Project Location – Specific: *Spanish Landing Parking Lot, 3900 North Harbor Drive, San Diego, CA 92101*

Project location – City: *San Diego*

Project Location – County: *San Diego*

Description of Nature, Purpose, and Beneficiaries of Project: *The proposed project would involve replacement of an existing electrical switch and installation of associated equipment by San Diego Gas and Electric (SDG&E) in the City of San Diego, California. Work to specifically complete the proposed project would involve removal of an existing four (4)-way manual Supervisory Control and Data Acquisition (SCADA) switch, trenching of approximately ten (10) feet (ft)-long by eighteen (18)-inches wide by three (3) ft-deep for installation of fiber optic cable, installation of SCADA antenna to increase existing SCADA communication pole by one (1)-ft from existing conditions, construction of a one-ft. by eight (8)-ft. concrete pad, installation of new SCADA switch, and restoration of landscaping to existing condition after construction of the improvements. Construction of the proposed project is anticipated to occur in Winter 2020 and would take approximately one month to complete. The project would also include SDG&E crew truck parking within North Harbor Drive right-of-way which will be performed in one night in accordance with the project-specific Traffic Control Plan.*

Due to its nature and limited scope, construction of the proposed project would generate a minor amount of vehicle trips and would require limited use of equipment. Therefore, significant impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Applicant/ would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.
