**RE: TVC 2050 Project Draft Environmental Impact Report  
(Case No. ENV-2021-4091-EIR, SCH No. 2021070014) – Extended Comment Period**

Dear State Clearinghouse Staff:

The City of Los Angeles (City), as Lead Agency, has received requests from the Project Applicant and City Councilmember Paul Koretz to extend the comment period for the Draft Environmental Impact Report (Draft EIR) for the above Project.

Section 15105 of the California Environmental Quality Act (CEQA) Guidelines requires the public review period for a Draft EIR to be no less than 30 days and no longer than 60 days except in unusual circumstances. However, when a Draft EIR is submitted to the State Clearinghouse for review by state agencies, the public review period shall not be less than 45 days.

In compliance with CEQA, on July 14, 2022, the City released the Draft EIR for the TVC 2050 Project (Project) with a 46-day comment period ending at 4:00 p.m. on August 29, 2022. In response to the extension requests, the City will be extending the public review period to 60 days.

Therefore, the comment period will be extended to allow for a 60-day comment period, and will now end at **4:00 p.m. on Tuesday, September 13, 2022**. To accommodate for the extended comment period and provide updated information to the public, the City will re-notice (via mail and email) the Notice of Completion and Availability, republish in the newspaper, update the City's webpage for the Draft EIR, and make any updates through CEQAnet as required by the State Clearinghouse and CEQA.

Sincerely,

VINCENT P. BERTONI, AICP  
Director of Planning
