

DEPARTMENT OF THE AIR FORCE
60TH CIVIL ENGINEER SQUADRON

6 July 2021

MEMORANDUM FOR SEE DISTRIBUTION

FROM: Merlin J. Miller
60 CES/CD
411 Airmen Drive
Travis Air Force Base, CA 94535

SUBJECT: Notification and Solicitation of Comments for the proposed action to Repair Runway 03L/21R at Travis Air Force Base (AFB), Solano and Contra Costa Counties, California

1. The U.S. Air Force is preparing a Draft Environmental Assessment in accordance with the National Environmental Policy Act (NEPA) of 1969, as amended; Council on Environmental Quality Regulations (40 Code of Federal Regulations 1500-1508); USAF Environmental Impact Analysis Process (32 Code of Federal Regulations Part 989); and California Environmental Quality Act (CEQA). The proposed action repairs Runway 03L/21R and portions of some adjacent taxiways.
2. The purpose of the proposed action is to correct deficiencies of the runway's surface, meeting new runway standards, and to facilitate the safe operation of mission-required aircraft.
3. The need for the reconstruction of Runway 21R/03L is driven by Travis AFB's requirement to support unrestricted airfield operations 24 hours a day, 7 days a week and in all weather conditions using modern aircraft. Runway 21R/03L supports multiple military and civilian large frame aircraft.
4. The Environmental Assessment provides alternative options to find practicable ways to reduce environmental impact while simultaneously satisfying the purpose and need.
5. The Air Force requests your input on the Proposed Action as part of the consultation process with relevant agencies, property owners and stakeholders in accordance with Executive Order 12372, *Intergovernmental Review of Federal Programs*. This is the initial step in the review process. The draft of the Environmental Assessment will be released as details on each alternative is developed.
6. Please address all questions and comments to Seth Merdler; Travis AFB NEPA Program Manager; at (707) 424-7516; seth.merdler@us.af.mil; 411 Airman Dr, Travis AFB, CA 94535
