Project Title: Feather River Boulevard Pipeline Project

Lead Agency: Linda County Water Agency

Contact Name: Javier Rios

Email: JRios@lindawater.com Phone Number: 530-473-2043

Project Location: W Linda Yuba County  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

The proposed Project is comprised of construction and operation of a new 10-inch diameter, ductile iron water pipeline proposed for placement in the roadway of Feather River Boulevard and use of a staging area on a vacant parcel (on Alicia Avenue north of Feather River Boulevard) during construction. The pipeline is proposed to extend 2,700 linear feet, placed within the Yuba County rights-of-way and connect to existing LCWD infrastructure at North Beale Road and Alicia Avenue. The proposed Project includes installation of (at minimum) four wet barrel fire hydrants. All work will conform with both LCWD and Yuba County standards.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The IS/MND identifies potentially significant impacts to the resource areas of biological, cultural, tribal cultural resources, and noise. Construction of the proposed Project would include noise mitigation measures to reduce noise during construction and ensure consistency with Yuba County General Plan Policies HS10.6 and HS10.7. Potentially significant indirect effects to biological resources would also be reduced through implementation of the construction noise reduction measure (Mitigation Measure NOI-1) as described in Section 2.2.13, Noise. Mitigation measures for inadvertent discovery of cultural and tribal cultural resources are also provided to reduce potential effects that could occur during construction of the proposed Project.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are no known areas of public controversy associated with the project.

Provide a list of the responsible or trustee agencies for the project.

Yuba County, California Department of Transportation (CalTrans)
