Project Title: Yolo Bypass West Levee Culvert Replacement Project (Lake and Streambed Alteration Agreement EPIMS Notification No. YOL-20899-R2)

Project Location (include county): The project is located at the City of Woodland Outfall Channel, tributary to Tule Canal, in the County of Yolo, State of California; Latitude 38.67754°, Longitude - 121.672873°; at the intersection of County Road 22 and the Yolo Bypass West Levee (YBWL), three miles east of County Road 102; Assessor's Parcel Number 057-180-013-000.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement EPIMS Notification Number YOL-20899-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, the City of Woodland (City).

The City proposes to replace three 48-inch culverts in the City's Outfall Channel with a single cast-in-place concrete culvert with four bays to accommodate projected buildout storm drainage flows of 1,443 cubic feet per second. The cast-in-place culvert will be approximately 115 feet long, 31 feet wide, and 8 feet tall with four 6-foot by 6-foot bays. Cast-in-place concrete headwalls will be constructed at the inlet and outfall structures. The individual bays will be fitted with flap gates at the outfall structure to prevent backflow from the Yolo Bypass and will include a gate shaft equipped with emergency isolation slide gates to enable the culverts to be completely sealed in the event of flap gate failure.

This is to advise that CDFW, acting as a Responsible Agency, executed the above-described Lake and Streambed Alteration Agreement on the date signed below and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the mitigated negative declaration / negative declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were / were not made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was / was not adopted by CDFW for this project.
5. A statement of overriding considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to California Code of Regulations section 15091.

The mitigated negative declaration / negative declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of execution of

Notice of Determination

-2-

the above Lake and Streambed Alteration Agreement as Responsible Agency is available at CDFW's regional office.
