Notice of Intent to Adopt a Mitigated Negative Declaration

Mt. Vernon Avenue Improvements Project at I-10

EA 08-1G800 (PN 0816000102)

<p>WHAT'S BEING PLANNED?</p>	<p>The San Bernardino County Transportation Authority (SBCTA), in cooperation with the California Department of Transportation (Caltrans) and the City of Colton, proposes to construct improvements to Mount (Mt.) Vernon Avenue to accommodate four continuous through lanes through the interchange, two additional left turn lanes in the northbound direction, and bike lanes in both northbound and southbound directions, at Interstate 10 (I-10), from Post Mile (PM) R22.7 to PM R24.3, between 9th Street and the Interstate 215 (I-215) interchange in the City of Colton, San Bernardino County. The Mt. Vernon Avenue overhead structure will be reconstructed to accommodate the widening on Mt. Vernon Avenue and to span the future widening of the I-10 freeway to its ultimate configuration. Mt Vernon, south of the eastbound I-10 ramps, will also be widened to accommodate a left turn lane in the northbound direction. The project would upgrade bicycle access on the bridge from Class III to Class II, add a sidewalk on the northeastern side of the bridge, and address Americans with Disabilities Act standards with up-to-date curb ramps.</p>
