Project Description

The California Department of Transportation (Caltrans) issued a Director's Order to repair a sinkhole in the roadway on Route 174 southbound lane near the edge of pavement at postmile (PM) 8.82 in Nevada County. It was discovered during a field review that a failed culvert was causing an expanding sinkhole in the asphalt paved travel way on Route 174. The scope of work is as follows: surface preparation, removal of failed culvert, installation of new culvert, drain inlet, and flared end section, backfill, traffic control, COZEEP, and incidental work. This project is needed to avoid failure or threat of failure to the transportation system, which can result in the loss or impairment of life, health, property. Work occurred within Caltrans right-of-way. No disposal that required a borrow site. No consultation or coordination required. No permits required.
