These city police employees cater to a Los Angeles City population of approximately 4,015,940. **Divisional Support and Communication:**

There are many specialized support units, divisions and services available to Hollywood Division within the LAPD (i.e., Air Support, Detectives, K9 and Metro / SWAT) to support any additional policing needs. These services are available to supplement and complement the division's policing services. In utilizing these available resources, the Los Angeles Police Department can meet the demands for police services for the Sunset + Wilcox Project.

Hollywood Area Community Police Station's emergency response system is directly linked to the Los Angeles Police Department's Communication Dispatch Center. Communication Division has the responsibility to staff the Dispatch Center with incident trained personnel that will respond to radio and telephoned calls for service. They would then dispatch these requests to the proper emergency personnel involved, to provide them with the necessary information to execute their duties.

These operations are performed on a 24 hour a day, 7 days a week, 365 days a year basis. This includes 911 emergency calls (police, fire and medical). In referencing Communication Division, their main area of concentration is to manage, and dispatch police calls for service. Communication Division's Emergency Operations Center (EOC / DOC), also works in concert with The Los Angeles Fire Department's (LAFD), Metropolitan Fire Communications Center (MFC). Additional emergency response entities that Communication Division interacts with are, Los Angeles County Fire (LACoFD), Los Angeles County Sheriff Department (LASD) and other regional agencies, to ensure coordinated responses to emergency incidents.

**Divisional Response Times:**

According to the Los Angeles Police Department's Computer Statistics (CompStats) Division, the average police response time to emergency, high priority calls in the Hollywood Division Area (Code 3 calls) was 3.8 minutes (as of December 31, 2020). This was done with a dispatch median time of 1.4 minutes. The medium high priority response time (Code 2) as of December 31, 2020 was 12.1 minutes. This was done with a dispatch median time of 4.4 minutes. Low priority, non-emergency response times as of December 31, 2020 was 29.4 minutes. These low priority calls had a dispatch median time of 11.3 minutes.
