

**CITY OF VICTORVILLE
NOTICE OF AVAILABILITY AND INTENT TO ADOPT
A MITIGATED NEGATIVE DECLARATION**

The City of Victorville has completed an Initial Study of the following project in accordance with the City and State environmental guidelines (i.e., the California Environmental Quality Act (CEQA)):

Project Name: Renewable H2 Project (PLAN20-00025)

Project Location: On properties located northwest of the intersection of Phantom East and Perimeter Road in the City of Victorville.

Project Description: StratosFuel LLC proposes to construct the Renewable H2 Project, which will consist of the construction of a 100 percent renewable hydrogen electrolysis and steam methane reformation facility and associated professional office campus. The proposed Project will be constructed on approximately 10.38 acres of previously developed land located north-northwest of the intersection of Perimeter Road and Phantom East in the city of Victorville, San Bernardino County, California. The Project will be located on assessor parcel numbers are 0468-231-26-0000 and 0459-041-27-0000. The purpose of the Project will be to produce gas and liquid hydrogen for distribution to local and regional hydrogen fueling stations for use in electric fuel cell vehicles.

Public Review: Pursuant to CEQA Guidelines §15073, the Initial Study/Mitigated Negative Declaration public review period during which written comments will be accepted extends for a period of 30 days and from January 19, 2021 through February 18, 2021.

For More Information: Further information about the proposed project, including the Initial Study/Mitigated Negative Declaration, copies of proposed project plans and related documentation, may be obtained from the City of Victorville Development Department. Due to coronavirus restrictions, the Development Department's physical office is currently closed. If you require a hard copy of the Initial Study/Mitigated Negative Declaration, please contact Mr. Szarzynski at mszarzynski@victorvilleca.gov or by phone at (760) 955-5135.

Written comments on the adequacy of the environmental impact analysis must be submitted by 5:00 p.m. on Monday, February 22, 2021, to the contact information listed below. Due to coronavirus restrictions, comments via email are encouraged.
