<u>Project Information</u>	
Project Name: Culvert Repair	
DIST-CO-RTE: 03-YOL-128	PM/PM: 4.25/4.25
EA: 03-1J880	Federal-Aid Project Number: N/A
<u>Project Description</u>	
<p>The California Department of Transportation proposes to repair a culvert on State Route 128, near postmile 4.25, in Yolo County. The purpose of the project is to restore this portion of highway to safe driving operations. This emergency project is needed as a culvert failure has occurred. An assessment concluded that the existing 18-inch, high-density polyethylene (HDPE) pipe could have been damaged by recent fire and is no longer present. The proposed solution is to replace the failed HDPE culvert with corrugated steel pipe.</p> <p>The failed culvert must be addressed as soon as possible in order to avoid the failure or threat of failure to the transportation system, which can result in the loss or impairment of life, health, and/or property.</p>
