All libraries have:

Free Public Wi-Fi

Wireless & Mobile Printing

Reserve a Public Computer

There are no current plans to build new libraries that would serve this project area.

On February 8, 2007, The Board of Library Commissioners approved a new Branch Facilities Plan. This Plan includes criteria for new Libraries, which recommends new size standards for the provision of LAPL facilities — 12,500 Square feet for community with less than 45,000 population and 14,500 square feet for community with more than 45,000 population and up to 20,000 square feet for a Regional branch. It also recommends that when a community reaches a population of 90,000, an additional branch library should be considered for the area.

The Los Angeles Public Library recommends a mitigation fee of \$200 per capita based upon the projected population of the development. The funds will be used for library materials, technology, programs and/or facilities improvement. It is recommended that mitigation fees be paid for by the developer.
