Reasons why project is exempt:
Project involves the addition of 60k settling/clarifier tank prior to the existing water plant and a 2nd clearwell after the plant to increase chlorine contact time coefficient. There is no increase in plant capacity, no new ponds or sludge production, and involves minimal soil disturbance while significantly reducing water and power usage. Project site is not located in a sensitive environment, there are no known cumulative effects, no significant impact to environmental, historical, or scenic resources, nor is it located on a hazardous waste site.
