

PUBLIC NOTICE

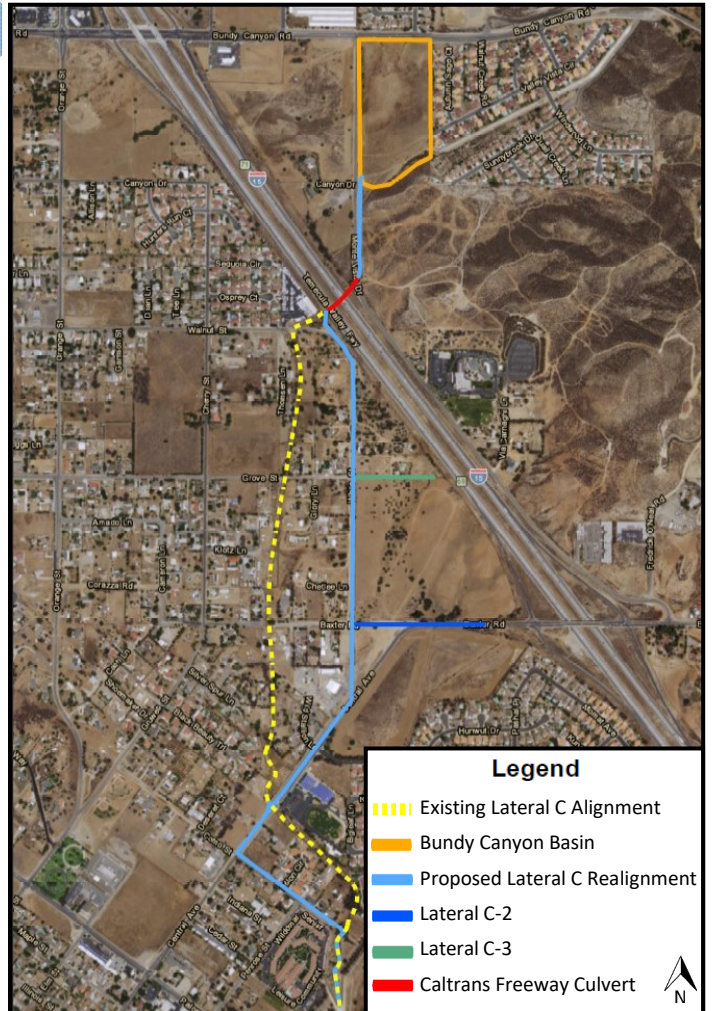

NOTICE OF AVAILABILITY OF INITIAL STUDY NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION FOR THE WILDOMAR MDP LATERAL C REVISION PROJECT

PROJECT INFORMATION

The Riverside County Flood Control and Water Conservation District (District), in partnership with the City of Wildomar (City), is proposing to revise the originally proposed Wildomar Master Drainage Plan (MDP) Lateral C facility. The Wildomar MDP was adopted in August 1980 with the purpose of identifying drainage system needs to alleviate current and anticipated drainage problems within the City. The MDP included Lateral C as a concrete-lined trapezoidal channel within Bundy Canyon Wash from its confluence with Wildomar Channel to its upstream terminus at I-15. A revision to the Lateral C system is proposed due to environmental constraints associated with constructing Lateral C within Bundy Canyon Wash and because the remaining Lateral C system is no longer capable of addressing existing and projected future drainage needs based on current development trends in the City. The Wildomar MDP Lateral C revision includes the following five components: Bundy Canyon Basin, Bundy Canyon Channel Lateral A Extension (Main Inlet Channel), Lateral C (Mainline Facility), Lateral C-2, and Lateral C-3.

REASON FOR PUBLIC NOTICE

In accordance with the California Environmental Quality Act (CEQA), the District has conducted an Initial Study for this project which analyzes potential impacts it may have on the environment. The result of this study shows this project will not significantly impact the environment and a Mitigated Negative Declaration (MND) is proposed. The 30-day public review period begins on March 26, 2021. This public notice is to solicit comments, questions or concerns about the environmental analysis and project impacts.

INFORMATION AVAILABLE

A copy of the Initial Study and Mitigated Negative Declaration is available for review at the following locations:

RCFC&WCD

1995 Market Street
Riverside, CA 92501
(951) 955-1200

Online

Please visit the RCFC&WCD website at: www.rcflood.org
The CEQA document and public notices are located in the lower left corner of the website under the "CEQA/Section 18" tab.

WHAT CAN BE DONE

Any comments or concerns about the proposed project, Initial Study, or MND, must be submitted in writing no later than **April 26, 2021**. Written responses should make reference to **"Wildomar MDP Lateral C Revision Project"**.

CONTACT INFORMATION

Please submit any written comments to:
Riverside County Flood Control
& Water Conservation District
1995 Market Street
Riverside, CA 92501
Attn: Environmental Regulatory Services II

Questions should be directed to:
