Project Description: (please use a separate page if necessary)

Phase II improvement would build on Phase I improvements which were completed in late 2020. Phase II improvements would replace and reconfigure the structure(s) on the Mole, improve pedestrian/passenger gathering/queuing areas and improve adjacent transportation circulation to better facilitate multi-modal connectivity. As envisioned, Phase II improvements would include a new two-story building designed to accommodate existing commercial tenants (i.e., recreational tour services, deli, baggage services, ticketing operations, administrative offices and harbor operations) and new space for a restaurant/bar and similar complementary uses that take advantage of this unique location.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
