**Present Land Use/Zoning/General Plan Designation:**

Designated as Open Space - General in 2007 LRDP, which allows for habitat management.

**Project Description:** (please use a separate page if necessary)

The Project would improve the long-term water management and habitat value of the San Joaquin Marsh Reserve. The Project proposes new and repairs of existing hydrology and water quality infrastructure to better manage flows within the Marsh Reserve. Design Goal 1 proposes infrastructure establishment and/or modifications that anticipate impacts of climate change (e.g., drought, flooding, and sea level rise). Design Goal 2 focuses on water sourcing, treatment, and measurement (from Irvine Ranch Water District (IRWD) or San Diego Creek). Construction is anticipated to take approximately 8 to 10 months total and may occur in two phases, likely one phase for Design Goal 1 and one phase for Design Goal 2. The Marsh Reserve would continue to function as a preservation area during and after construction.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

### Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
