Subject: EIR Response - SCH 2021070045

Good afternoon,

The California Highway Patrol's Quincy Area has reviewed the Environmental documents related to the Cromberg Rehabilitation & Feather River Inn intersection project. As is the case with any highway construction project, there will be an impact to CHP operations with response times through the construction area. There is nothing in the project description that stands out as impacting traffic safety, congestion, or public safety beyond the traffic delays typically expected for such a project. Quincy Area anticipates and requests all traffic delays are maintained to standards allowing for us to anticipate delays and maintain our ability to provide the highest level of safety, service, and security to the public.

Please let me know if you have any questions.

Thank you, Erik

Erik Egide
Commander
Quincy Area 165
California Highway Patrol
Office: (530) 283-1100
Cell: (530) 251-6304
