

**FINDING OF NO SIGNIFICANT IMPACT (FONSI)
NOTICE OF AVAILABILITY (NOA)**

Pursuant to USDOT Order 5610.1C, Paragraph 5.b

Date: August 13, 2021

To: State Clearinghouse
PO Box 3044
Sacramento, CA, 95812-3044

From: California Department of Transportation

District 7
100 S. Main Street
Los Angeles, CA 90012

State Clearinghouse Number: 2021030195

Project Description: The California Department of Transportation (Caltrans) District 7, in cooperation with the Los Angeles County Metropolitan Transportation Authority (Metro) and the Gateway Cities Council of Governments, has completed the Initial Study (IS) with Mitigated Negative Declaration (MND)/Environmental Assessment (EA) with Finding of No Significant Impact (FONSI) for the State Route 91 Central Avenue to Acacia Court Improvement Project. The IS/EA identifies the Alternative 2 (Build Alternative) without the truck turning radii options as the Preferred Alternative. The Build Alternative would include a Collector-Distributor Road that would consolidate multiple access points from the Central Avenue, Wilmington Avenue, and Acacia Court interchanges into a single access point. The alternative would reduce the number of ingress/egress points on the freeway mainline and redirect the short and nonstandard weaving areas from the freeway mainline to the Collector-Distributor Road.

This is to advise you that a Finding of No Significant Impact (FONSI) has been made for this project by the California Department of Transportation as assigned by the Federal Highway Administration pursuant to 23 USC 327. A copy of the FONSI and the attached EA can be obtained from the California Department of Transportation office located at the above address and online at the Project website: <https://www.metro.net/projects/i-605-corridor-hot-spots-program/SR-91-early-action-projects/>. A hard copy of the Final MND/FONSI can be viewed at the Dr. Martin Luther King, Jr. Library, 17906 South Avalon Boulevard, Carson, CA 90746.
