RE: State Clearinghouse #2021040014

I recently received the Notice of Preparation regarding the Project Overview and Scope of Environmental Analysis 2022 Regional Transportation Plane & Sustainable Communities Strategy, to a series of proposed projects throughout Fresno County. Currently, no impact to the Fresno Area's local operations and/or public safety by SCH# 2021040014 was identified.

Due to the length of this project lasting through the year 2046, there may be a potential impact of changes in traffic congestion patterns, pedestrian and bicyclist safety, School Bus routing and additional enforcement demands. The California Highway Patrol (CHP) is requesting the Lead Agency consult with the CHP, Fresno Area on issues related to traffic safety and enforcement throughout the project. The CHP looks forward to providing assistance to improve traffic flow and enhance traffic safety throughout Fresno County.

If you have any questions regarding these concerns, please contact Lieutenant F. Serrato at (559) 705-2200.

Sincerely,

A handwritten signature in blue ink, appearing to read "C. R. Kunzler".

C. R. KUNZLER, Captain
