Project Description (Proposed actions, location, and/or consequences).

Request to expand the herd of an existing dairy facility located on four parcels across a total of 79± acres, in the A-2-40 (General Agriculture) zoning district by increasing the herd from 1,305 to 2,500 mature cows, an increase of 1,090 milk and 105 dry cows; and to increase support stock numbers from 1,007 to 2,250; to construct two freestall barns totaling 48,624± square feet; and establish a new 2.8± acre covered digester pond. The proposed request is expected to increase the total number of employees on a maximum shift from two to four, which will increase the number of total employee vehicle trips by two per day. No additional housing is proposed as part of this request. The applicant estimates one customer/visitor on-site per day. The site is served by private wells and septic system and has access to County-maintained Ruble Road.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

This is the first circulation of the project. No significant effects are known at this time.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No areas of controversy have been identified with respect to the proposed project.

Provide a list of the responsible or trustee agencies for the project.
