Project Description: (please use a separate page if necessary)

The San Lorenzo Valley Water District proposes to install approximately 7,500 linear feet (LF) of a 12-inch water supply transmission main pipeline that runs parallel to an existing 6-inch pipeline in the community of Lompico in Santa Cruz County, California. The project would be located within the Quail Hollow Road right-of-way, specifically between Cumora Lane and West Zayante Road. The project would improve water conveyance from the existing water lines to customers within the system. The proposed project includes only the installation of a new water supply pipeline and would not require regular operation activities or maintenance.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
