SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code § 21108

State Clearinghouse Number: 2020120272

Project Title: San Lorenzo River Bridge Replacement Project (EA 04-1H470) [California Endangered Species Act (CESA) Incidental Take Permit No. 2081-2022-011-03 (ITP)]

Project Location: The State Route 9 – San Lorenzo River Bridge Replacement Project (Project) is located on State Route 9 (SR-9) in Santa Cruz County near the community of Boulder Creek in the State of California. The San Lorenzo River Bridge (No. 36-0052) is located at post-mile (PM) 13.6, Latitude 37.1329, Longitude -122.1254.

Project Description: The California Department of Transportation (Permittee) proposes replacement of the existing San Lorenzo River Bridge. The Project includes the following work activities: 1) phased demolition of the existing five span T-girder style bridge 2) phased construction of a new free span bridge that is 106 feet long and 40 feet wide 3) installation of a temporary creek diversion system 4) restoration and enhancement of on-site habitat for the Central California Coast Coho Salmon (Covered Species). The Project is expected to cause the temporary loss of 0.08 acres of habitat for the Covered Species over 82 linear feet of the San Lorenzo River. Impacts of the authorized taking also include adverse impacts to the Covered Species related to temporal losses, water quality degradation and edge effects, and the Project's incremental contribution to cumulative impacts. The project is expected to result in incidental take of Covered Species, take as defined by Fish and Game Code in the form of adverse impacts from excessive sedimentation in the creek from the operation of heavy equipment within the channel bed and encroachment from individuals on foot that may result in the the loss of Covered Species, or in the form of capture and relocate or recover and transport injured Covered Species to care facilities of Covered Species, designated as Endangered species under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.

This is to advise that CDFW, acting as [the lead agency / a responsible agency] approved the above-described project on 6/22/2022 and made the following determinations regarding the above-described project:

1. The project [will / will not] have a significant effect on the environment (This determination is limited to effects within CDFW's permitting jurisdiction as a responsible agency).
 2. [An environmental impact report / A negative declaration] was prepared by the lead agency for the original project.
 3. Additional mitigation measures [were / were not] made a condition of CDFW's approval of the project.
 4. A mitigation reporting or monitoring plan [was / was not] adopted by CDFW for this project.
 5. A Statement of Overriding Considerations [was / was not] adopted by CDFW for this project.
 6. Findings [were / were not] made by CDFW pursuant to Public Resources Code § 21081(a). CDFW did, however, adopt findings to document its compliance with CEQA.
 7. Compliance with the environmental filing fee requirement at Fish and Game Code § 711.4 (check one):
 - Payment is submitted with this notice.
 - A copy of a receipt showing prior payment was submitted to CDFW.
- Responsible Agency statement: The Mitigated Negative Declaration prepared by the lead agency for the Project is available to the general public at the office location listed above for the lead agency. CDFW's administrative record of proceedings related to the incidental take permit is available to the public for review at CDFW's regional office.
