Project Title: City of Big Bear Lake Department of Water and Power (BBLDWP) Talbot Drive Replacement Water Pipeline Project

Project Location: The BBLDWP serves potable water to several locations within the Bear Valley. The replacement 8-inch pipeline will extend from Lowe Drive on the west approximately 1,000 feet to Big Bear Boulevard on the east.

Project Location - City: City of Big Bear Lake

Project Location - County: San Bernardino

Description of Nature, Purpose, and Beneficiaries of the Project: The purpose of the proposed project is to replace an existing water line that serves the residents along Talbot Drive in the City of Big Bear Lake. The proposed replacement pipeline is approximately 1,100 lineal feet in length.

Name of Public Agency Approving Project: City of Big Bear Lake Department of Water & Power

Name of Person/Agency Carrying Out Project: City of Big Bear Lake Department of Water & Power

Exempt Status: (Check One)

- Ministerial (Sections 21080(b)(1); 15268)
- Declared Emergency (Sections 21080(b)(3); 15269(a))
- Emergency Project (Sections 21080(b)(4); 15289(b)(c))
- Categorical Exemption (Sections 21084; 15301(a))
- Statutory Exemption (Sections 21080.21; 15282 (k))

Reasons why project is exempt: The State CEQA Guidelines provide a series of Statutory Exemptions for actions that have been deemed by the State Legislature to be exempt from the California Environmental Quality Act (CEQA). The proposed installation of the new 8-inch water pipeline has been determined to qualify for a Statutory Exemption under Paragraph 21080.21 CEQA the statute and the State CEQA Guidelines, Section 15282(k). Installation of this new pipeline over a distance of approximately 1,100 feet will ensure that the District's potable water supply in the City of Big Bear Lake can be operated safely and efficiently. Statutory Exemption 21080.21 exempts "(a) This division does not apply to any project of less than one mile in length within a public street or highway or any other public right-of-way for the installation of a replacement pipeline or the maintenance, repair, restoration, reconditioning, relocation, replacement, removal, or demolition of an existing pipeline. The proposed installation and future operation of this segment of the water infrastructure system have been determined to not fall under the jurisdiction of CEQA and the State CEQA Guidelines because it is in an engineered public roadway and is less than one mile in length. Therefore, this action qualifies with the requirements for a Statutory Exemption, under Paragraph 21080.21 of the CEQA statute.
