Present Land Use/Zoning/General Plan Designation:

Resource Manage District

Project Description: (please use a separate page if necessary)

This proposed project intends to broadcast burn approximately 775 acres of grass, shrubs and some tree understory. CAL FIRE will reduce the amount and continuity of woody vegetation within the burn units through manual and mechanical site preparation and broadcast burning. Burn Units were chosen adjacent to roads, trails and existing disk lines to limit the amount of control line that must be constructed. Control lines will be established using wet lines, disk lines, mowing, hand crews or bulldozers. In areas with heavy fuel loading, control lines may offer more protection if they are augmented with mastication to reduce fire intensity adjacent to sensitive resources or control lines.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
