

**CITY OF CLOVERDALE
NOTICE OF INTENT
TO ADOPT AN INITIAL STUDY/NEGATIVE DECLARATION**

Project Title: City of Cloverdale Local Hazard Mitigation Plan and General Plan Public Health and Safety Element

Project Location: Citywide

Project Description:

The project under consideration consists of the City of Cloverdale Local Hazard Mitigation Plan (LHMP) and the General Plan Public Health and Safety Element (Safety Element), which—as explained below—have been prepared in concert with one another to address overlapping requirements of Federal and State law. The adoption and implementation of the LHMP and Safety Element would not involve any changes in land use or development entitlements and would not lead directly to any activities that would cause any physical change in the environment. While the LHMP and Safety Element do identify actions that would involve construction of improvements that would reduce Cloverdale’s vulnerability to hazards, these projects would be subject to separate environmental review once the City secures funding for their design and implementation.

The public review period for the Initial Study and Negative Declaration (IS/ND) will begin on July 1, 2021, and end on July 31, 2021. You are encouraged to submit written comments regarding the IS/ND to the City of Cloverdale Development Services Department prior to the end of the review period. Comments may be mailed or emailed to the City at the following address:

124 N. Cloverdale Boulevard
Cloverdale, CA 95425
Attention: Rafael Miranda, Associate Planner (RMiranda@ci.cloverdale.ca.us)

Copies of Initial Study/Negative Declaration and the subject documents (Local Hazard Mitigation Plan and General Plan Public Health and Safety Element) are posted on the City’s [Long-Range Planning Website](#). If you have questions concerning the IS/ND or the subject documents, you may contact Rafael Miranda at (707) 894-1700 or RMiranda@ci.cloverdale.ca.us.
