Present Land Use/Zoning/General Plan Designation:

Public-Quasi-Public

Project Description: *(please use a separate page if necessary)*

The purpose of the project is to replace existing wastewater pipelines that currently span the south arm of the Carmel River Lagoon with new pipelines installed deep below the bed of the lagoon so that they would not be subject to damage by increased river flows in the south arm created by the CRFREE project being proposed by Monterey County. The new pipelines are proposed to be installed under the lagoon by means of horizontal directional drilling installation methods in order to minimize the amount of ground disturbance required to install replacement pipelines. Once the new pipelines are installed and connected to the existing pipes on either side of the lagoon, the existing aerial pipe structure crossing over the south arm of the Carmel River Lagoon will be removed.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
