**Project Description:** (please use a separate page if necessary)

Sacramento Regional County Sanitation District is proposing to construct and operate a biogas cogeneration facility within the existing Sacramento Regional Wastewater Treatment Plant (SRWTP) site. The proposed project would beneficially use biogas produced by the SRWTP's anaerobic digesters to generate heat and power. The project would disturb 5.6 acres immediately north of the existing digesters. The project would include up to six internal combustion engines, engine exhaust treatment (oxidation catalyst and selective catalytic reduction), a biogas conditioning system, hot water boilers, and a new building.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
