Project Title: High-Performance Battery Systems to Power the Rise of Electric Mobility

Project Location – Specific: 2020 Williams St

Project Location – City: San Leandro 94577 **Project Location – County:** Alameda

Description of Nature, Purpose and Beneficiaries of Project:

The goals of this project are to adapt the Recipient's existing battery cell technology into modules that are designed to provide energy-dense storage for electric drones, vehicles, and other applications. During the project, the team will design and obtain safety certifications for their battery module, design and build a low-rate-initial-production manufacturing line and produce and ship up to 300kWh of module prototypes to potential customers.
