**Present Land Use/Zoning/General Plan Designation:**

Zoning: East Valley Corridor Specific Plan, Science Research Park. General Plan: Low Density Residential

**Project Description:** *(please use a separate page if necessary)*

The project consists of both land use changes and physical improvements that would result in the establishment of 317 single-family dwellings across three (3) neighborhood concepts, communal open space, a new public park, and public improvements to the adjacent right-of-way.

Land use changes proposed by the project would remove the project area from the East Valley Corridor Specific Plan (EVCSP). The General Plan identifies the project site as Low Density Residential, which accommodates residential uses at a density of up to 6 dwelling units per acre. Presently, the project site is zoned Science Research Park in the EVCSP, which is inconsistent with the General Plan. The project proposes removing the site from the EVCSP and establishing a new specific plan consistent with the existing general plan land use of Low Density Residential.

*Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.*

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
