Project Title: Interceptor Force Trunk Main Rehabilitation Project

Project Applicant: City of Mountain View

Project Location (include county): City of Mountain View, Santa Clara County

Project Description:

The project will repair (rehabilitate or replace) approx. 1,083 linear feet of the interceptor trunk main that is the City's major discharge line to the Palo Alto Regional Water Quality Control Plant (PARWQCP). Most of the rehabilitation will use cured-in-place (CIPP), with a short section that would be rehabilitated with reinforced mortar or replaced with high density polyethylene (HPDE) pipe. The project also includes the installation of an additional manhole and rehabilitation of the flanged manhole outlet.

This is to advise that the City of Mountain View has approved the above (Lead Agency or Responsible Agency)

described project on June 22, 2021 and has made the following determinations regarding the above described project.

- 1. The project will not have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at: https://www.mountainview.gov/depts/pw/projects/interceptor force trunk main rehabilitation project.
