Project Description: (please use a separate page if necessary)

DWR owns and operates the Devil Canyon Power Development (DCPD), an existing power recovery project that includes hydroelectric facilities, access roads, maintenance areas, recreation areas, rights-of-way, and other appurtenant facilities. DWR operates the DCPD under an existing Federal Energy Regulatory Commission (FERC) license that is scheduled to expire on January 31, 2022. DWR is undergoing the Traditional Licensing Process to renew its license with FERC pursuant to the Federal Power Act. Under CEQA, the proposed Project is DWR's acceptance of a new license for the continued operation of DCPD in accordance with DWR's proposed terms and conditions. The proposed Project includes a change in the DCPD FERC boundary, resulting in an overall reduction in area that encompasses all existing facilities and lands necessary for operations and maintenance of the DCPD; administrative designation of Primary Project Roads currently maintained by DWR that are used exclusively for accessing the DCPD facilities; administrative addition of an existing lake level gage; and proposed environmental measures that include upgrades to existing recreation facilities and other environmental protection measures.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
