

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Fleming Zone 8 Reservoir and Pump Station Improvements Project

Lead Agency: Irvine Ranch Water District

Contact Name: Jo Ann Corey, Environmental Compliance Analyst

Email: corey@irwd.com Phone Number: 949-453-5326

Project Location: 7431 Santiago Canyon Road, Silverado, Orange County, California

City

County

Project Description (Proposed actions, location, and/or consequences).

IRWD is proposing the demolition of existing on-site structures and the construction of a new 1.3 MG reservoir, a new pump station, support structures, and site improvements. As discussed previously, the existing facility is located on the eastern half of IRWD's property. Similarly, the proposed project would be located generally within the same footprint as the existing facility to minimize impacts to the undeveloped, vegetated side of the property. Currently, the existing facility does not meet IRWD criteria and operational requirements. Implementation of the project would allow IRWD to bring the facility in compliance with operational requirements for storage and pump redundancy for its customers within the Santiago Canyon Area.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Mitigation measures were identified to reduce the project's potentially significant effects to a less than significant level for biological resources, cultural resources, paleontological resources, and tribal cultural resources.

MM-BIO-1: Coastal California Gnatcatcher Pre-Construction Surveys

MM-BIO-2: Nesting Bird Surveys and Avoidance of Active Nests

MM-CUL-1: Worker Environmental Awareness Program

MM-CUL-2: Retention of an On-Call Archaeologist to address Inadvertent Discovery of Cultural Resources

MM-GEO-1: Paleontological Monitoring

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None known at this time.

Provide a list of the responsible or trustee agencies for the project.
