Project Description: (please use a separate page if necessary)

Project to capture, treat and infiltrate stormwater from various land uses and infiltrate water to contribute to groundwater recharge and replenishment of local aquifers. Proposed diversion structure will be located within the channel to capture runoff conveyed by existing drainage system. Once stormwater fills the chamber, flows will continue as the do under existing conditions down the Charter Oak Wash located on the souther portion of Wingate Park during a storm. Above ground recreational facilities will be restored upon completion of subsurface infrastructure installation.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
