Hi Sophia,

This one is pretty basic- no impacts.

1. Name and location of the station(s) that would serve the project site. Fire Station 1 – 180 West Mission Road
2. Please describe the existing staff levels and equipment at the station(s). 1 Tiller Truck, 1 Fire Engine, 1 Ambulance 9 Personal
3. What is the average response time to the site from the fire station(s)? 2 minutes
4. Are current staff levels (and equipment) at these stations sufficient to meet existing demands for fire and emergency medical services? Yes
5. Can the stations handle this increase in services or would additional services be required? If so, what additional services would be needed (i.e., additional staff, vehicles, etc.)? No additional
6. Does the project site provide adequate primary access for fire department vehicles? Yes
7. Are there any City of San Marcos Fire Department impact fees that the project will be subject to? Yes, to be assessed by building and safety.
