

Summary Form for Electronic Document Submittal**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: SFPUC Prescribed Burn ProjectLead Agency: CAL FIREContact Name: Sarah CollamerEmail: sarah.collamer@fire.ca.gov Phone Number: 831.335.6792Project Location: Belmont San Mateo
City *County*

Project Description (Proposed actions, location, and/or consequences).

This proposed project intends to broadcast burn approximately 775 acres of grass, shrubs and some tree understory. CAL FIRE will reduce the amount and continuity of woody vegetation within the burn units through manual and mechanical site preparation and broadcast burning. Burn Units were chosen adjacent to roads, trails and existing disk lines to limit the amount of control line that must be constructed. Control lines will be established using wet lines, disk lines, mowing, hand crews or bulldozers. In areas with heavy fuel loading, control lines may offer more protection if they are augmented with mastication to reduce fire intensity adjacent to sensitive resources or control lines.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The mitigated negative declaration (MND) identifies Biological Resources, Cultural Resources, and Tribal Cultural Resources as environmental factors potentially affected. 17 mitigation measures were developed to reduce these potentially significant impacts to a less than significant level and are included in the MND. The 17 mitigation measures are too extensive to be included here.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
