Project Title: Bees Lake Habitat Restoration Project

Project Applicant: City of West Sacramento

Project Location (include county): west bank Sacramento River in the City of West Sacramento, Yolo County, CA

Project Description:

Project implements ecosystem, water quality and recreational improvements at the Bees Lakes. Restoration includes removal and control of invasive species to increase abundance of native under story species. Water quality components include disposing of potentially contaminated soil from the two ponds, potentially treating the pond water, and removing of trash. A aeration diffusion device to increase aeration and water circulation, decrease algae, and increase habitat suitability for aquatic species will be installed as well as one or more artificial floating wetland islands. Recreational components of the project will improve access, management, and recreation at the site.

This is to advise that the Sacramento-San Joaquin Delta Conservancy has approved the above
 Lead Agency or Responsible Agency

described project on July 27, 2022 and has made the following determinations regarding the above
 (date)
 described project.
