential dwellings were demolished in the central portion of this adjacent site to the east and redeveloped into automotive parking. Sometime prior 1989, redevelopment of the adjacent properties to the east following Cole Place included commercial office buildings. Currently, the adjacent properties to the east following Cole Place remain developed by commercial offices occupied by The Post Group.

Historically the adjacent properties to the south of the subject site were developed by De Longpre Avenue followed by residences from prior to 1919 until around 1938. By 1938, the adjacent property to the south was redeveloped by a LAPD facility. Since 1938, there have been no significant changes to the adjacent property to the south of the subject site.

The adjacent property to the west of the subject site was occupied by single-family residences from prior to 1907 until around 1950. By 1950, some portions were redeveloped into retail stores with the remaining portions occupied by single-family residences. By 1966, the adjacent properties to the west were occupied by a parking lot and store fronts. Since 1948, there have been no significant changes to the adjacent properties to the west of the subject site.

8.0 SITE RECONNAISSANCE AND IMPROVEMENTS

On January 15, 2020, BA Environmental performed a visual reconnaissance of the subject property located at 1413 Cole Place, in the City of Los Angeles, California. Mr. Richard O'Neil of BA Environmental was escorted during the site reconnaissance by Mr. Michael Shuken, Managing Director of Savills. During the site reconnaissance, BA Environmental visually assessed the subject property, exterior of the subject building, common areas, office and warehouse areas, and the roof. BA Environmental also visually assessed any rooms which may contain hazardous materials, any janitorial spaces, any mechanical areas, and any building maintenance shops.

8.1 Site Improvements

The subject property is occupied by a two-story commercial office and a one-story storage building, totaling 4,848 square feet. The subject buildings are situated on a approximate 0.165 acre parcel of land. Other improvements include surface parking and landscaping. Currently, the subject property is occupied by the offices of The Post Group.

8.2 Building Construction

The subject building is constructed with concrete masonry unit (CMU) perimeter walls, supported by wood beams. The roof is a mineral capped, built up roofing structure. Windows consist of an aluminum framed window glazing system. Interior flooring finishes are of painted concrete surfaces and commercial carpet. Ceilings are either painted drywall or 2 x 4 suspended ceiling tiles. Walls consist of painted drywall or bare CMU brick in the warehouse area. Exterior finishes consist of stucco and painted CMU brick.

8.3 HVAC Systems

The heating, ventilating and air conditioning (HVAC) system consists of rooftop mounted units. No environmental issues were observed with this equipment.

8.4 Elevators

No Elevators service the subject property.

8.5 Industrial Equipment/Manufacturing Processes

During the site reconnaissance, no industrial equipment was observed on the subject site. No manufacturing processes which utilize hazardous materials or petroleum products were observed during the site visit.

8.6 Hazardous Materials/Waste Storage

Only typical of normal household cleaners were observed to be used on the subject property. These cleaning agents were observed to be in good condition with no visible evidence of leakage from containers. No staining was observed on the surfaces beneath the containers.

8.7 Biohazards and Infectious Wastes

No biohazards or infectious wastes were observed on the subject site during the site reconnaissance.

8.8 Radiologic Hazards

No radiologic hazards were observed on the subject site during the site reconnaissance.

8.9 Underground Storage Tanks

No evidence for the presence of on-site underground storage tanks (USTs), such as fuel dispensers, fill ports, aboveground vents or piping, was observed during the site reconnaissance. According to the California State Water Resources Control Board and the City of Los Angeles Fire Department (LAFD), USTs are not currently present or historically been present on the subject property.

8.10 Aboveground Storage Tanks

On the day of the site reconnaissance, no aboveground storage tanks (ASTs) were observed on the subject site.

8.11 Hydraulic Lifts and Equipment

No hydraulic lifts or equipment were observed on-site on the day of the site reconnaissance.

8.12 Generators and Emergency Power Systems

No electrical generators or emergency power systems were observed on the subject site on the day of the site reconnaissance.

8.13 Wastewater Treatment Systems, Clarifiers and Interceptors

No wastewater treatment systems, wastewater clarifiers or interceptors were observed on the subject site on the day of the site reconnaissance.

8.14 Pits, Ponds and Lagoons

Pits, ponds and lagoons are often associated with the disposal of solid and liquid wastes, which may include hazardous materials. According to ASTM Standard E1527-13, pits, ponds and lagoons are “man-made or natural depressions in the ground surface that are likely to hold liquid or sludge containing hazardous substances or petroleum products.” Information obtained from the assessment indicated that pits, ponds and lagoons do not currently exist, or have ever existed on the subject site or any of the adjacent properties.

8.15 Septic Tanks and Cesspools

Septic tanks and cesspools are often associated with the disposal of wastewater from structures that are not served by public sewer systems. Septic tanks and cesspools may be associated with hazardous materials, if such materials have been inappropriately

disposed of in the past via sinks. Information obtained from the subject site reconnaissance indicated that septic tanks and cesspools do not currently exist on the subject site. Presently, the sanitary sewer discharge to the subject building is tied into the city-owned sanitary sewer system.

8.16 Distressed Vegetation and Staining

Areas of vegetation (trees and shrubbery) in planters were observed to be associated with the subject property. No distressed vegetation, dead vegetation or discolored vegetation was observed during the site reconnaissance.

No areas of significantly stained soil, or stained asphalt or concrete, were observed on-site during the site reconnaissance.

8.17 Spills, Corroded Surfaces and Odors

No visible evidence of spills or ponded liquids was observed during the site reconnaissance. No corroded or degraded metal or concrete surfaces were observed. No unusual odors were detected inside or outside of the subject building on the day of the site reconnaissance.

8.18 Wells, Cisterns, Sumps and Floor Drains

No evidence of the presence of cisterns, sumps, floor drains or well heads, was observed at the subject property.

8.19 Pipelines

BA Environmental reviewed the National Pipeline Mapping System (NPMS) regarding pipelines, liquefied natural gas (LNG) plant and breakout tank data, and gas transmission and hazardous liquid pipeline accidents and incidents. The NPMS pipeline data consists of gas transmission pipelines and hazardous liquid pipelines jurisdictional to United States Department of Transportation's Pipelines and Hazardous Materials Safety Administration (PHMSA). It does not contain gas gathering or distribution pipelines, such as lines which deliver gas to a customer's home. According to the NPMS, no pipelines or pipeline incidents are present on or adjacent to the subject property.

No evidence for the presence of underground pipelines used to transport petroleum products such as crude oil, gasoline, or natural gas was observed on or adjacent to the subject property on the day of the site reconnaissance.

8.20 Mines, Oil and Gas Wells, Oil Production Facilities

During the site reconnaissance, no visible evidence of mine shafts, open pit mines or other mining activities were observed on the day of the site reconnaissance.

No oil or natural gas wells were observed on the subject site. No evidence of oil production facilities, sumps, tank batteries, piping or refineries were observed on the day of the site reconnaissance.

8.21 Polychlorinated Biphenyls (PCBs)

PCBs in electrical equipment are controlled by United States Environmental Protection Agency regulations 40 CFR, Part 761. Federal regulations put into effect following the Toxic Substance Control Act (TSCA) require that electrical transformers be labeled to identify their PCB content. Under the regulations, there are three categories into which electrical equipment can be classified: 1) Less than 50 parts per million (ppm) of PCBs – “*Non-PCB;*” 2) 50 ppm-500 ppm – “*PCB-Contaminated;*” and, 3) Greater than 500 ppm – “*PCB-Containing.*” The manufacture, process, or distribution in commerce or use of any PCB in any manner other than in a totally enclosed manner was prohibited after January 1, 1977. The manufacture and distribution of PCBs was banned in 1979. No transformers were observed on the subject property.

Fluorescent lighting was observed throughout the subject building. Fluorescent ballasts containing PCBs have not been manufactured since the late 1970s, and have a maximum life expectancy of 15 years. Although the light ballasts were not inspected up close, at a distance the light ballasts appeared to be of relatively recent manufacture. At a distance, the light ballasts appeared to be in good condition with no visible evidence of leakage. Based on the date of construction of the subject building (1985), there is a low potential for the light fixtures to contain PCBs. BA Environmental did not observe other equipment on-site likely to contain PCBs.

8.22 Other Environmental Concerns

BA Environmental did not observe any other environmental concerns on the day of the site reconnaissance.

8.23 Trash and Waste Containment

Two trash dumpsters were observed to be associated with the subject property. This dumpster was observed to contain non-hazardous paper and plastic waste, and food waste. No staining was observed on the asphalt surface beneath the dumpsters. No environmental concern were noted with trash containment.

8.24 Stormwater

Stormwater that collects on the roof is directed into roof drains, which drain to the parking area and then either into the sanitary sewer system or to the city street. From there it drains into the city-owned storm drain system.

9.0 AGENCY CONTACTS

9.1 City of Los Angeles Fire Department (LAFD)

BA Environmental searched the LAFD, hazardous materials storage database, for files regarding the subject property. According to the LAFD, no files exist for the subject property.

9.2 California State Regional Water Quality Control Board (RWQCB)

BA Environmental searched the RWQCB's Geotracker database for UST Program, and Spills, Leaks, Investigations and Cleanups (SLIC) Program, files for the subject site. According to the RWQCB's Geotracker database, no files exist for the subject property.

9.3 California State Department of Toxic Substance Control (DTSC)

BA Environmental searched the ENVIROSTOR database for any files regarding contamination beneath the subject site. According to the DTSC's ENVIROSTOR database, no files exist for the subject property.

9.4 South Coast Air Quality Management District (AQMD)

BA Environmental searched the AQMD's Facility Information Detail (FIND) database for AQMD records regarding air emissions permits for the subject property. According to the AQMD's FIND database, no files exist for the subject property.

10.0 GOVERNMENT RECORDS REVIEW

Regulatory compliance is a primary element of an ESA. Failure to comply with governmental regulations can result in fines, and can expose businesses or individuals to liabilities from which the law would otherwise shield them. The presence of hazardous wastes or hazardous materials, on-site or at neighboring sites, may present certain liabilities. Environmental Data Resources, Inc. (EDR) searches over 900 federal, state and local databases nationwide to provide the most recent information regarding the hazardous materials sites within the site vicinity, and which are identified below (EDR, 2020a). EDR searches each database to the radius specified in ASTM E1527-13 and the EPA AAI Rules. Descriptions of each database searched are provided in the EDR Radius Report. A copy of the EDR Radius Report is provided in Appendix F. A summary of the sites listed within the governmental databases researched by EDR is provided in Table 1 below.

**Table 1
Environmental Databases Searched
and Their Search Radii**

| AGENCY DATABASE | SEARCH RADIUS | TARGET PROPERTY | NUMBER OF SITES IDENTIFIED |
|---|---------------|-----------------|----------------------------|
| United States Environmental Protection Agency (EPA) National Priority List (NPL) for Superfund Sites | 1.0 mile | --- | 0 |
| U.S. EPA Proposed NPL List (Proposed NPL) | Property | --- | 0 |

10.1 Subject Property

The subject property is not listed on any of the governmental environmental databases searched.

10.2 Adjacent Properties

No directly adjacent properties are listed on any of the governmental environmental databases searched.

10.3 Site Vicinity

BA Environmental reviewed the EDR database report for off-site facilities in the site vicinity which may have impacted the subject property. Sites of concern included those with known releases, facilities which use significant quantities of hazardous materials, sites with USTs, and facilities which are hydraulically up-gradient of the subject site.

The closest listed facilities in the site vicinity are listed on the historical LAFD UST database. This listing is located approximately 150 feet north of the subject property under the address of 1433 Cole Place. LAFD records indicated that this listing was in regards to an above ground atmospheric tank, assumed to contain liquid petroleum gas (LPG). This tank does not currently exist on this property. Based on all of the current information available, it is BA Environmental's opinion, that this identified record does not pose an environmental issue for the subject site.

A historical LAFD UST record indicated a former gasoline UST was located at 1416 Wilcox Avenue in association with a parking lot. This UST was reported to have been installed in 1965 and removed in 1975. This UST would have been greater than 100 feet west of the subject property. The capacity was reported to be 550 gallons. Based on the reported removal, the limited active use of this UST and no reported releases from this former identified UST, it is BA Environmental's opinion that there is a low potential for environmental impact to the subject property from this identified historic UST.

A historical LAFD UST record indicated a gasoline UST was located at 1414 Cole Place in association with a parking lot. This UST is located approximately 100 feet east, across Cole Place from the subject property. No reported releases associated with this UST were reported. Based on the cross gradient location to the subject site and distance from the subject site, it is BA Environmental's opinion there is a low potential for environmental impact to the subject property from this identified UST.

A review of all of the sites listed within the subject site vicinity revealed that the closest non-adjacent facility is greater than 200 feet from the subject site. Based on the distances and statuses of these facilities, there is a low potential for environmental impact due to off-site sources.

11.0 DATA GAP DISCUSSION

The ASTM E1527-13 standard defines the term Data Failure as a failure to achieve the historical research objectives even after reviewing the standard historical sources that are reasonably ascertainable and likely to be useful. The term Data Gap is defined as a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to site reconnaissance, interviews, and agency file reviews.

Based on all of the historical documents available and the reconnaissance of the subject site, it appears that no significant data gaps exist. Although minor historical data gaps exist, it is BA Environmental's opinion that these data gaps are not significant, and that during these data gaps the subject property's use did not significantly change. BA Environmental did not identify any significant data gaps in connection with the subject property.

12.0 VAPOR ENCROACHMENT SCREEN

Vapor encroachment can occur when vapor migrates into on-site subsurface soils from on-site or off-site soils and/or groundwater contaminated with petroleum hydrocarbons or other volatile organic compounds.

Current or past uses such as gas stations (using petroleum hydrocarbons), dry cleaning establishments (using chlorinated volatile organic compounds), former manufactured gas plant sites (using volatile and semi-volatile organic compounds), and former industrial sites such as those that had vapor degreasing or other parts-cleaning operations (using chlorinated volatile organic compounds) are of particular concern. Vapors are capable of migrating great distances omnidirectionally along subsurface conduits such as utility lines, pipelines, sewer and storm water lines, and building foundations. The migration of these vapors into a building or structure can pose a health risk. To assess for the potential of vapor encroachment, ASTM created the Standard Guide for Vapor Encroachment

Screening on Property Involved Real Estate Transactions, ASTM 2600-10. This Standard Guide supersedes ASTM 2600-08. The purpose of this guide is to provide practical guidance and a useful process for conducting a vapor encroachment screen (VES) on a property parcel involved in a real estate transaction in the United States of America with respect to chemicals of concern (COC) that may migrate as vapors onto a property as a result of contaminated soil and groundwater on or near the property. The VES is conducted in a two-tier process, which is as follows:

Tier 1 – Initial Screening (non-invasive)

Tier 2 – Site Specific Numeric Screening (non-invasive and invasive)

BA Environmental performed a Tier 1 VES on the subject property in general accordance with ASTM 2600-10. The Tier 1 VES has revealed no potential vapor encroachment conditions (VECs) which may impact the subject site.

13.0 ADDITIONAL NON-ASTM SCOPE ASSESSMENT

13.1 Visual Asbestos Survey

On July 12, 1989, the EPA issued a final rule banning most asbestos-containing products. In 1991, this regulation was overturned by the Fifth Circuit Court of Appeals in New Orleans. As a result of the Court's decision, the following specific asbestos-containing products remain banned: flooring felt, rollboard, and corrugated, commercial, or specialty paper. In addition, the regulation continues to ban the use of asbestos in products that have not historically contained asbestos, otherwise referred to as "new uses" of asbestos. Although the use of asbestos in the manufacture of most building materials was for the most part discontinued by 1979, some non-friable ACMs, such as roofing material and floor coverings (floor tile and mastic), were manufactured and used into the mid-1980s. Other non-friable ACMs such as mastics and coatings in which the asbestos is bound by organic binders can still be found in materials today.

- Friable materials are materials which can be crumbled, pulverized, or reduced to powder by hand pressure when dry.
- Non-friable materials are materials in which the fibers have been locked in by a bonding agent, coating, or binder, and may not release fibers during normal use and handling. Improper handling, such as grinding or sanding of non-friable ACMs, will render these materials friable.

BA Environmental performed a visual survey of suspect friable and non-friable asbestos-containing materials (ACMs). Suspect materials observed during the site reconnaissance include some vinyl base molding and adhesive, drywall, joint compound, carpet mastic, mirror mastic, 2' by 4' suspended ceiling panels, caulking, sealant, exterior stucco, and roofing materials. All building materials were observed to be in good condition, with a low potential for damage. Based on the date of construction of the subject building (constructed in 1985), there is a low to moderate potential for ACMs to exist within building materials.

13.2 Visual Mold Survey

Molds are microscopic organisms found virtually everywhere, indoors and outdoors. Mold will grow and multiply under the right conditions, needing only sufficient moisture

(e.g.in the form of very high humidity, condensation, or water from a leaking pipe, etc.) and organic material (e.g., ceiling tile, drywall, paper, or natural fiber carpet padding).

When excessive moisture or water accumulates indoors, mold growth may occur, particularly if the moisture problem remains undiscovered or unaddressed. As such, interior areas of buildings characterized by limited ventilation and high humidity are the most common locations of mold growth. Mold growths often appear as discoloration, staining, or fuzzy growth on building materials or furnishings and are varied colors of white, gray, brown, black, yellow, and green; however mold may not visually manifest itself.

Mold spores primarily cause health problems through the inhalation of spores or the toxins they emit when they are present in large numbers. This can occur when there is active mold growth within places where people live or work. Mold can cause allergic reactions, respiratory conditions and in some rare cases death in individuals which are sensitive to them, have respiratory conditions, or to the young or elderly.

BA Environmental performed a visual mold survey in accessible areas at the subject property. This visual assessment should not be construed as a mold survey or inspection. This assessment was not designed to discover all areas which may be affected by mold growth on the subject property. Rather, it is intended to give the client an indication if significant (based on observed areas) mold growth is present at the subject property. BA Environmental did not assess areas that are not readily accessible, nor did they conduct a destructive or invasive survey. It is possible that significant fungal spore growth inside walls, insulation, attic spaces, or other areas can exist and not be visible on the finished surfaces of a building's interior spaces. BA Environmental did not 1) perform a mold/fungi inspection, 2) perform any building material surface mold sampling, or 3) perform air sampling for mold spores at the subject property as part of this Phase I.

No areas of visible mold or moist areas conducive to mold growth were observed within the interior of the building within tenant spaces during the site visit. Some ceiling tiles exhibiting minor water stains were observed. No mold was observed on these stained ceiling panels. No mold odors, evidence of roof leaks (such as wet walls or carpets), plumbing leaks or areas that have remained moist for extended periods of time were observed within the building during the site visit, other than the water-stained ceiling panels.

13.3 Visual Lead-Based Paint Survey

Lead was a major ingredient in paint pigment prior to and through the 1940s. While other pigments were used in the 1950s, the use of lead in paint continued until the mid-1970s. In 1978, the Consumer Products Safety Commission banned paint and other surface coating materials that are lead-containing.

BA Environmental performed a visual lead-based paint survey in accessible areas at the subject property. All of the paint observed on-site appeared to be in good condition with no visible evidence of damage or peeling. Based on the age of the current subject building, constructed in 1985, there is a low potential that lead-based paint exists on the subject site.

13.4 Radon Gas Survey

Radon is a radioactive gas that occurs naturally in the environment and cannot be seen, smelled or tasted. The human health effect associated with exposure to elevated levels of radon is an increased risk of developing lung cancer. The US Environmental Protection Agency (EPA) and the US Center for Disease Control are concerned about the increased risk of lung cancer developing in individuals exposed to above average levels of radon in their homes or offices. In order to address these concerns, the US EPA conducted a radon survey and presented the results for various counties in 1993.

The EPA's map of Radon Zones assigns each of the 3,141 counties in the United States to one of three zones. The zone designations were determined by assessing five factors that are known to be important indicators of radon potential: indoor radon measurements, geology, aerial radioactivity surveys, soil parameters and foundation types. The subject site falls within the designation of Zone 2. Zone 2 counties have a predicted average indoor radon screening level of greater than or equal to two pico curies per liter (pCi/l) of air and less than or equal to four pCi/l of air. According to the EPA, of the 63 sites tested within the subject site's zip code, 98% of the 1st floor living areas tested were reported to have radon levels below 4pCi/l of air. The average radon concentration was reported to be 0.711 pCi/l of air. According to the California Radon database, 13 tests were conducted in the subject site's zip code. None of the tests were reported to have radon levels above 4 pCi/l of air. It is BA Environmental's opinion, based upon these results, that there is a low potential that radon is a concern for the subject property.

13.5 Methane Zones

Methane is a naturally occurring hydrocarbon produced by the breakdown of organic material which can migrate through soils and sediments. Methane gas is flammable and is considered a hazardous substance by the American Congress of Government Industrial Hygienists (ACGIH), the Department of Transportation (DOT), and the National Fire Protection Association (NFPA).

Methane zones in the city of Los Angeles were recently established and defined in Los Angeles Ordinance No. 175790 amended Section 91.106.4.1 and Division 71 of Article 1, Chapter IX of the Los Angeles Municipal Code to address the potential for methane intrusion into buildings emanating from geologic formations, to establish citywide methane mitigation requirements, and include more current construction standards to control methane intrusion into buildings. The Los Angeles Department of Public Works recently produced a map of Methane and Methane Buffer Zones for the City of Los Angeles (City of Los Angeles, 2004). According to this map, the subject property is **not** located within a Methane Zone or Methane Buffer Zone.

13.6 Wetlands and Flood Plains

During the site reconnaissance and drive-by survey of the surrounding area, BA Environmental observed no indications of wetlands. According to the Environmental Data Resources, Inc. (EDR) report, no wetlands as per the National Wetlands Inventory (1994) are located within 0.25 miles of the subject site. BA Environmental reviewed the US Fish and Wildlife (USFW) National Wetlands Inventory Wetlands Mapper website. According to the USFW, the subject site is not located within a Wetlands or Riparian environment (USFW, 2020).

According to information provided in the EDR report, the subject site is not located within a 100- or 500-year flood zone per the Federal Emergency Management Agency (FEMA). According to FEMA's National Flood Insurance Program (NFIP) Panel #1605F, the subject site is located within an Other Flood Area Zone X. This is defined as areas being outside of 0.2% annual chance floodplain (FEMA, 2020).

14.0 FINDINGS, CONCLUSIONS AND RECOMMENDATIONS

BA Environmental has performed a Phase I ESA, in conformance with the scope and limitations of ASTM Practice E1527-13, regarding the commercial office building located at 1413 Cole, in the City of Los Angeles, California. Any exceptions to, or deletions from, this practice are described in the Objective and Scope of Work section of this report.

This assessment has revealed **no** Recognized Environmental Conditions (RECs) in connection with the subject property.

This assessment has revealed **no** Historical Recognized Environmental Conditions (HRECs) in connection with the subject property.

This assessment has revealed **no** Controlled Recognized Environmental Conditions (CRECs) in connection with the subject property.

The following items of environmental concern were noted for the subject property:

- Based on the age of the subject building, ACMs may exist within the subject building; and
- Some water-stained ceiling panels were observed within the subject building.

BA Environmental recommends the following with regard to the subject property:

- Any suspect ACMs should be sampled prior to any renovations or demolition. Any identified ACMs scheduled for renovation or demolition, they should be abated by a licensed asbestos abatement contractor, in accordance with all local, state and federal regulations; and
- Replace water-stained or damaged ceiling panels.

15.0 LIMITATIONS

15.1 General Limitations

This report contains all of the limitations inherent in the methodologies that are referred to in ASTM E1527-13. BA Environmental has made every reasonable effort to discover and interpret the information and current conditions regarding the site within the time available. This assessment has been completed under the time and cost restraints implemented by the client. There is a possibility that, even with the proper application of the methodologies outlined in ASTM E1527-13, there may exist on the subject property conditions that could not be identified within the scope of the assessment or which are not reasonably identifiable from reasonably ascertainable information. This assessment is a visual, non-intrusive investigation, and conditions may exist at the site that cannot be identified solely by visual observation. No sampling, destructive or subsurface, of any type has been conducted on-site, unless expressly stated in the Objective and Scope of Work section above. This practice does not address requirements of any state or local laws or of any federal laws other than the all appropriate inquiry provisions of AAI Rule (as defined in the Code of Federal Regulations 40 CFR Part 312). Further, this report does not intend to address all of the safety concerns, if any, associated with the subject property. All conclusions and recommendations are based on the visual observations made on the day of the site reconnaissance. The conclusions and findings set forth in this report are strictly limited in time and scope to the date of the evaluations. BA Environmental is not responsible for identifying any environmental issues or site conditions which may have occurred after the site reconnaissance.

This assessment relied upon information obtained from the site reconnaissance and from relevant regulatory agencies. BA Environmental believes that the information contained herein is reliable. This assessment has relied upon information obtained from the record review, previous reports and interviews of individual concerning the subject property, and assumes it to be correct and accurate. However, BA Environmental cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. This assessment has been completed in general accordance with ASTM E1527-13 and accepted practices of the environmental industry.

This report is not intended to address, assess, or otherwise determine whether soil or groundwater contamination, waste emplacement, existing or threatened mold/fungus growth, asbestos-containing building materials, and/or lead-based paint actually exists at the subject property. Such determination would require comprehensive subsurface exploration and/or other sampling activities, which were beyond the scope of service for this assessment. BA Environmental considers vapor intrusion beyond the scope of this Phase I ESA, and therefore a vapor intrusion study was not conducted. Additionally, this report does not serve as a comprehensive wetlands, mining, oil, pipeline, and/or gas well survey.

This report summarizes an environmental investigation conducted for the subject property. Although conditions at neighboring properties may impact the subject property and, to the extent they were identified, were included in the subject property evaluation, this report does not serve as an assessment of sites other than the subject property.

This Assessment was prepared for a limited use involving a single transaction, as set forth herein, and may not be used for any other purpose without the written consent of BA Environmental. No re-publication, copying, or distribution of any part of this report is authorized without the written consent of BA Environmental. Field data, field notes, and other data and documents assembled by BA Environmental to produce this

assessment, represent the work product of BA Environmental's training, experience and professional skill. This information belongs to, and remains the property of BA Environmental/Building Analytics.

15.2 ASTM Limitations

The innocent landowner, contiguous owner, and prospective purchaser defenses to liability under CERCLA require that a person acquiring property conduct an all appropriate inquiry with respect to the site. BA Environmental has conducted this environmental assessment in accordance with the standards for conducting an all appropriate inquiry set forth at 40 CFR Part 312. Those standards require the application of scientific principles and professional judgment to certain facts with resultant subjective interpretations and exercise of discretion. Professional judgments expressed herein are based on the facts currently available within the limits of the existing data, and data gaps identified herein, scope of work, budget, and schedule. Those standards also require that the client undertake certain additional inquiries. In addition, the liability defenses under CERCLA require, among several other things, that the client after the acquisition stop any continuing releases, prevent any future threatened releases and prevent or limit human, environmental or natural resource exposure to any hazardous substance released at the site. Therefore, BA Environmental makes no warranties, expressed or implied, including, without limitation, warranties as to merchantability or fitness for a particular purpose, including any warranty that this Phase I ESA will in fact qualify client for the innocent landowner, contiguous property owner or prospective purchaser defense to liability under CERCLA. BA Environmental's assessment is limited strictly to identifying recognized environmental conditions associated with the site. Results of this assessment are based upon the visual site inspection of readily accessible areas of the site conducted by BA Environmental personnel, information from interviews with knowledgeable persons regarding the site, information reviewed regarding historical uses, information provided by contacted regulatory agencies, and review of publicly available and practically reviewable information identifying current and historical uses of the property and surrounding properties. All conclusions and recommendations regarding the site represent the professional opinions of the BA Environmental personnel involved with the project, and the results of this report should not be considered a legal interpretation of existing environmental regulations. BA Environmental assumes no responsibility or liability for errors in the public data utilized, statements from sources outside of BA Environmental, or developments resulting from situations outside the scope of this project. BA Environmental make no warranties, expressed or implied, including, without limitation, warranties as to merchantability or fitness for a particular purpose.

16.0 GLOSSARY OF ACRONYMS

AAI = All Appropriate Inquiry

ACGIH = American Congress of Government Industrial Hygienists

ACMs = asbestos-containing materials

AHERA = Asbestos Hazard Emergency Response Act

AQMD = Air Quality Management District

ASTs = aboveground storage tanks

ASTM - American Society for Testing and Materials

AUL = activity and use limitations

bgs = below ground surface

BTEX = benzene, toluene, ethylbenzene and xylenes

CDPH = California Department of Public Health (formerly DHS)

CERCLA = Comprehensive Environmental Response, Compensation, and Liability Act

CFR = Code of Federal Regulations

COC = chemical of concern

DHS = Department of Health Services

DOGGR = California Department of Oil, Gas and Geothermal Resources

DOT = Department of Transportation

DTSC = Department of Toxic Substance Control

EA = Environmental Assessment

EDR = Environmental Data Resources, Inc.

EPA = United States Environmental Protection Agency

ESA = Environmental Site Assessment

FEMA = Federal Emergency Management Agency

HREC = Historical Recognized Environmental Condition

HVAC = heating ventilating and conditioning

HWS = Hazardous Waste Site

IAQ = indoor air quality

Kw = kilowatts

LACDPW = Los Angeles County Department of Public Works

LAFD = Los Angeles City Fire Department

LBP = lead-based paint

LEL = lower explosive limit

LLPs = land owner liability protections

LQG = large quantity generator of hazardous waste

LUSTs = leaking underground storage tanks
MCL = maximum concentration limit
MSDS = Material Safety Data Sheet
MTBE = methyl-tertiary-butyl ether
 $\mu\text{g/l}$ = micrograms per liter
 $\mu\text{g/kg}$ = micrograms per kilogram
 mg/kg = milligrams per kilogram
 mg/l = milligrams per liter
msl = mean sea level
NOV = Notice of Violation
NPL = National Priority List
NRC = Nuclear Regulatory Commission
OCHCA = Orange County Health Care Agency
O&M = Operations and Maintenance
OSHA = Occupational Safety and Health Administration
PCBs = polychlorinated biphenyls
PCE = perchloroethene or tetrachloroethylene
ppb = parts per billion
ppm = parts per million
PVC = polyvinyl chloride
RCDEH = Riverside County Department of Environmental Health
RCRA = Resource Conservation and Recovery Act
REC = Recognized Environmental Condition
RWQCB = Regional Water Quality Control Board
SBCFD = San Bernardino County Fire Department
SLIC = Spills Leaks, Investigations and Cleanups
SPCC – Spill Prevention, Control and Countermeasure
SQG = small quantity generator of hazardous waste
SVOC = semi-volatile organic compounds
SWPPP = Stormwater Pollution Prevention Plan
TCA = trichloroethane
TCE = trichloroethene
TPH-cc = total petroleum hydrocarbons, carbon chain range
TPH-d = total petroleum hydrocarbons as diesel
TPH-g = total petroleum hydrocarbons as gasoline
TRPH = total recoverable petroleum hydrocarbons

TSCA = Toxic Substance Control Act
UPS = uninterrupted power source
USFW = United States Fish and Wildlife
USGS = United States Geological Survey
USTs = underground storage tanks
VES = Vapor Encroachment Screen
VCP = Voluntary Cleanup Program
VOCs = volatile organic compounds
WIP = Well Investigations Program

QUALITY IN EVERY DROP

Director Message, Razmik Manoukian

For over a century, LADWP has been the steward of our City's water system and supply. It is a responsibility we take very seriously. Every day, we import raw water, purify it and deliver it to your tap 24-hours a day – all for less than half a penny per gallon. It is our

duty to maintain the value of this precious resource, and to comply with increasing state and federal water quality mandates to protect every drop of water we deliver. In 2018, LADWP tested for over 200 constituents in the water and performed more than 120,000 tests on samples taken throughout the City - not just for regulatory compliance, but also for research and operational improvements.

We are proud of our success in water quality, especially with our continued progress on several large water quality initiatives. Over the last 20 years, LADWP has actively improved the water quality for our customers by removing large uncovered reservoirs such as Encino, Lower Stone, Silverlake and Hollywood out of service; covering distribution reservoirs such as Santa Ynez,

Elysian and Upper Stone; building the new Headworks Reservoir, installing a state-of-the-art Dr. Pankaj Parekh Ultraviolet Disinfection Facility and deployed 96 million shade balls on the Los Angeles Reservoir. The latest water quality Improvement project is the Los Angeles Reservoir Ultraviolet Disinfection Plant project which is currently under construction. These projects were a massive undertaking which resulted in excellence in water quality.

This report summarizes the results of the water quality tests conducted in 2018 and provides specific information about the quality of water served in our neighborhoods. You will see that most constituents have not been detected in our water sources and those that are (see tables I-IV on pages 11-15), are safely within the regulatory limits for drinking water. We are proud to bring pure, clean, refreshing tap water to all our customers across the city – at home, at work and in our neighborhood parks every day.

At LADWP, we are committed to customer service. If you have any questions about your water quality or seek advice on how to improve water quality at your home or workplace, please do not hesitate to call our Water Quality Customer Care Line at (213) 367-3182.

MANAGING OUR WATER RESOURCES

A Message from Richard F. Harasick, LADWP Senior Assistant General Manager, Water System

Compared to previous years, the last two have been good for Los Angeles in terms of water resources. The Eastern Sierra snowpack, the main water source for the Los Angeles Aqueduct, is in very good shape for a change. The above average snowfall and the rains have made for a spectacular spring, and will help sustain our water needs well into the rest of the year.

We have gone from one extreme to the next; from parched dry conditions to more water than we can handle just like in 2017. It is important to remember that one good rainy season does not necessarily mean we will always enjoy an overabundance of water in the future.

That is why LADWP continues to focus on L.A.'s water future, employing long-term resource planning and management no matter the situation. Our goal in 2019 will be to get the water windfall to the right storage or treatment facility, thus ensuring a sustainable and resilient water supply for the years to come.

With our abundant rainfall, stormwater capture in L.A. County, which includes the LADWP service territory, stood at 113 percent of normal for the water year October 1, 2018 to May 1, 2019. That's approximately 23.5 billion gallons of water, enough to supply over 24,000 L.A. households annually. Through our stormwater capture infrastructure, rain barrels and cisterns, Los Angeles has been carefully harnessing this precious resource to recharge our local aquifers and help reduce our reliance on imported purchased water.

LADWP is also rising to meet the challenges of future water supplies with the ultimate sustainability endeavor. The city of Los Angeles' recent announcement to recycle 100 percent of all wastewater by 2035 will require major infrastructure investment to move advanced treated

pure water from the Hyperion Water Treatment Plant to additionally replenish our groundwater aquifers. This large capital improvement project represents another Mulholland moment, a game-changer at par with building another aqueduct. Its completion will be a leap for Los Angeles towards water independence.

To kick start that effort a wastewater ozone demonstration project at the Donald C. Tillman Plant in the San Fernando Valley is in progress to begin advanced wastewater treatment operations. This is the initial phase of an effort to replenish L.A.'s groundwater in the San Fernando Valley. This pure water will be conveyed to the Hansen Spreading Grounds where it will percolate through the soil. Once ready it will be pumped through existing groundwater wells, treated again and placed back into the distribution system.

There is no better and smarter way to manage our water resources than through water conservation. L.A. residents have truly made this a way of life and our city's per capita water use as of fiscal year 2017-18 is 112 gallons. Ours is one of the lowest of any major U.S. city and lower than it was in 1970, despite a population increase of more than one million people. LADWP has been working closely with our elected officials, other city departments, and customers to reduce water use across all sectors. The city's goal is to reduce water use by 25 percent by 2025, and 30 percent by 2035. We continue to encourage conservation through rebates and incentives for water-saving measures and devices. Furthermore, we are finding ways to conserve within our own system and operations. As an example, LADWP's Water Loss Task Force has been deploying strategies to reduce water losses in our distribution system.

Our professional forefathers undertook the complex and monumental task of constructing the Los Angeles Aqueduct to bring reliable, fresh, quality water to Los Angeles. LADWP staff today are just as committed to fulfill that goal, innovating and adopting modern solutions to operational and resource challenges. We remain steadfast in our resolve to ensure the reliability and sustainability of water for our customers and the entire city of Los Angeles.

WHERE DOES L.A. GET THE WATER IT NEEDS?

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganic contaminants, such as salts and metals, that can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- Pesticides and herbicides that may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals that are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, agricultural application, and septic systems.
- Radioactive contaminants that can be naturally-occurring or the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, the U.S. Environmental Protection Agency (U.S. EPA) and the State Water Resources Control Board (SWRCB) prescribe regulations that limit the amount of certain contaminants in water provided by public water systems. SWRCB regulations also establish limits for contaminants in bottled water that provide the same protection for public health.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. 2019. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the U.S. EPA's Safe Drinking Water Hotline (800) 426-4791.

IMPORTANT NOTICE

Precautions for the Special Needs Population

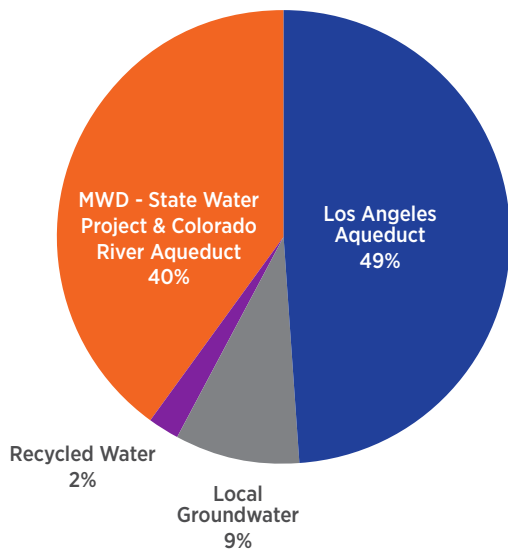

There are certain health conditions for which additional precautions on environmental exposures, including drinking water, would be advisable. Elderly customers and infants can be particularly at risk from infection as well as those with weakened immune systems including individuals living with HIV/AIDS or other immune system disorders, those who may have undergone chemotherapy or those who have received organ transplants.

Customers concerned with these types of health challenges should seek advice from their health care providers about drinking tap water. Contact U.S. EPA's Safe Drinking Water Hotline at (800) 426-4791, or visit www.epa.gov for free guidelines on how to reduce the risk of infection by *Cryptosporidium* and other microbial contaminants.

L.A.'S WATER SOURCES IN 2018

2018 Water Sources

REGULATORY COMPLIANCE

Regulatory Compliance How do we measure up?

LADWP works around the clock to ensure that the drinking water we deliver to our customers is of the highest quality and meets all safety requirements. Highly trained, certified treatment operators monitor our water treatment operations continuously, thereby helping meet federal and state standards for drinking water. In 2018, we tested for more than 200 constituents in the water and performed more than 120,000 tests on samples taken throughout our water system.

Notice of Violations of Drinking Water Regulations

Water quality is LADWP's highest priority. Staff works to ensure treatment protocols are followed year round at each of the city's water treatment facilities. Unfortunately, LADWP was issued one citation in 2018 for violating the surface water treatment rule. This violation was reported in the 2017 annual drinking water report. LADWP addressed the citation and put measures in place to prevent this type of occurrence in the future. LADWP received no additional violations in 2018.

Notification Levels Established for Two Fluorinated Compounds

On July 13, 2018, the California State Water Resources Control Board, Division of Drinking Water (SWRCB-DDW) issued health-based drinking water Notification Levels (NLs) for Perfluorooctanoic acid (PFOA) and Perfluorooctane sulfonic acid (PFOS). PFOA and PFOS are compounds that have been used in consumer products to make materials stain-resistant, water-proof, and non-stick. They are also used on surface coatings for paper, cardboard packaging, carpets, furniture, leather, fire-retardant foams, cookware, and equipment lubricants.

The NL issued is a health-based advisory level, not a regulatory level, established by SWRCB-DDW for chemicals that may present health risks but have yet to go through a Health Hazard Assessment. A Health Hazard Assessment is part of the process required to formally adopt a Maximum Contaminant Level (MCL) and includes rigorous research and data analysis by the State Office of Environmental Health.

The NLs for PFOA and PFOS have been set at 14 parts per trillion (ppt) and 13 ppt, respectively. A ppt is equivalent to one ounce in 7.5 billion gallons of water. An NL requires a public water supplier to notify SWRCB-DDW and its governing bodies if drinking water tests exceed the level and recommends customer notification.

Health consequences for exposure to significant levels of PFOA and PFOS may include liver toxicity, cancer risks, and immunotoxicity. Human exposure to PFOA and PFOS are primarily through consumer products, food, indoor and outdoor air, and dust. There is potential for exposure via ingestion of drinking water, particularly in former PFC manufacturing areas. Major U.S. manufacturers voluntarily phased out production of PFOS between 2000 and 2002, and subsequently for PFOA in 2006 due to toxicological concerns.

LADWP tested for PFOA, PFOS, and other PFC's in its source water and distribution system in 2013-2014, well after phased out production of these compounds as part of U.S. EPA's Unregulated Contaminant Monitoring Rule 3 (UCMR3).

During UCMR3 over 38 samples were collected from 11 different monitoring locations. Results for all samples were below laboratory detection levels utilizing advanced U.S. EPA certified test methods for these compounds and well below the NLs for PFOA and PFOS. LADWP continues monitoring for PFOA, PFOS, and other PFC's, including testing of local groundwater sources.

LADWP has a comprehensive water quality monitoring program to help ensure the safety of our water supply. Our water meets or exceeds all State and Federal drinking water standards established by the SWRCB-DDW and the U.S. EPA.

SWRCB-DDW has results of statewide testing for PFOA and PFOS on its website: https://www.waterboards.ca.gov/drinking_water/certlic/drinkingwater/PFOA_PFOS.html

LEAD AND DRINKING WATER IN L.A.

Lead is commonly found throughout our environment – in the air, soil, and in homes with old lead-based paints. Fortunately, lead is not found in any of the city’s water sources. LADWP has participated in the federal Lead and Copper Rule (LCR) sampling program since 1991 and has taken steps to eliminate lead containing materials in our distribution system. Los Angeles has and continues to be in compliance with the lead and copper regulation, based on residential sampling. In addition, LADWP is improving its corrosion control plan to further minimize lead exposure at the tap.

LADWP most recently conducted LCR residential sampling in 2018. To find the LCR results, see Table I (cont’d) on page 12.

The LCR sampling program focuses on single family residences which were built from 1982 to 1987 that have copper pipes plumbed with lead solder. Customers with qualifying homes that participate in the sampling program will get their tap water tested for lead and copper at no cost. Customers who think their home may qualify can participate in LADWP’s next round of LCR sampling are asked to contact us at (213) 367-3182.

In Los Angeles, the main source of lead in drinking water is household plumbing, primarily in homes built before 1986 where lead solder was used to join copper pipes. In 1986, federal law restricted the use of lead in lead-based solder to 0.2% and in pipes and pipe fittings used to serve drinking water to 8%. This helped reduce the amount of lead at the tap inside homes. In 2010, California law further restricted the amount of lead in pipes and pipe fittings to 0.25%, which again reduced the amount of lead at the tap inside homes. The amount of time water remains stagnant in home plumbing will affect how much lead could potentially leach into the tap water. The longer water remains motionless in the pipes, the more likely higher levels of lead will leach into drinking water. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is also available from the Safe Drinking Water Hotline or at www.epa.gov/lead.

Voluntary Lead Testing of Drinking Water at California Public and Private K-12 Schools

In January 2017, the SWRCB-DDW amended LADWP’s domestic water supply permit to include a new voluntary program to test for lead in drinking water at California public and private K-12 schools within its service area. Schools interested in participating in this program can find out more information on www.ladwp.com/waterquality under Water Quality in The News, Lead Testing for

Los Angeles Schools. Written requests will be accepted until November 1, 2019.

As of December 2018, LADWP has received and processed 24 requests from schools. No school had lead levels above the action level of 15 parts per billion. The breakdown of the samples results are as follows:

Total Samples Tested: 57

Non-Detect Results: 48

Above Action level: 0

Maximum Result: 3.5 µg/L

Average Result: 0.22 µg/L

If you have any questions regarding this program, please contact us at (213) 367-3182.

AB 746 Requires Lead Testing in California Public K-12 Schools

Effective January 1, 2018, California Assembly Bill 746 requires community water systems to test for lead in drinking water at California public K-12 schools within their service area by July 1, 2019. This law compliments the existing optional lead testing in schools program that began early last year. Under the new lead testing program, all public K-12 schools must participate in lead testing unless they can show that their school was constructed or their plumbing was replaced after December 31, 2009, and that they have conducted equivalent lead testing after January 1, 2009 and posted the results on their website.

Since the effective date, LADWP has established a schedule for four rounds of testing to complete sampling for 103 schools within our service area. LADWP has contacted and sent out testing kits to public K-12 schools within its service area. In 2018, three schools were tested. The results are included below. No school had lead levels above the action level of 15 parts per billion. All remaining schools should be tested by July 2019. If you have any questions regarding this new program, please contact us at (213) 367-3182.

Total Samples Tested: 11

Non-Detect Results: 5

Above Action level: 0

Maximum Result: 3.6 µg/L

Average Result: 1.24 µg/L

Assessment Programs for Surface and Groundwater Sources

Purchased Supplies:

The Metropolitan Water District (MWD) receives and treats water from the State Water Project and the Colorado River that is then delivered to Los Angeles customers. Three of the five MWD treatment plants: F.E. Weymouth, Robert B. Diemer and Joseph Jensen, supply water to the Los Angeles area. MWD tests its water for nearly 400 constituents and performs about 250,000 water quality tests per year on samples gathered from its vast distribution system. Analysis of these samples is undertaken at MWD's state-of-the-art water quality laboratory. Results from MWD are provided to LADWP and are included in the report on Tables I, II and III.

Safeguarding Our Surface Water

Administered by the State Water Resources Control Board, Division of Drinking Water (SWRCB-DDW), the Surface Water Treatment Rule (SWTR) is a set of drinking water regulations that establish specific treatment requirements for surface water to reduce the risk of waterborne diseases.

The last update to the SWTR is the Long Term 2 Enhanced

Surface Water Treatment Rule (LT2). This rule protects treated water reservoirs from microbiological contamination by requiring one of three actions: 1) covering, 2) removing from service, or 3) providing additional treatment. In March of 2009, LADWP executed a Compliance Agreement for LT2 with SWRCB-DDW for six uncovered reservoirs: Los Angeles, Upper Stone Canyon, Santa Ynez, Ivanhoe, Silver Lake, and Elysian. Based on the agreement LADWP has met the requirements for five of the six reservoirs. The Los Angeles Reservoir is the only remaining reservoir awaiting regulatory compliance.

The Los Angeles Reservoir will be brought into compliance with the LT2 through a combination of shade balls and construction of a new ultraviolet (UV) disinfection plant. The "shading" of the reservoir was completed in 2015 with nearly 96 million shade balls deployed. The new UV treatment facility will disinfect water leaving the Los Angeles Reservoir to satisfy the LT2 water quality regulation. Construction began in June 2017 and will be completed by the December 2020 compliance date set by the SWRCB-DDW.

Go to www.ladwp.com/waterquality to learn more about water quality projects and issues.

2018 DRINKING WATER QUALITY MONITORING RESULTS

Tables I, II, and III list the results of water tests performed by the LADWP and MWD from January to December 2018. LADWP tests for over 200 substances. These tables include only substances with values that are detected.

How to Read the Tables

The substances found in the water served in your area are listed as follows:

- For San Fernando Valley Area – water test results are under the Los Angeles Aqueduct Filtration Plant, the Northern Combined Wells and the MWD Jensen Plant columns.
- For Central Los Angeles Area – water test results are under the Los Angeles Aqueduct Filtration Plant and the Southern Combined Wells columns.
- For Western Los Angeles Area – water test results are under the Los Angeles Aqueduct Filtration Plant columns.
- For Harbor/Eastern Los Angeles Area – water test results are under MWD, Weymouth, Diemer, and Jensen Plants columns.

Some substances are reported on a citywide basis as required by the SWRCB-DDW.

Abbreviations and Footnotes

ACU = apparent color unit

CFU/mL = colony-forming unit per milliliter

< = less than the detection limit for reporting purposes

µg/L = micrograms per liter (equivalent to ppb)

µS/cm = microSiemens per centimeter

mg/L = milligrams per liter (equivalent to ppm)

NTU = nephelometric turbidity units

NA = not applicable

NR = not reported

NT = not tested

NUM/100 mL = number per 100 milliliter

% = percentage

pCi/L = picoCuries per liter

TON = threshold odor number

Unregulated Contaminants Monitoring Rule

The Unregulated Contaminant Monitoring Rule (UCMR) is a special program developed by the U.S. EPA that requires public water systems to survey up to 30 selected contaminants of emerging concerns (CECs) once every five years. Results indicate that most of the contaminants were not detected at the very low minimum reporting levels required by the U.S. EPA for UCMR3 analyses. Of the contaminants that were detected (see Table IV on page 15) chlorate and strontium were in insignificant but expected concentrations.

LADWP routinely tests for and detects chlorate in the distribution system. Chlorate is a disinfection byproduct of chlorination. Although it is unregulated, the SWRCB-DDW has set a notification level of 800 mg/l. UCMR3 test results for chlorate were much lower, ranging from not detected to 296 mg/l.

TERMS USED IN THE TABLES

Compliance: A drinking water standard based on the health risk (primary standards) and aesthetic (secondary standards) exposure of a contaminant to consumers. For example, bacteria and nitrate have strict limits that must be met at all times due to the acute effects they can cause. Other standards, like small amounts of disinfection by-products and man-made chemicals, have standards that are based on a lifetime of exposure because the risk to consumers is very low. Compliance with most standards is based on an average of samples collected within a year. This allows for some fluctuation above and below the numerical standard, while still protecting public health.

Federal Action Level (AL): Concentration of a contaminant which, if exceeded, triggers treatment or other requirements that a water system must follow. ALs are set by U.S. Environmental Protection Agency (U.S. EPA).

Federal Minimum Reporting Level (MRL): Minimum concentration of a contaminant which can be detected in drinking water using analytical methods established by the U.S. EPA. Data reported in Table IV reflect MRLs.

Maximum Contaminant Level Goal (MCLG): Level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs are set by the U.S. EPA.

Maximum Residual Disinfectant Level (MRDL): Highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Maximum Residual Disinfectant Level Goal (MRDLG): Level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the beneficial use of disinfectants to control microbial contaminants. MRDLGs are set by U.S. EPA.

Notification Level (NL): Health-based advisory level established by SWRCB-DDW for chemicals in drinking water that lack MCLs.

Primary Drinking Water Standard (PDWS): MCLs and MRDLs for contaminants that affect health along with their monitoring and reporting requirements, and water treatment requirements.

Public Health Goal (PHG): Level of a contaminant in drinking water below which there is no known or expected risk to health. PHGs are set by the California Environmental Protection Agency, Office of Environmental Health Hazard Assessment (OEHHA).

Secondary Maximum Contaminant Level (SMCL): Highest level a constituent allowed in drinking water that may affect the taste, odor or appearance. SMCLs are set by the U.S. EPA.

State Detection Limit (DLR): A detected contaminant at or above its detection level for reporting purposes. DLRs are set by the SWRCB-DDW. Data reported in Tables I through III reflect DLRs.

State Maximum Contaminant Level (MCL): Highest level of a contaminant allowed in drinking water. Primary MCLs are set as close to the Public Health Goals (PHGs) or Maximum Contaminant Level Goals (MCLGs) as is economically and technologically feasible. For certain contaminants, compliance with MCL is based on the average of all samples collected throughout the year.

Treatment Technique (TT): Required process intended to reduce the level of a contaminant in drinking water. For example, the filtration process is a treatment technique used to reduce turbidity (cloudiness in water) and microbial contaminants from surface water. High turbidities may be indicative of poor or inadequate filtration.

TABLE I

Calendar Year 2018 Water Quality Monitoring Results Health-based Primary Drinking Water Standards (MCLs) Substances Detected in Treated Water

| Substances | Major Sources in Drinking Water | Units | Meets Primary Standard (YES / NO) | State Primary Standard MCL | State PHG | Los Angeles Aqueduct Filtration Plant | | Northern Combined Wells | | Southern Combined Wells | | MWD Weymouth Plant | | MWD Diemer Plant | | MWD Jensen Plant | | |

| | | % | | TT = 95% of samples ≤0.3 NTU | | NA | | | | | | NA | | NA | | | NA | |
| Uranium (c) | Erosion of natural deposits | pCi/L | YES | 20 | 0.43 | 3 | 2 - 4 | 3 | 1 - 4 | 3 | 2-4 | <1 | <1 | <1 | <1 | <1 | <1 - 1 | |

(a) Values reflect Highest Running Annual Average (HRAA). HRAA is the highest of all Running Annual Averages (RAAs) in the reported calendar year. RAA is a calculated average of all samples collected within the previous 12-month period, which may include test data from the previous calendar year. HRAA may be higher than the range, which is based on the test data in the reported calendar year.

(b) Bromate is formed in water treated with ozone in the presence of bromide. Bromate has also been found in water treated with chlorine in some uncovered reservoirs in LADWP that have elevated bromide levels and are exposed to sunlight. MWD tests for bromate at its Diemer and Jensen Filtration Plants, which use ozone. Weymouth Plant has tested for bromate for less than 12-month period and so RAA is not calculated. All LADWP distribution reservoirs are now shielded with flexible covers or shade balls to minimize bromate formation.

(c) Radiological monitoring is performed in cycles of various frequencies in LADWP for treated sources water and at the blend points. Monitoring for Gross Alpha Particle Activity is performed in six year cycle and was conducted in 2016. Monitoring of Combined Radium-226 and Radium-228 is performed in three year cycle and was conducted in 2016. Monitoring of Gross Beta Particle Activity, Strontium-90, Tritium and Uranium is performed annually. MWD conducted all radiological monitoring in 2017.

(d) Turbidity is a measure of the cloudiness of water and is a good indicator of water quality and filtration performance. High turbidity can hinder the effectiveness of disinfectants. The Primary Drinking Water Standard for turbidity (included in this table) at water filtration plants is less than or equal to 0.3 NTU in at least 95 percent of the measurements taken in any month and shall not exceed 1.0 NTU at any time. The reporting requirement for treatment plant turbidity is to report the highest single measurement in the calendar year as well as the lowest monthly percentage of measurements that are less than or equal to 0.3 NTU.

TABLE I (CONT'D)

Calendar Year 2018 Water Quality Monitoring Results

Health-based Primary Drinking Water Standards (MCLs) Substances Detected in Treated Water and Reported on City-Wide Basis

| Substances | Major Sources in Drinking Water | Units | Meets Primary Standard (YES/NO) | State Primary Standard MCL or (MRDL) | State PHG / (MRDLG) | Average | Range |
|-----------------------------------|---|-------------|---------------------------------|--|---------------------|---|---|
| Bromate (uncovered reservoirs) | By-product of ozone disinfection; formed under sunlight for chlorinated water | µg/L | YES | 10 | 0.1 | HRAA = 2 (a) | Range = <1 – 3 |
| Chlorine Residual, Total | Drinking water disinfectant added for treatment | mg/L | YES | (4) | (4) | HRAA = 2.0 (a) | Range = 1.8 – 2.1 |
| Copper (at-the-tap) AL = 1300 (e) | Internal corrosion of household water plumbing systems | µg/L | YES | TT | 300 | 90th Percentile value = 329 | Number of samples exceeding AL = 0 out of 103 |
| Fluoride | Erosion of natural deposits; water additive that promotes strong teeth | mg/L | YES | 2 | 1 | Average = 0.7 | Range = 0.2 - 0.9 |
| Haloacetic Acids (Five) (HAA5) | By-product of drinking water disinfection | µg/L | YES | 60 | none | HLRAA = 15 (f) | Range = 3 – 22 |
| Lead (at-the-tap) AL = 15 (e) | Internal corrosion of household water plumbing systems | µg/L | YES | TT | 0.2 | 90th Percentile value = 5.2 | Number of samples exceeding AL = 1 out of 103 |
| Total Coliform Bacteria | Naturally present in the environment | % Positives | YES | ≤5% of monthly samples are coliform positive | 0 | Highest monthly % positive samples = 1.5% | Range = % positive samples 0% – 1.3% |
| Total Trihalomethanes (TTHM) | By-product of drinking water chlorination | µg/L | YES | 80 | none | HLRAA = 38 (f) | Range = 9 – 46 |

(a) Values reflect Highest Running Annual Average (HRAA). HRAA is the highest of all Running Annual Averages (RAAs) in the reported calendar year. RAA is a calculated average of all samples collected within the previous 12-month period, which may include test data from the previous calendar year. HRAA may be higher than the range, which is based on the test data in the reported calendar year.

(e) At-the-tap monitoring of lead and copper is conducted as required by the federal Lead and Copper Rule. A system is out of compliance if the federal Action Level is exceeded in more than 10 percent of all samples collected at the customers' tap. The most recent monitoring was conducted in 2018. Although the City's treated water has little or no detectable lead, studies were conducted and corrosion control implementation started. A small corrosion control facility utilizing zinc orthophosphate

(temporarily out of service for upgrades) has been in operation in the Watts area since the 1990's. Corrosion control was introduced to the Western Los Angeles area in 2010 and to the Hollywood area in 2015. The results of the corrosion control study will be available in 2019.

(f) The federal Stage 2 Disinfectants/Disinfection Byproducts Rule (Stage 2 D/DBPR) requires compliance monitoring and reporting for total trihalomethanes (TTHM) and five haloacetic acids (HAA5) based on Locational Running Annual Averages (LRAAs) of established monitoring locations. The Highest Locational Running Annual Averages (HLRAAs) of all LRAAs in the current calendar year for TTHM and HAA5 are reported.

TABLE II

Calendar Year 2018 Water Quality Monitoring Results Aesthetic-based Secondary Drinking Water Standards (SMCLs) Substances Detected in Treated Water

| Substances | Major Sources in Drinking Water | Units | Meets Secondary Standard (YES/NO) | State SMCL or Federal (SMCL) | Los Angeles Aqueduct Filtration Plant | | Northern Combined Wells | | Southern Combined Wells | | MWD Weymouth Plant | | MWD Diemer Plant | | MWD Jensen Plant | |
|-------------------------------|--|-------|-----------------------------------|------------------------------|---------------------------------------|-----------|-------------------------|------------|-------------------------|------------|--------------------|------------|------------------|-----------|------------------|-----------|
| | | | | | Average | Range | Average | Range | Average | Range | Average | Range | Average | Range | Average | Range |
| Aluminum | Erosion of natural deposits; residue from some surface water treatment processes | µg/L | YES | 200 | <50 | <50 | <50 | <50 | <50 | <50 | 105 (a) | <50 - 220 | 124 (a) | <50 - 210 | < 50 (a) | <50 – 75 |
| Chloride | Runoff / leaching from natural deposits; seawater influence | mg/L | YES | 500 | 34 | 24 - 46 | 39 | 28 - 45 | 39 | 30 - 49 | 96 | 96 - 97 | 94 | 92 - 95 | 56 | 54 - 57 |
| Color, Apparent (unfiltered) | Naturally-occurring organic materials | ACU | YES | 15 | 3 | 3 - 4 | 3 | 3 - 4 | 3 | 3 - 4 | <1 | <1 - 1 | <1 | <1 - 1 | <1 | <1 - 1 |
| Odor | Naturally-occurring organic materials | TON | YES | 3 | <1 | <1 | <1 | <1 | <1 | <1 | 3 | 3 | 2 | 1 - 4 | 2 | 1 - 4 |
| pH | Naturally-occurring dissolved gases and minerals | Unit | YES | (6.5 - 8.5) | 7.6 | 7.3 - 7.9 | 8.1 | 7.4 - 8.4 | 8.1 | 7.6 - 8.4 | 8.1 | 8.1 - 8.2 | 8.1 | 8.1 | 8.5 | 8.4 - 8.5 |
| Specific Conductance | Substances that form ions when in water; seawater influence | µS/cm | YES | 1600 | 348 | 290 - 400 | 518 | 360 - 560 | 518 | 450 - 620 | 954 | 897 - 1010 | 906 | 852 - 961 | 436 | 428 - 444 |
| Sulfate (as SO ₄) | Runoff / leaching from natural deposits | mg/L | YES | 500 | 28 | 17 - 34 | 74 | 42 - 88 | 74 | 62 - 104 | 213 | 190 - 236 | 199 | 178 - 220 | 44 | 43 - 46 |
| Total Dissolved Solids (TDS) | Runoff / leaching from natural deposits | mg/L | YES | 1000 | 201 | 164 - 232 | 415 | 241 - 338 | 415 | 276 - 376 | 596 | 553 - 639 | 565 | 523 - 607 | 242 | 239 - 244 |
| Turbidity (g) | Soil runoff | NTU | YES | 5 | <0.1 | <0.1 | 0.1 | <0.1 – 0.2 | 0.1 | <0.1 – 0.2 | <0.1 | <0.1 | <0.1 | <0.1 | <0.1 | <0.1 |

(a) Values reflect Highest Running Annual Average (HRAA). HRAA is the highest of all Running Annual Averages (RAAs) in the reported calendar year. RAA is a calculated average of all samples collected within the previous 12-month period, which may include test data from the previous calendar year. Hence, HRAA may be higher than the range, which is based on the test data in the reported calendar year.

(g) The Secondary Maximum Contaminant Level for turbidity of treated water in the distribution system is 5 NTU at the entry points to the distribution system.

TABLE III Calendar Year 2018 Water Quality Monitoring Results

Unregulated Drinking Water Substances Detected in Treated Water

| Substances | Major Sources in Drinking Water | Units | Los Angeles Aqueduct Filtration Plant | | Northern Combined Wells | | Southern Combined Wells | | MWD Weymouth Plant | | MWD Diemer Plant | | MWD Jensen Plant | |
|--|--|------------|---------------------------------------|-----------|-------------------------|------------|-------------------------|-----------|--------------------|-----------|------------------|-----------|------------------|-----------|
| | | | Average | Range | Average | Range | Average | Range | Average | Range | Average | Range | Average | Range |
| Alkalinity, Total (as CaCO ₃) | Erosion of natural deposits | mg/L | 97 | 86 - 112 | 117 | 90 - 131 | 117 | 107 - 139 | 112 | 107 - 117 | 106 | 99 - 114 | 72 | 68 - 76 |
| Ammonia + Chloramines (as N) | Drinking water disinfectant added for treatment | mg/L | 0.5 | 0.4 - 0.5 | 0.5 | 0.3 - 0.6 | 0.5 | 0.4 - 0.6 | NA | NA | NA | NA | NA | NA |
| Bicarbonate Alkalinity (as CaCO ₃) | Naturally-occurring dissolved gas; erosion of natural deposits | mg/L | 119 | 105 - 137 | 143 | 110 - 159 | 143 | 131 - 169 | NA | NA | NA | NA | NA | NA |

General Information

This annual Drinking Water Quality Report (also known as a Consumer Confidence Report) is required by the California State Water Resources Control Board, Division of Drinking Water (SWRCB-DDW) and is prepared in accordance with their guidelines. The report is available online at www.ladwp.com/waterqualityreport. Copies may be requested by calling (213) 367-3182.

LADWP, the largest municipal utility in the nation, was established more than 100 years ago. The utility now provides reliable and safe water and electric service to the city's more than 4 million residents and businesses. LADWP is governed by Board of Water and Power Commissioners, appointed by the Mayor and confirmed by the City Council. The Board meets regularly on the second and fourth Tuesdays of each month at 10:00 a.m.

Meetings are held at:

Los Angeles Department of Water and Power
111 North Hope Street, Room 1555H
Los Angeles, CA 90012-2694

The meeting agenda is available to the public on the Thursday prior to the week of the meeting. You can access the Board agenda at www.ladwp.com/board or by calling (213) 367-1351.

For general information about LADWP, call (800) DIAL-DWP or visit www.ladwp.com.

For questions regarding this report, call the Water Quality hotline at (213) 367-3182.

THIS MESSAGE IS FOR NON-ENGLISH SPEAKING LADWP CUSTOMERS

PRELIMINARY REPORT

Dated as of **August 26, 2019** at 7:30 a.m.

In response to the application for a policy of title insurance referenced herein, **Commonwealth Land Title Company** hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitation on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

The policy(s) of title insurance to be issued hereunder will be policy(s) of **Commonwealth Land Title Insurance Company**.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered. It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Order No: 09173268-917-BLB-EGL

SCHEDULE A

The form of policy of title insurance contemplated by this report is:

ALTA Standard Owner's Policy of Title Insurance (6-17-06)

ALTA Extended Loan Policy of Title Insurance (6-17-06)

The estate or interest in the land hereinafter described or referred to covered by this report is:

A FEE

Title to said estate or interest at the date hereof is [vested in:](#)

39 South LLC, a California limited liability company

The land referred to herein is situated in the County of **Los Angeles**, State of **California**, and is described as follows:

SCHEDULE B – Section A

The following exceptions will appear in policies when providing standard coverage as outlined below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

SCHEDULE B – Section B

At the date hereof Exceptions to coverage in addition to the printed exceptions and exclusions in said policy form would be as follows:

A. Property taxes, which are a lien not yet due and payable, including any assessments collected with taxes to be levied for the fiscal year 2019-2020.

B. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.

1. Water rights, claims or title to water, whether or not disclosed by the public records.

2. A deed of trust to secure an indebtedness in the amount shown below,

Recording Date: May 14, 2013
Recording No: 20130721512, Official Records

3. A deed of trust to secure an indebtedness in the amount shown below,

Amount: \$900,000.00
Dated: February 10, 2014
Trustor/Grantor 39 South LLC, a California limited liability company
Trustee: Premier Business Bank
Beneficiary: Premier Business Bank
Loan No.: 4014098000
Recording Date: April 23, 2014
Recording No: 20140415256 Official Records

An agreement to modify the terms and provisions of said deed of trust as therein provided

Executed by: 39 South LLC, a California limited liability company, and Premier Business Bank
Recording Date: June 13, 2014
Recording No: 20140614725 Official Records

4. An assignment of all moneys due, or to become due as rental or otherwise from said Land, to secure payment of an indebtedness, shown below and upon the terms and conditions therein

Amount: \$900,000.00
Assigned to: Premier Business Bank
Assigned By: 39 South LLC, a California limited liability company
Recording Date: April 23, 2014
Recording No: 20140415257 Official Records

Order No: 09173268-917-BLB-EGL

5. Matters which may be disclosed by an inspection and/or by a correct ALTA/NSPS Land Title Survey of said Land that is satisfactory to the Company, and/or by inquiry of the parties in possession thereof.
6. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

7. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other matters which a correct survey would disclose and which are not shown by the public records.
8. Any easements not disclosed by the public records as to matters affecting title to real property, whether or not said easements are visible and apparent.

END OF SCHEDULE B EXCEPTIONS

PLEASE REFER TO THE "NOTES AND REQUIREMENTS SECTION" WHICH FOLLOWS FOR INFORMATION NECESSARY TO COMPLETE THIS TRANSACTION

REQUIREMENTS SECTION:

1. Prior to the close of escrow, the Company requires a Statement of Information to be completed by the following party(s),

Party(s): All Parties and General Partners

The Company reserves the right to add additional items or make further requirements after review of the requested Statement of Information.

2. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance from the entity named below:

Limited Liability Company: 39 South LLC, a California limited liability company

- a) A copy of its operating agreement, if any, and all amendments, supplements and/or modifications thereto, certified by the appropriate manager or member.
 - b) If a domestic Limited Liability Company, a copy of its Articles of Organization and all amendments thereto with the appropriate filing stamps.
 - c) If the Limited Liability Company is member-managed, a full and complete current list of members certified by the appropriate manager or member.
 - d) A current dated certificate of good standing from the proper governmental authority of the state in which the entity is currently domiciled.
 - e) If less than all members, or managers, as appropriate, will be executing the closing documents, furnish evidence of the authority of those signing.
 - f) If Limited Liability Company is a Single Member Entity, a Statement of Information for the Single Member will be required.
 - g) Each member and manager of the LLC without an Operating Agreement must execute in the presence of a notary public the Certificate of California LLC (Without an Operating Agreement) Status and Authority form.
3. Unrecorded matters which may be disclosed by an Owner's Affidavit or Declaration. A form of the Owner's Affidavit/Declaration is attached to this Preliminary Report/Commitment. This Affidavit/Declaration is to be completed by the record owner of the land and submitted for review prior to the closing of this transaction. Your prompt attention to this requirement will help avoid delays in the closing of this transaction. Thank you.

The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit/Declaration.

INFORMATIONAL NOTES SECTION

1. The information on the attached plat is provided for your convenience as a guide to the general location of the subject property. The accuracy of this plat is not guaranteed, nor is it a part of any policy, report or guarantee to which it may be attached.
2. For wiring Instructions please contact your Title Officer or Title Company Escrow officer.
3. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.
4. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.
5. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.
6. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.
7. Note: None of the items shown in this report will cause the Company to decline to attach ALTA Endorsement Form 9 to an Extended Coverage Loan Policy, when issued.
8. Note: The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land commercial/industrial property, known as 1413 Cole Place, City of Los Angeles, CA, to an Extended Coverage Loan Policy.
9. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.
10. Note: Property taxes, including any personal property taxes and any assessments collected with taxes, are paid. For proration purposes the amounts were:

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY – 1990
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
- (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
 - (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
 - (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
 - (c) resulting in no loss or damage to the insured claimant;
 - (d) attaching or created subsequent to Date of Policy; or
 - (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.

Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
 - a. building;
 - b. zoning;
 - c. land use;
 - d. improvements on the Land;
 - e. land division; and
 - f. environmental protection.This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
 - a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
 - b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
 - c. that result in no loss to You; or
 - d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
 - a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and

- b. in streets, alleys, or waterways that touch the Land.
This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
- 7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
- 8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
- 9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

| | Your Deductible Amount | Our Maximum Dollar Limit of Liability |
|------------------|--|---------------------------------------|
| Covered Risk 16: | 1.00% % of Policy Amount Shown in Schedule A or \$2,500.00 (whichever is less) | \$ 10,000.00 |
| Covered Risk 18: | 1.00% % of Policy Amount Shown in Schedule A or \$5,000.00 (whichever is less) | \$ 25,000.00 |
| Covered Risk 19: | 1.00% of Policy Amount Shown in Schedule A or \$5,000.00 (whichever is less) | \$ 25,000.00 |
| Covered Risk 21: | 1.00% of Policy Amount Shown in Schedule A or \$2,500.00 (whichever is less) | \$ 5,000.00 |

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;
 or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

(Except as provided in Schedule B - Part II, (t) or (T) this policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

(PART I

(The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.

Order No: 09173268-917-BLB-EGL

4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:)

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
 - (a) a fraudulent conveyance or fraudulent transfer; or
 - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

(The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.
7. (Variable exceptions such as taxes, easements, CC&R's, etc. shown here.)

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (12-02-13)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

Order No: 09173268-917-BLB-EGL

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

FNF Underwritten Title Company
LTC – Lawyers Title Company

FNF Underwriter
CLTIC – Commonwealth Land Title Insurance Co.

Available Discounts

DISASTER LOANS (CLTIC)

The charge for a Lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within 24 months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be 50% of the appropriate title insurance rate.

EMPLOYEE RATE (LTC and CLTIC)

No charge shall be made to employees (including employees on approved retirement) of the Company or its underwritten, subsidiary or affiliated title companies for policies or escrow services in connection with financing, refinancing, sale or purchase of the employees' bona fide home property. Waiver of such charges is authorized only in connection with those costs which the employee would be obligated to pay, by established custom, as a party to the transaction.

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. **DO NOT** use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened.** **DO NOT** send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do **NOT** reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

FIDELITY NATIONAL FINANCIAL, INC. PRIVACY NOTICE

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, “FNF,” “our,” or “we”) respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

Types of Information Collected

We may collect two types of information from you: Personal Information and Browsing Information.

Personal Information. FNF may collect the following categories of Personal Information:

- contact information (e.g., name, address, phone number, email address);
- demographic information (e.g., date of birth, gender, marital status);
- identity information (e.g., Social Security Number, driver’s license, passport, or other government ID number);
- financial account information (e.g., loan or bank account information); and
- other personal information necessary to provide products or services to you.

Browsing Information. FNF may automatically collect the following types of Browsing Information when you access an FNF website, online service, or application (each an “FNF Website”) from your Internet browser, computer, and/or mobile device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website

How Personal Information is Collected

We may collect Personal Information about you from:

- information we receive from you on applications or other forms;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

How Browsing Information is Collected

If you visit or use an FNF Website, Browsing Information may be collected during your visit. Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a “cookie” may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer’s hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to “Do Not Track” features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to other websites. FNF is not responsible for the privacy practices or the content of any of those other websites. We advise you to read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates’, and third parties’ products and services, jointly or independently.

When Information Is Disclosed

We may make disclosures of your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;

- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Please see “**Choices With Your Information**” to learn the disclosures you can restrict.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to guard your Personal Information. We limit access to nonpublic personal information about you to employees who need to know that information to do their job. When we provide Personal Information to others as discussed in this Privacy Notice, we expect that they process such information in compliance with our Privacy Notice and in compliance with applicable privacy laws.

Choices With Your Information

If you do not want FNF to share your information with our affiliates to directly market to you, you may send an “opt out” request by email, phone, or physical mail as directed at the end of this Privacy Notice. We do not share your Personal Information with nonaffiliates for their use to direct market to you.

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information and Browsing Information with nonaffiliated third parties, except as permitted by California law.

For Nevada Residents: You may be placed on our internal Do Not Call List by calling (888) 934-3354 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.

For Oregon Residents: We will not share your Personal Information and Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not share information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children

The FNF Websites are meant for adults and are not intended or designed to attract persons under the age of eighteen (18). We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF’s headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence for any of the purposes described in this Privacy Notice. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the “Service Websites”). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender’s privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender’s privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except (1) as required or authorized by contract with the mortgage loan servicer or lender, or (2) as required by law or in the good-faith belief that such disclosure is necessary to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The revised Privacy Notice, showing the new revision date, will be posted on the FNF Website. Each time you provide information to us following any amendment of this Privacy Notice, your provision of information to us will signify your assent to and acceptance of the terms of the revised Privacy Notice for all previously collected information and information collected from you in the future. We may use comments, information or feedback that you submit to us in any manner that we may choose without notice or compensation to you.

Accessing and Correcting Information; Contact Us

If you have questions, would like to access or correct your Personal Information, or want to opt-out of information sharing for affiliate marketing, send your requests via email to privacy@fnf.com, by phone to (888) 934-3354, or by mail to:

OWNER'S DECLARATION

The undersigned hereby declares as follows:

1. (Fill in the applicable paragraph and strike the other)
 - a. Declarant ("Owner") is the owner or lessee, as the case may be, of certain premises located at _____, further described as follows: See Preliminary Report/Commitment No. **09173268-917-BLB-EGL** for full legal description (the "Land").
 - b. Declarant is the _____ of _____ ("Owner"), which is the owner or lessee, as the case may be, of certain premises located at _____, further described as follows: See Preliminary Report/Commitment No. **09173268-917-BLB-EGL** for full legal description (the "Land").

2. (Fill in the applicable paragraph and strike the other)
 - a. During the period of six months immediately preceding the date of this declaration no work has been done, no surveys or architectural or engineering plans have been prepared, and no materials have been furnished in connection with the erection, equipment, repair, protection or removal of any building or other structure on the Land or in connection with the improvement of the Land in any manner whatsoever.
 - b. During the period of six months immediately preceding the date of this declaration certain work has been done and materials furnished in connection with _____ upon the Land in the approximate total sum of \$ _____, but no work whatever remains to be done and no materials remain to be furnished to complete the construction in full compliance with the plans and specifications, nor are there any unpaid bills incurred for labor and materials used in making such improvements or repairs upon the Land, or for the services of architects, surveyors or engineers, except as follows: _____. Owner, by the undersigned Declarant, agrees to and does hereby indemnify and hold harmless **Commonwealth Land Title Company** against any and all claims arising therefrom.

3. Owner has not previously conveyed the Land; is not a debtor in bankruptcy (and if a partnership, the general partner thereof is not a debtor in bankruptcy); and has not received notice of any pending court action affecting the title to the Land.

4. Except as shown in the above-referenced Preliminary Report/Commitment, there are no unpaid or unsatisfied mortgages, deeds of trust, Uniform Commercial Code financing statements, regular assessments, or taxes that constitute a lien against the Land or that affect the Land but have not been recorded in the public records.

5. The Land is currently in use as _____; _____ occupy/occupies the Land; and the following are all of the leases or other occupancy rights affecting the Land:

6. There are no other persons or entities that assert an ownership interest in the Land, nor are there unrecorded easements, claims of easement, or boundary disputes that affect the Land.

7. There are no outstanding options to purchase or rights of first refusal affecting the Land.

8. There are no material violations of any current, enforceable covenant affecting the Property and the Undersigned has received no written notice from any third party claiming that there is a present violation of any current, enforceable covenant affecting the Property.

This declaration is made with the intention that **Commonwealth Land Title Company** and **Commonwealth Land Title Insurance Company** (the "Company") and its policy issuing agents will rely upon it in issuing their title insurance policies and endorsements. Owner, by the undersigned Declarant, agrees to indemnify the Company against loss or damage (including attorneys fees, expenses, and costs) incurred by the Company as a result of any untrue statement made herein.

I declare under penalty of perjury that the foregoing is true and correct and that this declaration was executed on ____ at _____.

PRELIMINARY REPORT

Dated as of **August 23, 2019** at 7:30 a.m.

In response to the application for a policy of title insurance referenced herein, **Commonwealth Land Title Company** hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitation on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

The policy(s) of title insurance to be issued hereunder will be policy(s) of **Commonwealth Land Title Insurance Company**.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered. It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Order No: 09173266-917-BLB-EGL

SCHEDULE A

The form of policy of title insurance contemplated by this report is:

ALTA Standard Owner's Policy of Title Insurance (6-17-06)

ALTA Extended Loan Policy of Title Insurance (6-17-06)

The estate or interest in the land hereinafter described or referred to covered by this report is:

A FEE

Title to said estate or interest at the date hereof is [vested in:](#)

39 South, LLC, a California limited liability company

SCHEDULE B – Section A

The following exceptions will appear in policies when providing standard coverage as outlined below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

SCHEDULE B – Section B

At the date hereof Exceptions to coverage in addition to the printed exceptions and exclusions in said policy form would be as follows:

A. Property taxes, which are a lien not yet due and payable, including any assessments collected with taxes to be levied for the fiscal year 2019-2020.

B. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.

1. Water rights, claims or title to water, whether or not disclosed by the public records.

2. An instrument entitled Master Covenant and Agreement

Recording Date: September 26, 2006
Recording No: 06-2142738 Official Records

Reference is hereby made to said document for full particulars.

3. An instrument entitled Master Covenant and Agreement

Recording Date: September 26, 2006
Recording No: 06-2142739 Official Records

Reference is hereby made to said document for full particulars.

4. An instrument entitled Master Covenant and Agreement Regarding On-site BMP Maintenance

Recording Date: January 3, 2007
Recording No: 20070012651 Official Records

Reference is hereby made to said document for full particulars.

5. An instrument entitled Master Covenant and Agreement

Recording Date: January 31, 2007
Recording No: 20070211266 Official Records

Reference is hereby made to said document for full particulars.

6. Covenant and agreement wherein the owners agree to hold said Land as one parcel and not to sell any portion thereof separately. Said covenant is expressed to run with the Land and be binding upon future owners.

Recording Date: January 31, 2007
Recording No.: 20070211267 Official Records

Reference is hereby made to said document for full particulars.

7. An instrument entitled Covenant and Agreement

Executed by: 39 South, LLC
In favor of: City of Los Angeles
Recording Date: December 13, 2007
Recording No: 20072743315 Official Records

Reference is hereby made to said document for full particulars.

8. Please be advised that our search did not disclose any open Deeds of Trust of record. If you should have knowledge of any outstanding obligation, please contact the Title Department immediately for further review prior to closing.
9. Matters which may be disclosed by an inspection and/or by a correct ALTA/NSPS Land Title Survey of said Land that is satisfactory to the Company, and/or by inquiry of the parties in possession thereof.
10. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

11. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other matters which a correct survey would disclose and which are not shown by the public records.
12. Any easements not disclosed by the public records as to matters affecting title to real property, whether or not said easements are visible and apparent.

END OF SCHEDULE B EXCEPTIONS

PLEASE REFER TO THE "NOTES AND REQUIREMENTS SECTION" WHICH FOLLOWS FOR INFORMATION NECESSARY TO COMPLETE THIS TRANSACTION

REQUIREMENTS SECTION:

1. Prior to the close of escrow, the Company requires a Statement of Information to be completed by the following party(s),

Party(s): All Parties and General Partners

The Company reserves the right to add additional items or make further requirements after review of the requested Statement of Information.

2. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance from the entity named below:

Limited Liability Company: 39 South, LLC, a California limited liability company

- a) A copy of its operating agreement, if any, and all amendments, supplements and/or modifications thereto, certified by the appropriate manager or member.
 - b) If a domestic Limited Liability Company, a copy of its Articles of Organization and all amendments thereto with the appropriate filing stamps.
 - c) If the Limited Liability Company is member-managed, a full and complete current list of members certified by the appropriate manager or member.
 - d) A current dated certificate of good standing from the proper governmental authority of the state in which the entity is currently domiciled.
 - e) If less than all members, or managers, as appropriate, will be executing the closing documents, furnish evidence of the authority of those signing.
 - f) If Limited Liability Company is a Single Member Entity, a Statement of Information for the Single Member will be required.
 - g) Each member and manager of the LLC without an Operating Agreement must execute in the presence of a notary public the Certificate of California LLC (Without an Operating Agreement) Status and Authority form.
3. Unrecorded matters which may be disclosed by an Owner's Affidavit or Declaration. A form of the Owner's Affidavit/Declaration is attached to this Preliminary Report/Commitment. This Affidavit/Declaration is to be completed by the record owner of the land and submitted for review prior to the closing of this transaction. Your prompt attention to this requirement will help avoid delays in the closing of this transaction. Thank you.

The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit/Declaration.

INFORMATIONAL NOTES SECTION

1. The information on the attached plat is provided for your convenience as a guide to the general location of the subject property. The accuracy of this plat is not guaranteed, nor is it a part of any policy, report or guarantee to which it may be attached.
2. For wiring Instructions please contact your Title Officer or Title Company Escrow officer.
3. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.
4. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.
5. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.
6. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.
7. Note: None of the items shown in this report will cause the Company to decline to attach ALTA Endorsement Form 9 to an Extended Coverage Loan Policy, when issued.
8. Note: The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land commercial/industrial property, known as 1417 & 1433 Cole Place, City of Los Angeles, CA, to an Extended Coverage Loan Policy.
9. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.
10. Note: Property taxes, including any personal property taxes and any assessments collected with taxes, are paid. For proration purposes the amounts were:

| | |
|-------------------------|--------------|
| Tax Identification No.: | 5546-014-013 |
| Fiscal Year: | 2018-2019 |
| 1st Installment: | \$55,544.48 |
| 2nd Installment: | \$55,544.47 |
| Exemption: | 0.00 |
| Code Area: | 00200 |

Affects: A portion of the Land described herein.

Order No: 09173266-917-BLB-EGL

11. Note: Property taxes, including any personal property taxes and any assessments collected with taxes, are paid. For proration purposes the amounts were:

| | |
|-------------------------|--------------|
| Tax Identification No.: | 5546-014-014 |

ATTACHMENT ONE
CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY – 1990
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
- (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
 - (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
 - (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
 - (c) resulting in no loss or damage to the insured claimant;
 - (d) attaching or created subsequent to Date of Policy; or
 - (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.

Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
 - a. building;
 - b. zoning;
 - c. land use;
 - d. improvements on the Land;
 - e. land division; and
 - f. environmental protection.This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
 - a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
 - b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
 - c. that result in no loss to You; or
 - d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
 - a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and

- b. in streets, alleys, or waterways that touch the Land.
This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
- 7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
- 8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
- 9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

| | Your Deductible Amount | Our Maximum Dollar Limit of Liability |
|------------------|--|---------------------------------------|
| Covered Risk 16: | 1.00% % of Policy Amount Shown in Schedule A or \$2,500.00 (whichever is less) | \$ 10,000.00 |
| Covered Risk 18: | 1.00% % of Policy Amount Shown in Schedule A or \$5,000.00 (whichever is less) | \$ 25,000.00 |
| Covered Risk 19: | 1.00% of Policy Amount Shown in Schedule A or \$5,000.00 (whichever is less) | \$ 25,000.00 |
| Covered Risk 21: | 1.00% of Policy Amount Shown in Schedule A or \$2,500.00 (whichever is less) | \$ 5,000.00 |

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;
 or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

(Except as provided in Schedule B - Part II, (t) or (T)his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

(PART I

(The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.

Order No: 09173266-917-BLB-EGL

4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:)

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
 - (a) a fraudulent conveyance or fraudulent transfer; or
 - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

(The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.
7. (Variable exceptions such as taxes, easements, CC&R's, etc. shown here.)

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (12-02-13)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

Order No: 09173266-917-BLB-EGL

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

FNF Underwritten Title Company
LTC – Lawyers Title Company

FNF Underwriter
CLTIC – Commonwealth Land Title Insurance Co.

Available Discounts

DISASTER LOANS (CLTIC)

The charge for a Lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within 24 months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be 50% of the appropriate title insurance rate.

EMPLOYEE RATE (LTC and CLTIC)

No charge shall be made to employees (including employees on approved retirement) of the Company or its underwritten, subsidiary or affiliated title companies for policies or escrow services in connection with financing, refinancing, sale or purchase of the employees' bona fide home property. Waiver of such charges is authorized only in connection with those costs which the employee would be obligated to pay, by established custom, as a party to the transaction.

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. **DO NOT** use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened.** **DO NOT** send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do **NOT** reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

FIDELITY NATIONAL FINANCIAL, INC. PRIVACY NOTICE

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, “FNF,” “our,” or “we”) respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

Types of Information Collected

We may collect two types of information from you: Personal Information and Browsing Information.

Personal Information. FNF may collect the following categories of Personal Information:

- contact information (e.g., name, address, phone number, email address);
- demographic information (e.g., date of birth, gender, marital status);
- identity information (e.g., Social Security Number, driver’s license, passport, or other government ID number);
- financial account information (e.g., loan or bank account information); and
- other personal information necessary to provide products or services to you.

Browsing Information. FNF may automatically collect the following types of Browsing Information when you access an FNF website, online service, or application (each an “FNF Website”) from your Internet browser, computer, and/or mobile device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website

How Personal Information is Collected

We may collect Personal Information about you from:

- information we receive from you on applications or other forms;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

How Browsing Information is Collected

If you visit or use an FNF Website, Browsing Information may be collected during your visit. Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a “cookie” may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer’s hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to “Do Not Track” features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to other websites. FNF is not responsible for the privacy practices or the content of any of those other websites. We advise you to read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates’, and third parties’ products and services, jointly or independently.

When Information Is Disclosed

We may make disclosures of your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;

- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Please see “**Choices With Your Information**” to learn the disclosures you can restrict.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to guard your Personal Information. We limit access to nonpublic personal information about you to employees who need to know that information to do their job. When we provide Personal Information to others as discussed in this Privacy Notice, we expect that they process such information in compliance with our Privacy Notice and in compliance with applicable privacy laws.

Choices With Your Information

If you do not want FNF to share your information with our affiliates to directly market to you, you may send an “opt out” request by email, phone, or physical mail as directed at the end of this Privacy Notice. We do not share your Personal Information with nonaffiliates for their use to direct market to you.

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information and Browsing Information with nonaffiliated third parties, except as permitted by California law.

For Nevada Residents: You may be placed on our internal Do Not Call List by calling (888) 934-3354 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.

For Oregon Residents: We will not share your Personal Information and Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not share information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children

The FNF Websites are meant for adults and are not intended or designed to attract persons under the age of eighteen (18). We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF’s headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence for any of the purposes described in this Privacy Notice. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the “Service Websites”). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender’s privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender’s privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except (1) as required or authorized by contract with the mortgage loan servicer or lender, or (2) as required by law or in the good-faith belief that such disclosure is necessary to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

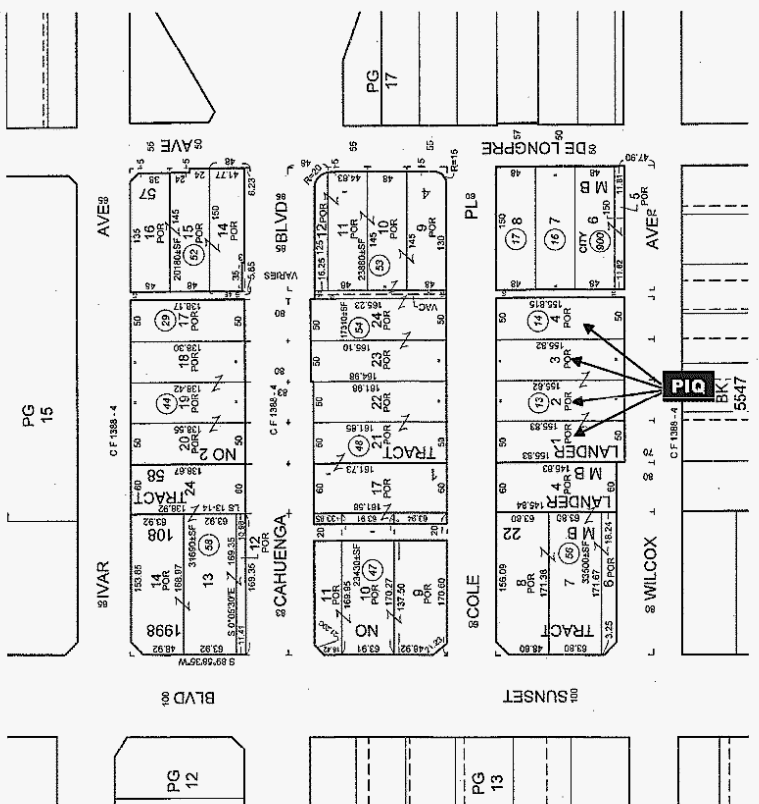

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The revised Privacy Notice, showing the new revision date, will be posted on the FNF Website. Each time you provide information to us following any amendment of this Privacy Notice, your provision of information to us will signify your assent to and acceptance of the terms of the revised Privacy Notice for all previously collected information and information collected from you in the future. We may use comments, information or feedback that you submit to us in any manner that we may choose without notice or compensation to you.

Accessing and Correcting Information; Contact Us

If you have questions, would like to access or correct your Personal Information, or want to opt-out of information sharing for affiliate marketing, send your requests via email to privacy@fnf.com, by phone to (888) 934-3354, or by mail to:

Fidelity National Financial, Inc.

This map/plat is being furnished as an aid in locating the herein described Land in relation to adjoining streets, natural boundaries and other land, and is not a survey of the land depicted. Except to the extent a policy of title insurance is expressly modified by endorsement, if any, the Company does not insure dimensions, distances, location of easements, acreage or other matters shown thereon.

OWNER'S DECLARATION

The undersigned hereby declares as follows:

1. (Fill in the applicable paragraph and strike the other)
 - a. Declarant ("Owner") is the owner or lessee, as the case may be, of certain premises located at _____, further described as follows: See Preliminary Report/Commitment No. **09173266-917-BLB-EGL** for full legal description (the "Land").
 - b. Declarant is the _____ of _____ ("Owner"), which is the owner or lessee, as the case may be, of certain premises located at _____, further described as follows: See Preliminary Report/Commitment No. **09173266-917-BLB-EGL** for full legal description (the "Land").

2. (Fill in the applicable paragraph and strike the other)
 - a. During the period of six months immediately preceding the date of this declaration no work has been done, no surveys or architectural or engineering plans have been prepared, and no materials have been furnished in connection with the erection, equipment, repair, protection or removal of any building or other structure on the Land or in connection with the improvement of the Land in any manner whatsoever.
 - b. During the period of six months immediately preceding the date of this declaration certain work has been done and materials furnished in connection with _____ upon the Land in the approximate total sum of \$ _____, but no work whatever remains to be done and no materials remain to be furnished to complete the construction in full compliance with the plans and specifications, nor are there any unpaid bills incurred for labor and materials used in making such improvements or repairs upon the Land, or for the services of architects, surveyors or engineers, except as follows:_____. Owner, by the undersigned Declarant, agrees to and does hereby indemnify and hold harmless **Commonwealth Land Title Company** against any and all claims arising therefrom.

3. Owner has not previously conveyed the Land; is not a debtor in bankruptcy (and if a partnership, the general partner thereof is not a debtor in bankruptcy); and has not received notice of any pending court action affecting the title to the Land.

4. Except as shown in the above-referenced Preliminary Report/Commitment, there are no unpaid or unsatisfied mortgages, deeds of trust, Uniform Commercial Code financing statements, regular assessments, or taxes that constitute a lien against the Land or that affect the Land but have not been recorded in the public records.

5. The Land is currently in use as _____; _____ occupy/occupies the Land; and the following are all of the leases or other occupancy rights affecting the Land:

6. There are no other persons or entities that assert an ownership interest in the Land, nor are there unrecorded easements, claims of easement, or boundary disputes that affect the Land.

7. There are no outstanding options to purchase or rights of first refusal affecting the Land.

8. There are no material violations of any current, enforceable covenant affecting the Property and the Undersigned has received no written notice from any third party claiming that there is a present violation of any current, enforceable covenant affecting the Property.

This declaration is made with the intention that **Commonwealth Land Title Company** and **Commonwealth Land Title Insurance Company** (the "Company") and its policy issuing agents will rely upon it in issuing their title insurance policies and endorsements. Owner, by the undersigned Declarant, agrees to indemnify the Company against loss or damage (including attorneys fees, expenses, and costs) incurred by the Company as a result of any untrue statement made herein.

I declare under penalty of perjury that the foregoing is true and correct and that this declaration was executed on ____ at _____.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Building Analytics were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 332 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Exclusive Recovered Govt. Archives

RGA LF..... Recovered Government Archive Solid Waste Facilities List

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 12/16/2019 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/16/2019 has revealed that there are 14 RCRA-SQG sites within approximately 0.25 miles of the target property.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 07/29/2019 has revealed that there are 24 ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal leaking storage tank lists

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 13 LUST sites within approximately 0.5 miles of the target property.

CPS-SLIC: Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CPS-SLIC list, as provided by EDR, has revealed that there are 6 CPS-SLIC sites

State and tribal registered storage tank lists

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 31 UST sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 13 SWEEPS UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

Cortese: The sites for the list are designated by the State Water Resource Control Board (LUST), the Integrated Waste Board (SWF/LS), and the Department of Toxic Substances Control (Cal-Sites).

A review of the Cortese list, as provided by EDR, and dated 09/23/2019 has revealed that there are 6 Cortese sites within approximately 1 mile of the target property.

DRYCLEANERS: A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaners' agents; linen supply; coin-operated laundries and cleaning; drycleaning plants except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

A review of the DRYCLEANERS list, as provided by EDR, has revealed that there are 2 DRYCLEANERS sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

| LOS ANGELES GAS AND | N FORMOSE AVE BTWN R | WSW 1/2 - 1 (0.987 mi.) | 273 | 502 |

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 39 EDR Hist Auto sites within approximately 0.25 miles of the target property.

EDR RECOVERED GOVERNMENT ARCHIVES

Exclusive Recovered Govt. Archives

RGA LUST: The EDR Recovered Government Archive Leaking Underground Storage Tank database provides a list of LUST incidents derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the State Water Resources Control Board in California.

A review of the RGA LUST list, as provided by EDR, has revealed that there are 20 RGA LUST sites within approximately 0.5 miles of the target property.

Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, - 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes: Returned to compliance on 04/19/2019. OBSERVATION: Owner/Operator failed to meet one or more of the requirements applicable to overfill prevention equipment. Failure to test overfill prevention by 10/13/18. Tested 2/5/19, Overfill Prevention Equipment Testing form received 2/15/19, not completed. Missing technician signature & tank charts. CORRECTIVE ACTION: Maintain overfill prevention system to comply with the deficiencies noted above, submit with tank charts and technician signature.

Citation: HSC 6.7 25284.2 - California Health and Safety Code, Chapter 6.7, Section(s) 25284.2

Violation Description: "Failure to meet one or more of the following requirements: Install or maintain a liquid-tight spill container. Have a minimum capacity of five gallons. Have a functional drain valve or other method for the removal of liquid from the spill container. Be resistant to galvanic corrosion. Perform a tightness test at installation, every 12 months thereafter, or within 30 days after a repair to the spill container. Tested using applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Tested by a certified UST service technician. Maintain records of spill containment testing for 36 months. "
Violation Notes: Returned to compliance on 02/05/2019. OBSERVATION: Owner/Operator failed to meet one or more of the following spill container requirements: install or maintain spill container which is liquid-tight, has a minimum capacity of five gallons, has a functional drain valve or other method for the removal of liquid from the spill container, and is resistant to galvanic corrosion; did not perform tightness test at installation, every 12 months thereafter, or within 30 days after a repair; did not have tested using manufacturer's guidelines, industry codes, engineering standards, or method approved by PE, or was not tested by a certified UST service technician; or failed to maintain testing records for 36 months. Spill bucket had 10" of liquid (~3 gallons) of liquid, and therefore did not hold 5 gallons. Liquid removed during inspection. CORRECTIVE ACTION: Ensure that spill bucket is free of liquid.

Violation Date: 02-08-2018
Citation: 23 CCR 16 2665 - California Code of Regulations, Title 23, Chapter 16, Section(s) 2665

Violation Description: Failure to comply with one or more of the following: Failure to install or maintain a liquid-tight spill bucket. Have a minimum capacity of five gallons. Have a functional drain valve or other method for the removal of liquid from the spill bucket/spill container. Be resistant to galvanic corrosion.

Violation Notes: Returned to compliance on 02/08/2018. OBSERVATION: Owner/Operator did not install or maintain spill bucket which is liquid-tight, has a minimum capacity of five gallons, has a functional drain valve or other method for the removal of liquid from the spill bucket/spill container, or is resistant to galvanic corrosion. There was approximately 1 gallon of water in spill bucket . Water was removed from bucket before testing. CORRECTIVE ACTION: Ensure that the spill bucket is liquid-tight, has a minimum capacity of five gallons, has a functional drain valve or other method for the removal of liquid from the spill bucket/spill container, and is resistant to galvanic corrosion.

percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, - 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1, - 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Violation Notes: Returned to compliance on 04/19/2019. OBSERVATION: Owner/Operator failed to meet one or more of the requirements applicable to overfill prevention equipment. Failure to test overfill prevention by 10/13/18. Tested 2/5/19, results to be reviewed by LAFD upon receipt. CORRECTIVE ACTION: Maintain overfill prevention system to comply with the deficiencies noted above. Submit verification. Test results to be reviewed by LAFD upon submittal.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Notes: of 3.0 gallons per hour leak at 10 p.s.i.g. and restrict or shut off the flow of product through the piping when a leak is detected. Returned to compliance on 09/18/2019. Mr. Almeida did not have the proper equipment to test LLD on 9/12/18. Last certified on 9/14/17. His coworker was to bring equipment later same day to certify. 9/12/18 LLD test results indicated failure. OBSERVATION: Diesel line leak detector failed to meet one or more of the following requirements: Monitor at least hourly; Capable of detecting a release of 3.0 gallons per hour at 10 p.s.i.g.; Restricting or shutting off the flow of product through the piping when a leak is detected. CORRECTIVE ACTION: Repair or replace Diesel line leak detector so that it is capable of monitoring at least hourly, detecting a release of 3.0 gallons per hour at 10 p.s.i.g., and restricting or shutting off the flow of product through the piping when a leak is detected.

prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, - 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Violation Notes: Returned to compliance on 09/25/2019. OBSERVATION: Owner/Operator failed to meet one or more of the requirements applicable to overfill prevention equipment. Site failed to test Overfill Prevention Equipment by 10/13/18, tested A/V alarm on 2/19/19. During 9/25/19 annual inspection, no A/V Alarm was found. Site does have FTSO. CORRECTIVE ACTION: Maintain overfill prevention system to comply with the deficiencies noted above. Submit verification. Anniversary date for next test is 10/2021.

Eval Date: 04-26-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by Frank Gaugler - Property Manager. Contact Information: fgaugler@tishmanspeyer.com Observed the facility and inspected hazardous materials storage. Annual employee safety training records were not maintained. Facility has also not electronically disclosed the onsite hazardous materials inventory or submitted a business emergency plan in California Environmental Reporting System (CERS). Please go to <https://cersbusiness2.calepa.ca.gov> to complete a chemical inventory disclosure and business emergency plan. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change.

Site Name: Jack in the Box, Inc. #3173
Violation Date: 05-09-2018
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: Returned to compliance on 07/26/2018. CO2 volume needs to be corrected. Reported quantity is not accurate. Report volume in cubic feet.
Violation Division: Los Angeles City Fire Department
Violation Program: HMRRP
Violation Source: CERS

Evaluation:
Eval General Type: Other/Unknown
Eval Date: 07-26-2018
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: A follow-up is conducted. The Business Activities, Owner/Operator Identification, Hazardous Materials Inventory, Site Map, Emergency Response/Contingency Plan, Employee Training Plan and APSA sections were reviewed in CERS and field verified. Violations indicated previously has not been corrected and remains unresolved. Please refer to the CERS file emailed to you with notations on what needs to be corrected. You have 30 days to resolve these violations to avoid further action. If you have any trouble, feel free to call or send an email. Once itG s complete, let me know by replying to this email and I'll verify in CERS and clear the violations. IG ve also attached a list of private contractors that can perform all of your CERS reporting for you if you choose, as well as information on a free training class offered by the city. Have a good day.
Eval Division: Los Angeles City Fire Department
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 05-09-2018
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Inspection was conducted with Antonio Aguilar. Provided a copy of the Hazmat inspection report. Explained what needs to be corrected. Site Map: provide labels for: 1)gas shut off 2)emergency assembly area 3)storm drains. Chemical Inventory: CO2 volume needs to be corrected. Reported quantity is not accurate. Report volume in cubic feet.

Handler Activities Summary:

U.S. importer of hazardous waste: No
Mixed waste (haz. and radioactive): No
Recycler of hazardous waste: No
Transporter of hazardous waste: No
Treater, storer or disposer of HW: No
Underground injection activity: No
On-site burner exemption: No
Furnace exemption: No
Used oil fuel burner: No
Used oil processor: No
User oil refiner: No
Used oil fuel marketer to burner: No
Used oil Specification marketer: No
Used oil transfer facility: No
Used oil transporter: No

Hazardous Waste Summary:

. Waste code: D000
. Waste name: Not Defined

. Waste code: F001
. Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F004
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: CRESOLS, CRESYLIC ACID, AND NITROBENZENE; AND THE STILL BOTTOMS FROM THE RECOVERY OF THESE SOLVENTS; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F006
. Waste name: WASTEWATER TREATMENT SLUDGES FROM ELECTROPLATING OPERATIONS, EXCEPT FROM THE FOLLOWING PROCESSES: (1) SULFURIC ACID ANODIZING OF ALUMINUM; (2) TIN PLATING ON CARBON STEEL; (3) ZINC PLATING (SEGREGATED BASIS) ON CARBON STEEL; (4) ALUMINUM OR ZINC-ALUMINUM PLATING ON CARBON STEEL; (5) CLEANING/STRIPPING ASSOCIATED WITH TIN, ZINC, AND ALUMINUM PLATING ON CARBON STEEL; AND (6) CHEMICAL ETCHING AND MILLING OF ALUMINUM.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FINDS:

Registry ID: 110002842005

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FINDS:

Registry ID: 110002798321

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
