Proposed 20' wide access driveway, graveled to a 75,000 lbs capacity, 1,170' long, 0-10% slope, with a 20' wide and 60' in length hammerhead turnaround at the terminus. (0 cubic yards)

All areas are relatively flat with a gentle slope SW. proposed grading is only for small amounts of smoothing the surface for building placement. The access road is relatively flat and only needs to have gravel added. Total grading is expected to be under 50 cubic yards.
Please refer to the Management Plan for all BMPs and erosion control measures.
