

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Pomona Stables and Corporate Yard Project

Lead Agency: City of Pomona

Contact Name: Vinny Tam

Email: vinny_tam@ci.pomona.ca.us

Phone Number: (909) 620-2284

Project Location: City of Pomona, County of Los Angeles

City

County

Project Description (Proposed actions, location, and/or consequences).

In June 2017, the Mitigated Negative Declaration for the Pomona Corporate Yard Facility Project (2017 IS/MND) was adopted, for the remediation and reconstruction of a new Corporate Yard Facility for the City of Pomona Water Resources Department (Department). Since adoption, some remediation at the project site has been completed, some buildings have been removed, and the City's Historic Preservation Commission and the City Council have asked the Department to redesign the project to relocate, rebuild, and reuse an existing Nationally Registered Historic Stables Structure. As such, this proposed project involves completion of the Pomona Corporate Yard Facility improvements, including construction of the Annex Lot, relocation, remediation, and reconstruction of the Water Yard, and reconstruction of the Pomona Stables. The proposed project would be located in the northwestern portion of the City of Pomona, within the eastern portion of Los Angeles County. More specifically, the project would be located at 148 North Huntington Street and is bounded to the north by West Monterey Avenue and West Commercial Street, to the south by the Union Pacific Railroad tracks, to the west by North Hamilton Boulevard and North Huntington Street, and to the east by industrial uses fronting North White Avenue.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Potentially significant impacts identified in the Initial Study include impacts related to air quality, cultural resources, energy, greenhouse gas emissions, hazards and hazardous materials, noise, transportation, tribal cultural resources, and mandatory findings of significance. These issues will be further analyzed in the EIR, and mitigation measures would be provided, as appropriate.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Impacts to historic resources associated with the renovation and reconstruction of the Pomona Stables
Impacts to hazards and hazardous materials associated with existing listings of the project site

Provide a list of the responsible or trustee agencies for the project.

Office of Historic Preservation
