## 1.0 INTRODUCTION

This report presents the results of a Phase I Environmental Site Assessment (ESA) conducted by FREY Environmental, Inc. (FREY) for the commercial property located at 150 and 180 North Santa Anita Avenue, 30 East Santa Clara Street, and 25 and 33 Wheeler Avenue in Arcadia, California (known as the Site throughout the rest of this document). The Assessor's Parcel Numbers (APNs) for the Site are 5773-006-004, 5773-006-005, 5773-006-010, and 5773-006-036. The Site is depicted on Figures 1 and 2.

Additional historical addresses were identified for the Site. Below is the list of Site parcels with the current address(es) and historical addresses identified to be associated with them.

APN 5773-006-036

- 110 North Santa Anita Ave/ 15 Wheeler Street (Historic)
- 112 North Santa Anita Ave (Historic)
- 122 North Santa Anita Avenue (Historic)
- 150 & 180 North Santa Anita Avenue (Current)
  
- 17 & 17½ Wheeler Avenue (Historic)

APN 5773-006-010

- 26 East Santa Clara Street (Historic)
- 30 East Santa Clara Street (Current)

5773-006-004

- 25 Wheeler St Avenue (Current)

5773-006-005

- 31 Wheeler St Avenue (Historic)
- 33 Wheeler St Avenue (Current)

## 2.0 OBJECTIVES

The objectives of the scope of work described below were to assess past and present land use practices, Site operations and conditions, and to identify the potential presence of hazardous substances in the soil, soil vapor, and groundwater beneath the Site to the extent feasible, pursuant to the processes described in the American Society for Testing and Materials (ASTM) guidelines (ASTM, 2013 & 2015) and the All Appropriate Inquiries (AAI) rule promulgated by the United States Environmental Protection Agency on November 1, 2005 (EPA, 2005).

### 3.0 TERMINOLOGY

For the purposes of discussion, the following terms are used in this report:

- *Site* refers to the property depicted in Figures 1 and 2 and described in Section 6.1.
- *Immediate Site Vicinity* refers to any real property or properties with a border that is contiguous or partially contiguous with that of the Site, or that would be contiguous or partially contiguous with that of the Site but for a street, road, or other public thoroughfare separating them.
- *Recognized Environmental Conditions (RECs)*, as defined in ASTM 1527-13, are the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not RECs.
- *Controlled Recognized Environmental Condition (CREC)*, as defined in ASTM 1527-13, is a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority with hazardous substances or petroleum products allowed to remain in place, subject to the implementation of required controls.
- *Historical Recognized Environmental Condition (HREC)*, as defined in ASTM 1527-13, is a past release of any hazardous substance or petroleum product that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meets un-restricted use criteria established by a regulatory authority, without subjecting the property to any required controls.
- “*Vapor Encroachment Condition*” (*VEC*), as defined in ASTM E2600-15, is the presence or likely presence of vapor phase chemical(s) of concern (COC) in the subsurface of the target property as identified during the vapor encroachment screening process (ASTM, 2015).
- “*Area of Concern*” (*AOC*), as defined in ASTM E2600-15, for potential contaminated facilities with non-petroleum hydrocarbon COCs is equal to 1,760 feet around the Site and 528 feet around the Site for facilities with petroleum hydrocarbon COCs (ASTM, 2015).
- The term “*hazardous*” is used in general accordance with its definition in Title 22, Division 4, Chapter 30, California Code of Regulations (CCR). The terms material and waste are used interchangeably, and no legal distinction is implied between the two terms as used herein.

## 4.0 SCOPE OF WORK

The scope of work designed to provide the information needed to meet the objectives of the investigation was as follows:

- Inspect the Site.
- Conduct a Site vicinity reconnaissance to compile a list of companies and/or businesses that may utilize potentially hazardous materials in the Immediate Site Vicinity.
- Photograph the Site and the properties which bound the Site.
- Interview personnel familiar with the history of the Site, if available.
- Review files maintained by the City of Arcadia (City), if available.
- Review files for the Site maintained by the Los Angeles County Fire Department (LACFD) and the Department of Public Works (LACDPW), if available.
- Review files for the Site maintained by the South Coast Air Quality Management District (SCAQMD), if available.
- Review the California State Water Resources Control Board's (SWRCB) GeoTracker and Department of Toxic Substance Control (DTSC) EnviroStor databases for properties listed within the AOC of the Site.
- Review Sanborn maps, historical aerial photographs, topographic maps, phone directories, environmental lien and activity use limitation (AUL) reports, and a government agency database report specifically prepared for the Site by Environmental Data Resources Inc. (EDR).
- Review the EDR Radius Map and the California Department of Conservation Geologic Energy Management Division (CalGEM) Well Finder Website for oil and gas wells, fields, and zones (including radon) in the Site Vicinity.
- Prepare a report summarizing the findings of the information presented above.

The scope of work did not include the sampling of soil, soil vapor, groundwater, lead-based paint, asbestos containing materials, radon gas, air or the identification of suspect asbestos containing materials, a screening for lead in water, identification of moisture conditions in existing structures, a Site-specific wetlands delineation or a review of flood zone maps.

## **5.0 PHYSICAL SETTING**

### **5.1 TOPOGRAPHIC SETTING**

The topography in the Site vicinity slopes towards the south. The Site is situated at an elevation of approximately 495 feet above mean sea level (amsl)(EDR, 2021).

### **5.2 GEOLOGY AND HYDROGEOLOGY**

The Site is located in the eastern San Gabriel Valley Groundwater Basin. The basin is bounded by the San Gabriel Mountains to the north, the San Jose Hills and subsurface bedrock high to the east; the Puente, Repetto and Merced hills to the south and west; and the Raymond Fault to the northwest (DWR, 2003).

Local geology is characterized by alluvium consisting of poorly consolidated continental sediments. These sediments consist of unsorted, angular to sub-rounded sedimentary deposits ranging from boulder-bearing gravels near the San Gabriel Mountains to sands and silts in the central and western parts of the basin. They were deposited in large part by coalescing alluvial fans emanating from canyons exiting the southern San Gabriel Mountains north of the site (DWR, 2003).

The San Gabriel and the Rio Hondo rivers, and their tributaries flow from the San Gabriel Valley. The rivers have their headwaters in the San Gabriel Mountains and have a common exit from the southern portion of the valley at Whittier Narrows between the Merced and Puente hills. The closest surface body of water to the Site is the Santa Anita Wash (1/3-mile east of the Site) which is a tributary to the Rio Honda River which lies approximately 3 miles south of the Site (DWR, 2003).

FREY reviewed the SWRCB GeoTracker website (SWRCD, 2021), the EDR Radius Map (EDR, 2021), and the LACDPW groundwater well interactive map online (LACDPW, 2021) for information on public groundwater supply wells, depth to groundwater, and groundwater flow in the Site Vicinity. There is one public groundwater supply well located within a 1-mile radius of the Site. The well is City of Arcadia – St. Joseph Well 02, located approximately 2,000 feet east of the Site and is listed as inactive. Depth to groundwater measurements are available for a nearby California Department of Water Resources (DWR) well #1N11W27F01. The most recent depth to groundwater information for well #1N11W27F01 is from May 1, 2019 when groundwater was measured at a depth of 295 feet. According to the EDR Radius Map groundwater flow is estimated to be towards the southwest.

## **6.0 FIELD INVESTIGATION**

### **6.1 SITE INSPECTION**

FREY conducted a Site inspection on March 22, 2021. FREY met with the property representative Mr. Luis Sanghez who provided access to the buildings located at 30 E. Santa Clara Street, 33 Wheeler Avenue, and 180 and 150 North Santa Anita Avenue. FREY met with real estate representative Mr. Edward Matevosian, who provided access to the property located at 25 Wheeler Avenue.

The Site includes a total of four parcels totaling an approximate 3-acre area with five buildings. At the time of the inspection, the Site was observed to be occupied by multiple tenants in multiple buildings with multiple tenant spaces in each building. Each parcel is described below.

#### **150 & 180 N Santa Anita Ave (APN 5773-006-036)**

This parcel is 2.18-acres with two commercial office buildings addressed 150 North Santa Anita Avenue and 180 North Santa Anita Avenue. The rest of this parcel is mainly paved parking.

The building located at 150 North Santa Anita Avenue is an 8-story concrete building with an approximate 8,616 sq/ft footprint. This building was occupied by multiple small business office spaces including law offices, an electrical equipment supplier office, a holistic medical practice office, an insurance agency office and multiple vacant office spaces. According to the property representative, Verizon wireless owns and operates a cell tower that is located on the roof of the 150 North Santa Anita building.

Hard pack thermal system insulation (TSI) was observed during the inspection of the 150 N Santa Anita Avenue building and is considered an assumed asbestos containing material.

Two emergency backup generators were observed on the southeast corner of the 150 North Santa Anita Avenue building. The generators were set on concrete foundations. One of the foundations includes secondary containment. The generators appeared in good condition without staining on the slabs around the generators. Access into the generator containment area was not granted. No standalone above ground storage tanks (ASTs) were observed in the vicinity of the generators. According to the property representative, the generators operate on natural gas and the representative was not aware of any ASTs on the Site related to the emergency backup generators. However, one generator was labeled with a diesel fuel warning label, and both of the generators appear to be installed with “base” fuel tanks that are small fuel tanks that act as a base directly beneath the generator.

The building located at 180 North Santa Anita Avenue is a single-story brick building with a basement and an approximate 6,534 sq/ft building footprint. This building was occupied by Bank of America.

### **30 E Santa Clara St (APN 5773-006-010)**

This parcel is 0.37-acre with a two-story concrete building commercial office building with an approximate 8,634 square foot (sq/ft) building footprint fronting East Santa Clara Street. The remainder of the parcel in the rear of the building is paved parking.

The building is occupied by multiple commercial office spaces including a software company office, hospice care offices, travel agency offices, home health care / health insurance offices, and a vacant office space.

### **25 Wheeler Ave (APN 5773-006-004)**

This parcel is 0.18-acre parcel with a single-story commercial office building fronting Wheeler Avenue and paved parking to the rear of the building. The building is a single-story stucco and block building with an approximate 4,591 sq/ft building footprint. This building was occupied by multiple small business office spaces including a CPA office, an alternative care office, an insurance office, a gift boutique, a security system office, and multiple vacant office spaces.

### **33 Wheeler Ave (APN 5773-006-005)**

This parcel is a 0.18-acre parcel lot with a single-story commercial office building fronting Wheeler Avenue and paved parking at the rear of the building. The building was not occupied during the inspection but appeared to be a single tenant space for a former doctor/medical practice office.

In general, all of the Site buildings were occupied by small business office spaces each with reception / lobby areas and break room areas and shared restrooms on each floor of each building. Small storage areas for maintenance closets and/or elevator rooms were observed in all of the buildings. No chemicals or chemical staining were observed on-Site with the exception of small containers of cleaning supplies (less than 5-gallon containers) located in the maintenance closets/storage rooms of each building.

The parking areas were generally paved with asphalt or concrete small planter areas. Surface water appears to drain off the Site to the south. Two storm drain grates were observed on the southern side of the Site.

The presence of the two emergency backup generators with self-contained diesel fuel ASTs is a potential concern. However, the quantity of fuel in the generator ASTs is not considered significant, no violations regarding fuel handling were identified, and no spills or staining were observed around the tanks. As such, the presence of the ASTs is considered a de minimis condition.

No RECs were identified at the Site during the Site inspection conducted on March 22, 2021.

## 6.2 IMMEDIATE SITE VICINITY RECONNAISSANCE

FREY visually reviewed the exterior of properties surrounding the Site. The Site is located in a highly industrial area. A description of the properties bounding the Site, as identified from the Site walk and as identified on Google Maps, is as follows:

- **North:** The Site is bound to the north by East Santa Clara Street. Beyond Santa Clara Street is a parking lot to the northwest, a REI retail store and parking lot to the north, and a parking garage to the northeast.
- **East:** The Site is bound by an alley and a US Postal Service and parking lot further east beyond the alley.
- **South:** The Site is bound to the south by Wheeler Avenue. Beyond Wheeler Avenue is an expansive parking lot for commercial properties located further to the south.
- **Southwest:** The Site shares boundary with a property located on the northeast corner of the North Santa Anita Avenue and Wheeler Avenue intersection occupied by a dermatological office.
- **West:** North Santa Anita Avenue bounds the Site to the west, and west of North Santa Anita Avenue is a Mercedes-Benz auto dealership to the west and a medical and personal service complex to the southwest.

No RECs were identified on the properties in the Immediate Site Vicinity.

## 6.3 PERSONNEL INTERVIEW

Mr. Erik Wahl completed an ASTM transaction screen questionnaire for the Site. The completed questionnaire dated April 19, 2021 is provided in Appendix B.

Mr. Wahl answered no to all of the questions except number 17. Regarding the “yes” response Mr. Wahl noted that an elevator is in the 150 North Santa Anita Avenue building. The presence of a potential hydraulic lift for an elevator is considered a de minimis condition.

No RECs were identified from the personnel interview.

## 7.0 HISTORICAL INFORMATION REVIEW

EDR provided Sanborn maps, topographic maps, aerial photographs, a city directory abstract, an environmental lien and activity use limitations (AUL) search, and a property tax map report for the Site. The EDR information summarized below is presented in Appendix C.

### 7.1 SANBORN MAPS

EDR provided historical Sanborn fire insurance maps for the Site from 1908, 1924, 1929, and 1932. A summary of the details from the Sanborn maps follows.

### Site

- 1908: Only the northeast corner of the Site is depicted, and no structures are shown on that portion of the Site.
- 1924: The Site is shown as 18 rectangular parcels with one small structure (approximately 200 sq feet) located on the central eastern portion of the Site with an address of 30 Santa Clara Street.
- 1929-1932: An additional larger rectangular building is depicted on the Site the southwest corner fronting North Santa Anita Avenue. The building is labeled as “hay storage” with an address of 112 North Santa Anita Avenue.

No RECs were identified on the Site in the Sanborn maps.

### Properties within the AOC

The properties surrounding the Site are sparsely developed with a mixture of industrial, commercial, and boarding facilities. No businesses of concerns are shown.

No RECs were identified on the properties shown in the Immediate Site Vicinity on the Sanborn maps.

## **7.2 TOPOGRAPHIC MAPS**

EDR provided historical topographic maps from 1894, 1896, 1900, 1928, 1933, 1941, 1953, 1966, 1972, 1988, 1994, 1995, and 2012. A summary of details from the topographic maps is below.

### Site

Two buildings are shown on the Site in the 1941 map that appear to be the two buildings identified on the Site in the Sanborn maps describe in Section 7.1. No structures are depicted on the Site in any of the other maps.

No RECs were noted on Site in review of the topographic maps.

### Properties within the AOC

Development in the Site vicinity is shown in the earliest map with the intersection of two railroads located a block northeast of the Site. Buildings in the Site area shown through the 1941 map are mainly larger buildings indicative of commercial/industrial use. Beginning with the 1953 map the depictions of individual buildings is reduced indicative of dense development in the area.

No off-Site RECs were noted in review of the topographic maps.

### **7.3 AERIAL PHOTOGRAPHS**

EDR provided aerial photographs from 1928, 1938, 1948 (this photo is washed out and details are not discernable), 1952, 1954, 1964, 1972, 1979, 1981, 1989, 2002, 2005, 2009, 2012, and 2016. A summary of information derived from the photos is below.

#### **Site**

Site details are described here by parcel.

##### **150 & 180 N Santa Anita Ave (APN 5773-006-036)**

- 1928: The parcel is developed with one larger building as shown as 112 North Santa Anita Avenue on the Sanborn maps described in Section 7.1.
- 1938: An additional building, adjacent to the south side of the building at 112 North Santa Anita Avenue and the same size, is present, and an additional small building that appears residential is located near the southeast boundary of the parcel.
- 1952-1964: A large building now occupies most of the northwestern corner of the parcel with parts of the structure differing in heights around the central building. Two more small buildings that appear residential are located near the south eastern portion of the parcel.
- 1964: Buildings are no longer discernable on the parcel, which appears to be mostly graded over.
- 1972-2016: The Site appears developed as it exists currently with the multistory commercial building at 150 North Santa Anita Avenue, the single-story commercial building at 180 North Santa Anita Avenue, and surrounding paved parking.

##### **30 E Santa Clara St (APN 5773-006-010)**

- 1928-1938: One small residential building is located to the southwest end of the parcel as shown on the Sanborn maps described in Section 7.1.
- 1952-1981: The small building is no longer present, and a horseshoe shaped building with open courtyard area occupies most of the parcel.
- 1989-2016: The parcel has been redeveloped as it exists currently with the commercial building fronting East Santa Clara Street, and parking lot in the rear.

##### **25 Wheeler Ave (APN 5773-006-004)**

- 1928-1954: No development is visible.
- 1964-2016: The parcel appears developed as it exists currently with the commercial building fronting Wheeler Avenue and paved parking in the rear.

##### **33 Wheeler Ave (APN 5773-006-005)**

- 1928: No development is visible.
- 1938: One small building is located on the northern half of the parcel that appears residential.

- 1952-1954: An additional small building is located on the southern half of the parcel that appears residential.
- 1964-1972: The small building on the southern portion of the parcel has been replaced with the currently existing commercial building fronting Wheeler Avenue.
- 1979-2016: The small building on the northern portion of the parcel has been removed, and the northern portion of the parcel appears as a paved parking lot, at which point the parcel appears as it does currently.

No RECs were identified on the Site in the historical aerial photos.

### **Properties within the AOC**

Surrounding properties appear to be developed as a mix of residential and commercial/industrial use in the 1928 and 1938 photo. Subsequent photos show the surrounding area developed mainly for commercial/industrial use. Various redevelopment of properties surrounding the Site are seen in photos leading up to 2016 at which point all the properties in the Immediate Site Vicinity appear developed as they are currently.

No RECs were identified on the properties surrounding the Site in the historical aerial photos.

## **7.4 CITY DIRECTORY REVIEW**

FREY reviewed the EDR City Directory Abstract which included a search for listings from 1920 through 2014 for the Site and addresses in the Site Vicinity. Listing details are summarized below.

### **Site**

Listings for current Site addresses as well as listings for historical Site addresses were identified in the EDR City Directory Abstract as listed below.

**110 N Santa Anita Ave** (likely the hay storage facility on the Sanborn Maps described in Section 7.1 at 112 N Santa Anita Ave)

- Angeles Feed Hay & Grain (1950-1960)
- Individual persons (1950-1965)

**122 N Santa Anita Ave**

- Model Laundry & Linen Supply Co, Peerless Linen Rental Service, and Pur-O-Serve Linen Supply (1950-1962)

**150 N Santa Anita Ave**

- Individual persons (1958-1965)
- Various professional offices (1975-2014)

### **180 N Santa Anita Ave**

- Bank of America (1980-2009)

### **30 E Santa Clara St**

- B E Turner Inc – builder (1950-1957)
- Arcadia Manufacturing Co. (1957)
- Treadwell Engineering Corp. (1957-1960)
- Hillcrest Engineering (1966)
- Graphics Group / Peter Violante (1975)
- Fraley Dale & Co. (1980)
- Various professional offices (1985)
- Various professional offices (1994-2014)

### **17 Wheeler Ave**

- Real estate office (1950-1966)

### **17½ Wheeler Ave**

- Individual person (1950)

### **25 Wheeler Ave**

- Various attorneys, realtors, insurance, and travel offices (1966-2014)

### **31 Wheeler Ave**

- Columbia Labs Inc. (1962)

### **33 Wheeler Ave**

- Insurance office (1976-1981)
- Medical offices (1985-2014)

The use of the Site as a laundry business (122 North Santa Anita Avenue) is an REC and potential VEC due to the potential use of drycleaning solvents such as tetrachloroethylene (PCE) commonly used in the clothes cleaning process. PCE is a volatile organic compound (VOC) regulated by local, state and the federal government.

No other businesses of concern were identified in the listings for the Site.

## **Properties within the AOC**

Listings identified near the Site include mainly commercial/industrial businesses. No RECs were identified in review of the businesses listing for properties within the AOC of the Site included in the City Directory Abstract.

## **7.5 ENVIRONMENTAL LIENS**

FREY reviewed the environmental lien search reports provided by EDR which included a search for environmental liens and AULs for the Site. No environmental liens or AULs were found for the Site.

## **8.0 REGULATORY AGENCY REVIEW**

### **8.1 CITY OF ARCADIA**

FREY researched the City of Arcadia online Laserfiche Weblink page for building permit reports and other agency files for the Site (Arcadia, 2021). Copies of available documents for the Site are attached in Appendix D and are described below.

#### **122 N Santa Anita Ave**

A 10-page file contains new building, plumbing, electrical, interior/exterior modifications, electrical, and demolition permits and a Department of Industrial Relations Safety report that span from 1949 to 1966. In 1949, a new building was constructed with this address for laundry use on lots 32, 33 and 34 of block 76 (which appears to be the northwest corner of the Site at the intersection of North Santa Anita Avenue and East Santa Clara Street). The industrial safety report from 1955 was for the inspection of the wiring within a plant identified as Model Linen Supply which contained drills and sewing machines. In 1950 and 1956 at least three canopies were added to the building. Between 1951 and 1958 permits were granted for installation of motors three times, including 12 motors in 1956. A 1958 permit noted the installation of concrete footing for a water tank. Demolition permits dated 1966 were for demolishing an industrial laundry building.

#### **150-180 N Santa Anita Ave**

An 865-page file contains new building, demolition, sign, roofing, HVAC, electrical, plumbing, and interior/exterior modifications and upgrade permits for these addresses that span from 1971 through 2020. The documents show that the current buildings at these two addresses were constructed from 1971 to 1972 and were for office and bank use.

#### **26 and 30 E Santa Clara St**

A 100-page file contains new building, demolition, sign, roofing, HVAC, electrical, plumbing, and interior modifications and upgrade permits for these addresses that span from 1948 to 2014. In 1948, an office and warehouse were constructed as 26 East Santa Clara Street, and in 1949 an additional office building was constructed as 30 East Santa Clara

Street. In 1987 these buildings were demolished, and the current multi-tenant office building was constructed.

### **15 Wheeler Ave**

A 2-page file for this address consists of a curb and sidewalk permit for Angel Feed in 1961.

### **17 and 17½ Wheeler Ave**

A 20-page file for this address includes permits ranging from 1934 to 1972 for dwellings. Two dwellings were erected at the address by 1941. Owners identified on various documents (Phelps Realty/Union Realco.) indicate buildings on the property were likely used as business offices. Both buildings were demolished in 1971 and 1972.

### **25 Wheeler Ave**

A 2-page file for this address consists of a roofing permit for an office building in 2014.

### **31 and 33 Wheeler Ave**

A 64-page file contains new building, sign, roofing, HVAC, electrical, plumbing, and interior modifications and upgrade permits for these addresses that span from 1937 to 2011. In 1937 a residence was constructed on the property, and in 1959 a building intended for office/ warehouse use was constructed fronting the street (the current building).

The use of the Site as an industrial laundry business (122 North Santa Anita Avenue) is an REC and potential VEC as noted in Section 7.4 above.

## **8.2 COUNTY OF LOS ANGELES**

### **8.2.1 LACFD**

FREY searched the LACFD Site Mitigation, CALARP, Active Facility, and Inactive facility database lists for listing for the Site (LACDPW, 2021). The Site address 150 North Santa Anita Avenue was identified as Verizon Wireless with LACFD Facility ID FA0023638. FREY submitted a public records requests to the LACFD for the Site information. The LACFD provided a 5-page file of information for the Site. A facility information report lists Verizon Wireless as a radio telecommunications facility with a California Environmental Reporting System (CERS) tracking ID. Inspection information for this facility spans from 2004 through 2016. Comments from a 2015 report state “Inspected cellular equipment and battery storage building as well as one outdoor diesel fuel aboveground storage tank for emergency generator with field technician.” A copy of the LACFD file for the Site is included in Appendix D.

As noted in Section 6.1, the AST for the emergency generators is a de minimis condition. No other conditions of concern were noted in review of the LACFD information for the Site.

## **8.2.2 LACDPW**

FREY searched the LACDPW online building permits viewer for information on the Site. No permits or documents were shown. According to the information listed for the Site, APN 5773-006-004 (25 Wheeler Avenue) was built in 1973, APN 5773-006-005 (31 Wheeler Avenue) was built in 1959, APN 5773-006-010 (30 East Santa Clara Street) was built in 1987, and APN 5773-006-036 (150 North Santa Anita Avenue) was built in 1972 (LACDPW, 2021).

## **8.3 STATE OF CALIFORNIA**

### **8.3.1 DTSC EnviroStor**

FREY researched environmental cleanup sites and hazardous waste permitted facilities using the DTSC EnviroStor website (DTSC, 2021). FREY reviewed information for the Site and the AOC to assess potential on-Site and off-Site sources of chemicals of concern in soil and groundwater beneath the Site.

#### **Site**

The DTSC EnviroStor website does not list any cases for the Site.

#### **Properties within the AOC**

No facilities were identified within the AOC of the Site that appear likely to have negatively impacted soil or groundwater beneath the Site.

### **8.3.2 SWRCB GeoTracker**

FREY researched leaking UST (LUST) cleanup, cleanup program, military cleanup sites, waste discharge requirement, UST, DTSC hazardous waste, land disposal, and oil/gas permitted facilities using the SWRCB GeoTracker website (SWRCB, 2021). FREY reviewed information for the Site and the AOC to assess potential on-Site and off-Site sources of chemicals of concern in soil and groundwater beneath the Site. A summary of the information gathered from GeoTracker is presented below.

#### **Site**

The SWRCB GeoTracker website does not list any cases for the Site.

#### **Properties within the AOC**

No facilities were identified within the AOC of the Site that appear likely to have negatively impacted soil or groundwater beneath the Site.

### 8.3.3 SCAQMD

FREY reviewed the Facility Information Detail (FIND) database maintained by the SCAQMD. The Site was identified in the FIND database as Town Center Building, a nonresidential building operator with active facility ID # 6512 (SCAQMD, 2021). No permits, notices of violation, notices to comply, or emissions are listed.

No RECs were identified in the SCAQMD information for the Site.

## 9.0 GOVERNMENT AGENCY DATABASE REVIEW

The information discussed in this Section is presented in the EDR Radius Map Report attached in Appendix C.

### 9.1 OIL AND GAS

FREY reviewed the EDR Radius Map physical settings report and map and the CalGEM Well Finder Website for oil and gas wells in the Site Vicinity. One well is located within a one-mile radius of the Site. The well is an oil & gas well located 4,000 feet south-southeast of the Site that is listed with an idle status (CalGEM, 2021). This well is not considered a REC.

### 9.2 RADON

The EDR Radius Map physical settings report indicates that the Site is located in an average radon exposure zone according to a generalized assessment of radon potential in Los Angeles County. The USEPA lists Los Angeles County as Radon Zone Level 2, for areas where the indoor average radon level is greater than 2 pCi/L but less than 4 pCi/L. According to the California radon database, of forty-eight (48) tests conducted in 91006 zip code area, none had detections of radon greater than 4 picocuries per liter (pCi/L). The USEPA has an action level of 4 pCi/L (EPA, 2002).

### 9.3 GOVERNMENT AGENCY DATABASE FINDINGS

#### Site

The Site was identified in various regulatory databases searched by EDR. A summary of the database information identified for the Site is provided below.

Note:

Numerous properties are listed on the EDR Radius Map to be located within 1-mile of the Site. However, many are inaccurately mapped as they have addresses of Pasadena, not Arcadia.

#### **150 N Santa Anita Ave**

The Site was identified as Suzan M Masri DDS, Verizon Wireless: Arcadia, Bank of America, APAC Chemical Corp, AAF properties and Troy Petro Inc. in one of more of the following databases: HAZNET, HWTS, FINDS, ECHO, CERS, RCRA NonGen /NLR, and EDR Hist Auto.

The database information for Suzan M Masri DDS is regarding dental hazardous waste materials and is not a REC.

The information in the database listings for the Verizon Wireless: Arcadia facility was identified and discussed in Section 8.2.1 above and is not a REC.

APAC Chemical Corp, AAF Properties and Troy Petro Inc., all appear to have been business offices in the current building and the database information for them is not a REC.

### **180 N Santa Anita Ave**

The Site was identified as Bank of America in one of more of the following databases: HAZNET, HWTS, FINDS, ECHO, and RCRA NonGen / NLR. This information appears to be related to asbestos removal conducted in the building in 2019 and is not considered a REC.

### **Properties within the AOC**

Nine (9) addresses are listed in the Radius Map Report within the AOC of 528 feet of the Site as facilities which may have handled petroleum hydrocarbon COCs in quantities to be of concern in one or more of the following databases: UST, SWEEPS UST, HIST UST, AST, CERS HAZ TANKS, and CA FID UST. The facilities at the five (5) addresses listed below were located within the Immediate Site Vicinity on properties just on the other side of the street from the Site and are RECs and potential VECs.

- 214 N Santa Anita Ave (north of the Site) – Arcadia Lumber Company
- 145-147 N Santa Anita Ave (west of the Site) – Parking Lot
- 101 N Santa Anita Ave (southwest of the Site) – Rusnak/Arcadia
- 23 Santa Clara St (north of the Site) – Arcadia Lumber
- 21 W Santa Clara Street (northwest of the Site) – Pac Bell

Five address (5) addresses are listed in the Radius Map Report within the AOC of 1,760 feet of the Site as facilities that have or may have handled non-petroleum hydrocarbon COCs such as solvents in quantities to be of concern based on identification in the DRYCLEANERS or EDR Hist Cleaners databases. The facilities at the four (4) addresses listed below are RECs and potential VECs due to the proximity to the Site.

- 149/151 N Santa Anita Ave (immediately west of the Site) – Oak View Cleaners
- 231 N 1<sup>st</sup> St (515 ft northeast of Site) – Your Valet Cleaners
- 104 N 1<sup>st</sup> Ave (525 ft east of Site) – Half Hour Laundry
- 408 N Santa Anita Ave (870 feet north-northwest of Site) – Town Cleaners

One (1) additional address listed in the Radius Map Report within the AOC of the Site with a facility identified to have handled non-petroleum hydrocarbon COCs in quantities to be of concern was noted. The facility described below is considered a REC and a potential VEC.

- 44 La Porte St (765 feet north-northeast of the Site) – Danco Metal Surfacing / Anodizing is identified in the following databases: RCRA-LQG, HAZNET, HWTS, HIST UST, FINDS, ECHO, EMI, WIP, CERS HAZ WASTE, CERS, and CPS-SLIC.

A clean up case was closed for this facility in 1997. However, the facility is a large quantity generator of hazardous waste such as liquids with heavy metals and oxygenated solvents as reported from 1996 through 2019.

## 10.0 DATA GAPS

No significant data gaps were noted in the preparation of this report.

## 11.0 CONCLUSIONS

FREY has prepared this Phase I ESA in general conformance with the scope and limitations of the ASTM and AAI guidelines. Any exceptions to, or deletions from, this practice are described in Section 4.0 and 10.0 of this report.

### Site History

The Site parcels were developed for use as described below.

#### **APN 5773-006-036**

In the mid-1920s this parcel was first developed with a building addressed as **112 N Santa Anita Ave** used for to store animal feed. Around 1937 an additional building was constructed on the adjacent south side of the building at 112 N Santa Anita Ave, that was likely addressed as **110 N Santa Anita Ave** and occupied by an animal feed business through at least 1960. Both of these buildings were located near the southwest corner of the parcel. A permit for **15 Wheeler Ave** in 1937 to alter the curb for a driveway was likely to create Wheeler Avenue access to these feed business buildings. These buildings were demolished between 1964 and 1972.

In 1934 and 1941, two dwellings were erected on the southern side of the parcel addressed as **17 and 17½ Wheeler Ave**. A real estate office was operated out of 17 Wheeler Ave from 1950-1960. These buildings were demolished in 1971 and 1972.

In 1949, a large building was erected on the northwest corner of the parcel addressed as **122 N Santa Anita Ave**. The building was constructed for an industrial laundry and linen supplying business. Documents indicate various mechanical equipment was operated in the facility. The business was operated through at least 1962, and in 1966 the building was demolished.

In 1971 to 1972, the currently existing 8-story office building and single story bank building with surrounding paved parking were erected at **150 & 180 N Santa Anita Ave**, respectively.

#### **APN 5773-006-010**

By 1928, a small residential building had been built on southwest corner of this parcel addressed as **30 E Santa Clara St.** This building was demolished at some point in the early 1940s.

In 1946, an office and warehouse were constructed on this parcel with an address of **26 E Santa Clara St.**, and in 1949, an additional office building was constructed as **30 E Santa Clara St.** In 1987 these buildings were demolished.

In 1987, the current multi-tenant office building with paved parking was constructed as **30 E Santa Clara St.**

#### **APN 5773-006-004**

Between 1954 and 1964, this parcel was first developed with the currently existing commercial office building and paved parking addressed as **25 Wheeler Ave.**

#### **APN 5773-006-005**

In 1937, this parcel was first developed with a residential building addressed as **31 Wheeler Ave** on the northern portion of the parcel, and an additional residential building on the southern portion prior to 1952. The southern-most building on the parcel was removed by 1959. The northern residential structure was demolished in the 1970s.

In 1959, the currently existing office building was erected on the Site addressed as **33 Wheeler Ave.** The paved parking to the rear of the building was completed in the 1970s.

#### **On-Site Concerns**

An industrial laundry and linen business operated on the Site in a large building occupying the northwest corner of the Site (122 North Santa Anita Avenue) between 1949 and 1966. The business(es), identified as Model Laundry & Linen Supply Co, Peerless Linen Rental Service, and Pur-O-Serve Linen Supply, employed motor operated machinery.

Solvents such as tetrachloroethylene (PCE) have commonly been used in the clothes cleaning process. PCE is a volatile organic compound (VOC) regulated by local, state and the federal government. Details of the type of cleaning services offered by this facility were not identified herein, and thus, the use of solvents by this former industrial laundry facility cannot be ruled out. The former use of the Site as an industrial laundry business is an REC and a potential VEC.

## **Properties within the Area of Concern**

Various properties which use, have used, or have a high likelihood of using COCs were identified in various regulatory databases. The following properties present potential RECs and/or VECs based on the nature of the business(es) that occupied them, the regulatory database information reviewed for them, and proximity to the Site:

### **Former Petroleum Hydrocarbon UST or AST Locations**

- 214 N Santa Anita Ave (immediately north of the Site) – Arcadia Lumber Company
- 145-147 N Santa Anita Ave (immediately west of the Site) – Parking Lot
- 101 N Santa Anita Ave (immediately southwest of the Site) – Rusnak/Arcadia
- 23 Santa Clara St (immediately north of the Site) – Arcadia Lumber
- 21 W Santa Clara Street (immediately northwest of the Site) – Pac Bell

### **Drycleaners and Potential Drycleaners (Solvent Concern)**

- 149/151 N Santa Anita Ave (immediately west of the Site) – Oak View Cleaners
- 231 N 1<sup>st</sup> St (515 ft northeast of Site) – Your Valet Cleaners
- 104 N 1<sup>st</sup> Ave (525 ft east of Site) – Half Hour Laundry
- 408 N Santa Anita Ave (870 feet north-northwest of Site) – Town Cleaners

### **Large Quantity Hazardous Materials Generator (Solvent Concern)**

- 44 La Porte St (765 feet north-northeast of the Site) – Danco Metal Surfacing / Anodizing

A clean up case was closed for this facility in 1997. However, the facility is a large quantity generator of hazardous waste such as liquids with heavy metals and oxygenated solvents as reported from 1996 through 2019.

## **12.0 RECOMMENDATIONS**

Based on the conclusions presented in this report, it is recommended that a soil and soil vapor survey be performed at the Site to assess if past uses of the Site and/or the past use of nearby properties has impacted soil and/or soil vapor beneath the Site.

## **13.0 LIMITATIONS**

The findings, conclusions, and recommendations in this report are based on Site conditions as they existed at the time of our assessment. Our review of all documents, lists, databases, and public agency files has been conducted with due diligence. The conclusions represent FREY's professional judgment based on information obtained and reviewed during the course of this assessment. However, our conclusions are based on available information and are further subject to constraints imposed by public agencies on review procedures and information retrieval. As a result, FREY may have been unable to identify potential concerns that it was not made aware of due to such constraints.

FREY assumes no responsibility for conditions that did not come to our attention despite reasonable care, or for conditions which were not generally recognizable as environmentally unacceptable at the time of this report. Opinions and judgments expressed herein are based on our professional understanding and interpretations of currently available regulatory standards and should not be construed as legal opinions or advice. This report is not intended to be nor interpreted as legal advice.

Future conditions may differ from those described herein, and this report is not intended for future evaluations of this Site unless an update is conducted by a consultant familiar with environmental assessments.

The factual data and interpretations contained herein pertain to the specific project described in this report and are not applicable to any other project or site. Our investigation was performed using the standard of care and level of skill ordinarily exercised under similar circumstances by reputable environmental assessors, geologists, and engineers currently practicing in these or similar localities. No other warranty, express or implied, is made as to the conclusions and professional advice included in this report.

This report was compiled partially of information supplied to FREY from third party sources, other information that is in the public domain, and from a visual inspection of the Site. Third party information is accepted and used solely on the basis of the certifications, registrations, and/or reputation of the parties providing the information. However, FREY does not verify the data, findings, or conclusions of third-party sources, or attest to the completeness, accuracy, or adequacy of their work. FREY makes no warranty and accepts no liability or responsibility to the accuracy of any data, representations, or conclusions made by third parties.

This Phase I ESA report is compliant and consistent with the US EPA's 40 CFR Part 312 Standards and Practices for AAIs and the ASTM Standard Practice for ESAs: Phase I Environmental Site Assessment Process. FREY assumes no responsibility for errors or omissions of information provided by the User. Please note that the report does not address whether other requirements in addition to all appropriate inquiry have been met. Other requirements may include, but are not limited to, the continuing obligation not to impede the integrity and effectiveness of existing activity and use limitations (AULs), the duty to take reasonable steps to prevent releases, or the duty to comply with legally required release reporting information.

## 14.0 PROFESSIONAL STATEMENTS

We declare that, to the best of our professional knowledge and belief, we meet the definition of an environmental professional as defined in section 312.10 of 40 CFR 312. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Site. We have developed and performed all the appropriate inquiries in conformance with the standards and practices set forth in 40 CFR 312.

Should you have any questions regarding this report, please contact us.

Sincerely,

*FREY Environmental, Inc.*

Joe Frey  
Principal Geologist

QUESTIONNAIRE

1a. Did you observe evidence or do you have any prior knowledge that the subject property is currently or has been previously used for an industrial use?      yes       no      unknown

1b. Did you observe evidence or do you have any prior knowledge that any adjoining properties is currently or has been previously used for an industrial use?      yes       no      unknown

2a. Did you observe evidence or do you have any knowledge that the subject property is currently or has previously been used for any of the following (circle all that apply):

- gasoline station
- motor repair facility
- metal plating facility
- industrial process
- dry cleaners
- photo developing laboratory
- junkyard or landfill
- waste treatment, storage, disposal, processing or recycling facility

yes

no

unknown

---

2b. Did you observe evidence or do you have any knowledge that any adjoining property is currently or has previously been used for any of the following (circle all that apply):

- gasoline station
- motor repair facility
- metal plating facility
- industrial process
- dry cleaners
- photo developing laboratory
- junkyard or landfill
- waste treatment, storage, disposal, processing or recycling facility

yes

no

unknown

---

3. Did you observe evidence or do you have any knowledge that there are currently or have been previously any damaged or discarded automotive or industrial batteries, pesticides, paints, or other chemicals in individual containers > 5 gallons (19 L) in volume or 50 gallons (190 L) in the aggregate, stored on or used at the subject property?

yes

no

unknown

---

4. Did you observe evidence or do you have any knowledge that there are currently or have been previously any industrial drums (typically 55 gal) or sacks of chemicals located on the subject property?

yes

no

unknown

---

5. Did you observe evidence or do you have any prior knowledge that fill dirt has been brought onto the subject property that originated from a contaminated site or is of unknown origin?

yes

no

unknown

---

6. Did you observe evidence or do you have any prior knowledge that there is currently or has been previously any pits, ponds, or lagoons located on the subject property in connection with waste treatment or waste disposal?

yes

no

unknown

---

7. Did you observe evidence or do you have any prior knowledge that there is currently or has been previously any stained soil on the subject property?

yes

no

unknown

---

8. Did you observe evidence or do you have any prior knowledge that there is currently or has been previously any registered or unregistered storage tanks (above or underground) located on the subject property?      yes       no      unknown

---

9. Did you observe evidence or do you have any prior knowledge that there is currently or has been previously any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the subject property or adjacent to any structure on the subject property?      yes       no      unknown

---

10. Is there currently evidence of leaks, spill, or staining by substances other than water, or foul odors, associated with flooring, drains, walls, ceilings, or exposed grounds on the subject property?      yes       no      unknown

---

11. If the subject property is served by a private well or non-public water system, is there evidence or do you have any knowledge that contaminants have been identified in the well or system, or that the well has been designated as contaminated by any government environmental / health agency?      yes       no      unknown

---

12. Do you have any knowledge of environmental liens or government notification relating to past or recurrent violations of environmental laws with respect to the subject property?      yes       no      unknown

---

13. Have you been informed of the current or past existence of hazardous substances or petroleum products with respect to the subject property?      yes       no      unknown

---

14. Do you have any knowledge of any environmental site assessment of the property or facility that indicated the presence of hazardous substances or petroleum products on, or contamination of, the subject property, or recommended further assessment of the subject property?      yes       no      unknown

---

15. Do you know of any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substance or petroleum products involving the subject property by any owner or occupant of the property?      yes       no      unknown

---

16. Does the subject property discharge waste water (not including sanitary waste or storm water) onto or adjacent to the property and/or into a storm water system?      yes       no      unknown

---

17. Do you have any prior knowledge that any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries, or any other waste materials have been dumped above grade, buried and/or burned on the subject property?

yes

no

unknown

18. Is there a transformer, capacitor, or any hydraulic equipment for which there are any records indicating the presence of PCB's?

yes

no

unknown

Please provide details relating to any questions answered "yes" in the space provided. Attach additional sheets or informative documents if necessary.

18 - No North - Elevator - possible PCBs!

The undersigned represents that to the best of their knowledge the above statements and facts are true and correct and the best of his/her knowledge no material facts have been suppressed or misstated.

# The EDR Property Tax Map Report

## EDR Property Tax Map Report

Environmental Data Resources, Inc.'s EDR Property Tax Map Report is designed to assist environmental professionals in evaluating potential environmental conditions on a target property by understanding property boundaries and other characteristics. The report includes a search of available property tax maps, which include information on boundaries for the target property and neighboring properties, addresses, parcel identification numbers, as well as other data typically used in property location and identification.

***Thank you for your business.***  
Please contact EDR at 1-800-352-0050  
with any questions or comments.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Frey Environmental were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting [www.edrnet.com/sanborn](http://www.edrnet.com/sanborn).

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Sanborn® Library search results

Certification #: 6D04-4723-B493

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- Library of Congress
- University Publications of America
- EDR Private Collection

*The Sanborn Library LLC Since 1866™*

## Limited Permission To Make Copies

Frey Environmental (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

## EXECUTIVE SUMMARY

### DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

### RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

# EDR Environmental Lien and AUL Search

## EDR Environmental Lien and AUL Search

The EDR Environmental Lien and AUL Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

***Thank you for your business.***

Please contact EDR at 1-800-352-0050  
with any questions or comments.

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

### STANDARD ENVIRONMENTAL RECORDS

#### ***Federal RCRA generators list***

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 12/14/2020 has revealed that there are 3 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/14/2020 has revealed that there are 17 RCRA-SQG sites within approximately 0.25 miles of the target property.

RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the RESPONSE list, as provided by EDR, has revealed that there is 1 RESPONSE site within approximately 1 mile of the target property.

### **State- and tribal - equivalent CERCLIS**

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 10/26/2020 has revealed that there are 8 ENVIROSTOR sites within approximately 1 mile of the target property.

### **State and tribal landfill and/or solid waste disposal site lists**

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the SWF/LF list, as provided by EDR, has revealed that there are 2 SWF/LF sites within approximately 0.5 miles of the target property.

### **State and tribal leaking storage tank lists**

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 7 LUST sites within approximately 0.5 miles of the target property.

## EXECUTIVE SUMMARY

CPS-SLIC: Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CPS-SLIC list, as provided by EDR, has revealed that there are 4 CPS-SLIC sites within approximately 0.5 miles of the target property.

### **State and tribal registered storage tank lists**

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 7 UST sites within approximately 0.25 miles of the target property.

### **Local Lists of Registered Storage Tanks**

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 11 SWEEPS UST sites within approximately 0.25 miles of the target property.

### Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/14/2020 has revealed that there are 27 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

## EXECUTIVE SUMMARY

FUDS: The Listing includes locations of Formerly Used Defense Sites Properties where the US Army Corps Of Engineers is actively working or will take necessary cleanup actions.

A review of the FUDS list, as provided by EDR, and dated 09/29/2020 has revealed that there are 2 FUDS sites within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
ROSS FIELD		SW 1/2 - 1 (0.660 mi.)	V153	670
SANTA ANITA ORD TRAI		W 1/2 - 1 (0.831 mi.)	W159	685

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 11/04/2020 has revealed that there is 1 FINDS site within approximately 0.001 miles of the target property.

HAZNET: The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency. This database begins with calendar year 1993.

A review of the HAZNET list, as provided by EDR, and dated 12/31/2019 has revealed that there is 1

# EXECUTIVE SUMMARY

## EDR HIGH RISK HISTORICAL RECORDS

### ***EDR Exclusive Records***

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 20 EDR Hist Auto sites within approximately 0.125 miles of the target property.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Source: CERS

Site ID: 374170  
Site Name: Rusnak/Arcadia  
Violation Date: 08-31-2016  
Citation: 22 CCR 15 66265.192(a) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.192(a)

Violation Description: Failure to obtain and maintain a written assessment reviewed and certified by an independent, qualified, professional engineer prior to placing the tank system in service. The written assessment shall state that, the new hazardous waste tank system has sufficient structural integrity, is acceptable for the transferring, storing and treating of hazardous waste, and that the tanks and containment system including the foundation, structural support, seams, connections, and pressure controls (if applicable) are suitably designed to meet the regulation.

Violation Notes: Returned to compliance on 09/27/2016. OBSERVATION: Failure to test or inspect aboveground tanks for integrity by a person qualified in accordance with industry standards. CORRECTIVE ACTION: Obtain a qualified person to perform tank integrity testing in accordance with industry standards.

Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS

Site ID: 374170  
Site Name: Rusnak/Arcadia  
Violation Date: 08-31-2016  
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)

Violation Description: Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violation Notes: Returned to compliance on 09/07/2016. OBSERVATION: The owner/operator failed to electronically submit a corrected business plan within 30 days from the date of the notice from the unified program agency. CORRECTIVE ACTION: Make all necessary corrections to CERS submittals by 9/7/2016.HSC 25508(a)(2)

**Environmental Interest/Information System:**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, - 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1, - 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Citation: 22 CCR 15 66265.192(a) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.192(a)  
Violation Description: Failure to obtain and maintain a written assessment reviewed and certified by an independent, qualified, professional engineer prior to placing the tank system in service. The written assessment shall state that, the new hazardous waste tank system has sufficient structural integrity, is acceptable for the transferring, storing and treating of hazardous waste, and that the tanks and containment system including the foundation, structural support, seams, connections, and pressure controls (if applicable) are suitably designed to meet the regulation.  
Violation Notes: Returned to compliance on 09/06/2017. OBSERVATION: Facility does not have a hazardous waste tank system assessment for the [note size and contents of 1 x 816 gallon aboveground storage tank. The owner or operator of a hazardous waste tank system shall obtain a written assessment reviewed and certified by an independent, qualified, professional engineer, registered in California, attesting that the system has sufficient structural integrity, is acceptable for the transferring, storing, and treating of hazardous waste, and that the tanks and containment system are suitably designed. CORRECTIVE ACTION: Immediately have an assessment prepared for the 816 waste oil tank hazardous waste tank system. Submit a schedule showing when this will be accomplished to the CUPA by 5/6/2017.

Violation Description: Failure to comply with one or more of the following designated operator (DO) monthly inspection requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been properly trained.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

WDS:

Name: ARCADIA VEHICLE MAINT FAC  
Address: 35 W Saint Joseph St  
City: ARCADIA  
Facility ID: 4 19I017940  
Facility Type: Industrial - Facility that treats and/or disposes of liquid or semisolid wastes from any servicing, producing, manufacturing or processing operation of whatever nature, including mining, gravel washing, geothermal operations, air conditioning, ship building and repairing, oil production, storage and disposal operations, water pumping.  
Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.  
NPDES Number: CAS000001 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board  
Subregion: 4  
Facility Telephone: 6268211435  
Facility Contact: THOMPSON JERRY

POTW: Not reported  
Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.  
Violation Notes: Returned to compliance on 06/20/2019. OBSERVATION: Owner/Operator is a small quantity generator and failed to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles), or has failed to comply with the conditions of CCR 66262.34(d) and has stored hazardous waste over 90 days. CORRECTIVE ACTION: Dispose of hazardous waste (waste oil accumulated since January 2017) that has been stored over the applicable time limit and provide documentation that the violation has been corrected.

Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1,- 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Citation: 23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(e)  
Violation Description: For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.

Site Name: FAST AUTOWORKS  
Violation Date: 08-05-2015  
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2  
Violation Description: Failure to annually review and electronically certify that the business plan is complete, accurate, and up-to-date.  
Violation Notes: Returned to compliance on 11/07/2016. OBSERVATION: The facility has not annually reviewed and certified that the business plan is complete, accurate, and up-to-date. CORRECTIVE ACTION: Review, revise, and certify the business plan electronically in the California Environmental Reporting System (CERS).  
Violation Division: Los Angeles County Fire Department  
Violation Program: HMRRP  
Violation Source: CERS

Site ID: 29763  
Site Name: FAST AUTOWORKS  
Violation Date: 01-07-2019  
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)  
Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.  
Violation Notes: Returned to compliance on 02/22/2019. OBSERVATION: Uniform Hazardous Waste Manifests/ receipts for waste coolant and used oil filters were not available for review at the time of inspection. CORRECTIVE ACTION: Locate a copy of the most recent receipt or manifest showing disposal of waste coolant and used oil filter and submit copies to the CUPA.  
Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS

Site ID: 29763  
Site Name: FAST AUTOWORKS  
Violation Date: 01-07-2019  
Citation: 40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.31  
Violation Description: Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.  
Violation Notes: Returned to compliance on 02/22/2019. OBSERVATION: Observed oil spill inside the secondary containment. CORRECTIVE ACTION: Submit photos/documentation to the CUPA demonstrating the spill has been properly removed and managed.

Hazardous Waste Summary:

Waste Code: D001  
Waste Description: IGNITABLE WASTE

Waste Code: D002  
Waste Description: CORROSIVE WASTE

Waste Code: D007  
Waste Description: CHROMIUM

Waste Code: F003  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE,

**Environmental Interest/Information System:**

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Description: 6.95, Section(s) 25508(a)(3)  
Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violation Notes: Returned to compliance on 11/29/2017. Log onto the California Environmental Reporting System (CERS) to correct the deficiencies in the HAZARDOUS MATERIALS INVENTORY section. Ensure all reportable hazardous materials (55 gal for liquid, 500 lb for solid, 200 cu. ft for gas) are properly reported to the hazardous materials inventory. Add the following reportable hazardous materials including (1) tank of alkaline cleaner (505 gal) in Tank Room #1, (3) drums of soap powder in the dry chemical storage room, (1) 55 gal drum of sealant in the waste treatment area, (2) cylinders of propane, tank #17 & tank #19 ( 89.7 gal passivation tanks) in Tank Room #2. Also, correct the following: the reporting unit for the filter cake should be pounds, not cubic feet. Owner/operator failed to properly submit hazardous materials inventory to CERS.

Violation Program: HMRRP  
Violation Source: CERS

Site ID: 391095  
Site Name: DANCO METAL SURFACING  
Violation Date: 02-19-2019  
Citation: 22 CCR 45 67450.7 - California Code of Regulations, Title 22, Chapter 45, Section(s) 67450.7

Violation Description: Failure of the owner or operator of a facility who operates a transportable treatment unit (TTU) or fixed treatment unit (FTU) under a permit by rule to complete a corrective action program at the facility. The corrective action shall consist of a phase 1 environmental assessment, which shall be submitted within one year of the initial notification of permit by rule treatment, and a subsequent corrective action conducted as necessary to protect human health and the environment for all releases of hazardous waste or constituents from any solid or hazardous waste management unit at the facility, regardless of the time at which waste was placed in the unit.

Violation Notes: Returned to compliance on 03/18/2019. OBSERVATION: Corrective action requirements have not been met for this facility, including but not limited to, completion of a phase 1 environmental assessment. Mr. Clark claimed it was at HQ. CORRECTIVE ACTION: Submit the required corrective action documents, including a phase 1 environmental assessment, to the CUPA.

Citation: 22 CCR 15 66265.191(g) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.191(g)

Violation Description: Failure of the Existing Hazardous Waste Tank P.E. assessment to contain the following: 1) Tank configuration (i.e., horizontal, vertical), and gross capacity (in gallons); 2) Design standard(s), if available, according to which the tank and ancillary equipment were constructed and all of the following information: A) Material of construction; B) Material thickness and the method used to determine the thickness; C) Description of tank system piping (material, diameter); D) Description of any internal and external pumps; and E) Sketch or drawing of tank including dimensions. 3) Documented age of the tank system, if available, otherwise, an estimate of the age based on owner or operator knowledge; 4) Description and evaluation of the adequacy of any leak detection equipment; 5) Description and evaluation of any corrosion protection equipment; 6) Description and evaluation of any spill prevention or overfill equipment; 7) Hazardous characteristics of the waste(s) that have been or will be handled; 8) Description of any structural damage or inadequate construction or installation such as cracks, punctures, or damaged fittings. All discrepancies shall be documented in the assessment and remedied before the tank system is certified for use. 9) Results of a leak test, internal inspection, or other tank system integrity examination including the type of integrity examination performed (i.e., ultrasonic, internal examination, volumetric tank test, pipeline pressure test). Tank system integrity or leak test requirements must be in compliance with all local requirements. Prior to conducting a tank system integrity test or leak test, contact local agency staff for local requirements. 10) Estimated remaining service life of the tank system based on findings of subsections 1) through 9).

Violation Notes: Returned to compliance on 03/31/2016. Obtain a supplemental integrity assessment for Batch Treatment Tank #1. A review of the tank assessment document revealed the engineer did not assessed this tank. Provide a written supplemental integrity assessment from a qualified professional engineer.

Citation: 23 CCR 16 2712(i) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(i)

Violation Description: Failure to maintain on site an approved monitoring plan.

Violation Notes: Returned to compliance on 02/01/2017.

Violation Division: Los Angeles County Department of Public Works

Violation Program: UST

Violation Source: CERS

Site ID: 145201  
Site Name: Propel Fuels, Inc. (206008)  
Violation Date: 02-12-2019  
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)

Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, - 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1, - 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Violation Description: Chapter 12, Section(s) 66262.40(a)  
Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violation Notes: Returned to compliance on 08/07/2020. OBSERVATION: Uniform Hazardous Waste Manifests for hazardous waste solids (containing gasoline) and hazardous waste liquids (water and gasoline) were not available at the time of inspection. CORRECTIVE ACTION: Locate a copy of all manifests for hazardous waste solids (containing gasoline) and hazardous waste liquids (water and gasoline) and submit copies to the CUPA.

Violation Date: 05-26-2020

Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)

Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1,- 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Violation Notes: CERS CORRECTIONS(VERIFY TANK OWNER,PROVIDE CORRECT DOCUMENTS,ETC.). DSL HAS SW VENT AND NO BALL FLOAT,NEEDS FLAPPER TO MEET REGULATIONS.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System:**

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violations:

Site ID: 147418  
Site Name: RELTON CORPORATION  
Violation Date: 01-11-2016  
Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)

Violation Description: Failure to complete and electronically submit a site map with all required content.

Violation Notes: Returned to compliance on 12/14/2017. OBSERVATION: The annotated site map submitted to the CUPA does not include scale, directions and street address. CORRECTIVE ACTION: Revise the annotated Site Map to include all required content and submit electronically in the California Environmental Reporting System (CERS).

Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)

Violation Description: Failure to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for three years.

Violation Notes: Returned to compliance on 04/15/2016. OBSERVATION: Copies of hazardous waste disposal records were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. CORRECTIVE ACTION: Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the CUPA.

hazardous waste tank systems and ancillary equipment, to meet the following secondary containment requirements: 1) Designed, installed, and operated to prevent any migration of wastes or accumulated liquid out of the system to the soil, ground water, or surface water at any time during the use of the tank system; and 2) Capable of detecting and collecting releases and accumulated liquids until the collected material is removed. 3) Constructed of or lined with materials that are compatible with the waste(s) to be placed in the tank system and shall have sufficient strength and thickness to prevent failure due to pressure gradients (including static head and external hydrological forces), physical contact with the waste to which they are exposed, climatic conditions, the stress of installation, and the stress of daily operation (including stresses from nearby vehicular traffic); 4) Placed on a foundation or base capable of providing support to the secondary containment system and resistance to pressure gradients above and below the system and capable of preventing failure due to settlement, compression, or uplift; 5) Provided with a leak detection system that is designed and operated so that it will detect the failure of either the primary and secondary containment structure or any release of hazardous waste or accumulated liquid in the secondary containment system within 24 hours, or at the earliest practicable time if the existing detection technology or site conditions will not allow detection of a release within 24 hours; 6) Sloped or otherwise designed or operated to drain and remove liquids resulting from leaks, spills, or precipitation. Spilled or leaked waste and accumulated precipitation shall be removed from the secondary containment system within 24 hours, or in as timely a manner as is possible to prevent harm to human health or the environment, if removal of the released waste or accumulated precipitation cannot be accomplished within 24 hours.

Citation: 22 CCR 15 66265.191(e) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.191(e)

Violation Description: Failure of the generator conducting CE, CA, or PBR treatment activity to annually obtain and maintain a current P.E. assessment of the existing Hazardous Waste tank systems which lacks secondary containment meeting the requirements of section 66265.193. The P.E. assessment shall determine that the tank system is adequately designed and has sufficient structural strength and compatibility with the waste(s) to be transferred, stored or treated to ensure that it will not collapse, rupture, or fail. At a minimum, this assessment shall consider the following: 1) Design standard(s), if available, according to which the tank and ancillary equipment were constructed; 2) Hazardous characteristics of the waste(s) that have been or will be handled; 3) Existing corrosion protection measures; 4) Documented age of the tank system, if available, (otherwise, an estimate of the age); and 5) Results of a leak test, internal inspection, or other tank integrity examination such that: A) For non-enterable underground tanks, this assessment shall consist of a leak test that is capable of taking into account the effects of temperature variations, tank end deflection, vapor pockets, and high water table effects, B) For other than non-enterable underground tanks and for ancillary equipment, this assessment shall be either a leak test, as described above, or an internal inspection and/or other tank integrity examination certified by an independent, qualified, professional engineer, registered in California, in accordance with section 66270.11(d) that addresses cracks, leaks, corrosion, and erosion. 6) For tank systems that transfer, store or treat materials that become hazardous wastes this assessment shall be conducted within 12 months after the date that the waste becomes a hazardous waste, 7) The tank system assessment shall include all of the following information: a) Tank configuration (i.e., horizontal, vertical), and gross capacity (in gallons); b) Design standard(s), if available, according to which the tank and ancillary equipment

Site ID: 146043  
Site Name: Dan's Auto Care  
Violation Date: 02-10-2016  
Citation: HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507  
Violation Description: Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.  
Violation Notes: Returned to compliance on 12/22/2017. OBSERVATION: Owner/Operator failed to establish and implement a Hazardous Materials Business Plan when storing hazardous materials at or above the thresholds quantities of 55 gallons/500 lbs/200 cubic feet. CORRECTIVE ACTION: Establish and implement a Hazardous Materials Business Plan when storing hazardous materials at or above the thresholds quantities of 55 gallons/500 lbs/200 cubic feet. Disclose your 110 gallons of waste oil and 55-gallons of waste coolant. Go to <http://cers.calepa.ca.gov>

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Name: AUTOSQUARE COLLISION CENTER  
Address: 140 E SAINT JOSEPH ST  
City,State,Zip: ARCADIA, CA 91006  
Site ID: 9831  
CERS ID: 10267399  
CERS Description: Chemical Storage Facilities

**Violations:**

Site ID: 9831  
Site Name: AUTOSQUARE COLLISION CENTER  
Violation Date: 08-27-2020  
Citation: Un-Specified  
Violation Description: Business Plan Program - Operations/Maintenance - General Local Ordinance

Violation Notes: Owner/Operator failed to adequately label hazardous material areas. Observed faded NFPA 704 placard at the front of the facility. CORRECTIVE ACTION: Ensure that NFPA 704 placards are placed at entrances to hazardous materials storage areas and at each building that stores, uses, handles or dispenses hazardous materials

Violation Division: Los Angeles County Fire Department  
Violation Program: HMRRP  
Violation Source: CERS

Site ID: 9831  
Site Name: AUTOSQUARE COLLISION CENTER  
Violation Date: 04-02-2014  
Citation: HSC 6.95 25505(a) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)

Violation Description: Owner/Operator failed to complete and/or submit a Hazardous Materials Business Plan when storing hazardous materials at or above the thresholds quantities of 55 gallons/500 lbs/200 cubic feet.

Violation Notes: Returned to compliance on 05/09/2014. OBSERVATION: Owner/Operator failed to complete and/or submit a Hazardous Materials Business Plan when storing hazardous materials at or above the thresholds quantities of 55 gallons/500 lbs/200 cubic feet. CORRECTIVE ACTION: Complete and/or submit a Hazardous Materials Business Plan when storing hazardous materials at or above the thresholds quantities of 55 gallons/500 lbs/200 cubic feet.

Site Name: VJ'S AUTO SERVICE  
Violation Date: 08-05-2015  
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2  
Violation Description: Failure to annually review and electronically certify that the business plan is complete, accurate, and up-to-date.  
Violation Notes: Returned to compliance on 03/15/2016. OBSERVATION: The facility has not annually reviewed and certified that the business plan is complete, accurate, and up-to-date. CORRECTIVE ACTION: Review, revise, and certify the business plan electronically in the California Environmental Reporting System (CERS).  
Violation Division: Los Angeles County Fire Department

 Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)  
 Violation Description: Failure to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for three years.  
 Violation Notes: Returned to compliance on 03/15/2016. OBSERVATION: Copies of hazardous waste disposal records for [whichever year(s)] were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. CORRECTIVE ACTION: Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the CUPA by 9/3/15.

Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)

Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violation Notes: Returned to compliance on 06/06/2018. OBSERVATION: Uniform Hazardous Waste Manifests for used oil/filters and used coolant were not available at the time of inspection. CORRECTIVE ACTION: Locate a copy of all manifests for used oil/filters and used coolant and submit copies to the CUPA.

Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)

Violation Description: Failure to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for three years.

Violation Notes: Returned to compliance on 03/15/2016. OBSERVATION: Copies of hazardous waste disposal records for last three years were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. CORRECTIVE ACTION: Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the CUPA by [10/10/15].

Section(s) 25284.2  
Violation Description: "Failure to meet one or more of the following requirements: Install or maintain a liquid-tight spill container. Have a minimum capacity of five gallons. Have a functional drain valve or other method for the removal of liquid from the spill container. Be resistant to galvanic corrosion. Perform a tightness test at installation, every 12 months thereafter, or within 30 days after a repair to the spill container. Tested using applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Tested by a certified UST service technician. Maintain records of spill containment testing for 36 months. "

October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.

Violation Date: 01-16-2020  
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)  
Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, - 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1, - 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

**FINDS:**

Registry ID: 110070835364

[Click Here:](#)

**Environmental Interest/Information System:**

SSTS (Section Seven Tracking System ) evolved from the FIFRA and TSCA Enforcement System (FATES). SSTS tracks the registration of all pesticide-producing establishments and tracks annually the types and amounts of pesticides, active ingredients, and related devices that are produced, sold, or distributed each year.

Registry ID: 110002807339

[Click Here:](#)

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Background Info: This lead contaminated Site has been a joint project between LA County, US-EPA, and DTSC, with DTSC now as the Lead Agency. The Site originally consisted of five properties; 827, 829, 831 Olive Avenue and 824, 832 Colorado Blvd; but now two properties, 831 Olive and the 824 Colorado are determined clean. Lead contamination exists in sols from 0-2 and the contamination was probably from Barth's Battery Shop which was located on 832 Colorado Blvd. in the 1930s. In the 1930s the Olive Avenue properties were a vacant lot. The battery shop probably disposed their battery waste beind the business as pieces of battery casings have been found in Site soils. In the 1960s the Olive Avenue vacant lot was developed with the current residential buildings which were built on top of the battery waste. Grading of the lot prior to construction probably spread the lead waste throughout the properties.  
Not reported  
DTSC sampled in May and October 2001 to define the vertical and lateral extent of the lead contamination. DTSC then conducted an Emergency Removal Action in January 2002 to remove surface soils contaminated with lead that may pose a health risk to residents. After this action the 824 Colorado Blvd address was determined cleaned as only a small area in the southwest corner of the property needed excavation. In May 2003 DTSC conducted a Removal Action to remove the remaining lead contaminated soil that was not covered by structures or paving. After this action the 831 Olive Avenue was determined cleaned as only a small area on the south western lot was excavated.

Not reported  
DTSC believes that the health risk has been removed at the Site. Lead contaminated soil still exists there, but the areas where lead contaminated soil exists are either covered by concrete, asphalt, or building structures, and therefore do not pose a risk to human health or the environment.

**ARCADIA HIGH SCHOOL (Continued)**

**S108649763**

Comments: In an email of August 9, 2007, DTSC concurred with a proposed revised sampling program based on the preliminary information provided in the draft PEA Workplan - Technical Memorandum, dated July 12, 2007, discussions at the site on August 6th, and emails to DTSC on August 6th and 7th. DTSC also requested 1) information/figure(s) which indicate the areas to be impacted based on this High School's modernization project; and 2) an approximate submittal date of the PEA report, which will include the results of the subject sampling program. The proposed sampling fieldwork was scheduled to commence on August 7th; DTSC did not anticipate receipt of a final PEA Workplan -- Technical Memorandum.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

## **STANDARD ENVIRONMENTAL RECORDS**

### ***Federal NPL site list***

#### **NPL: National Priority List**

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/30/2020	Source: EPA
Date Data Arrived at EDR: 01/14/2021	Telephone: N/A
Date Made Active in Reports: 02/09/2021	Last EDR Contact: 03/04/2021
Number of Days to Update: 26	Next Scheduled EDR Contact: 04/12/2021
	Data Release Frequency: Quarterly

#### **Proposed NPL: Proposed National Priority List Sites**

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/30/2020	Source: EPA
Date Data Arrived at EDR: 01/14/2021	Telephone: N/A

Number of Days to Update: 26	Next Scheduled EDR Contact: 04/12/2021
	Data Release Frequency: Quarterly

#### **NPL LIENS: Federal Superfund Liens**

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

## ***Federal Delisted NPL site list***

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/30/2020  
Date Data Arrived at EDR: 01/14/2021

Next Scheduled EDR Contact: 04/12/2021  
Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

## ***Federal CERCLIS NFRAP site list***

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

## ***Federal RCRA non-CORRACTS TSD facilities list***

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 12/14/2020	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/17/2020	Telephone: (415) 495-8895

## ***State- and tribal - equivalent CERCLIS***

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Date of Government Version: 10/26/2020

## **ADDITIONAL ENVIRONMENTAL RECORDS**

### **Local Brownfield lists**

#### US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 12/11/2020

## US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## CA FID UST: Facility Inventory Database

The Facility Inventory Database (FID) contains a historical listing of active and inactive underground storage tank locations from the State Water Resource Control Board. Refer to local/county source for current data.

Date of Government Version: 10/31/1994	Source: California Environmental Protection Agency
Date Data Arrived at EDR: 09/05/1995	Telephone: 916-341-5851
Date Made Active in Reports: 09/29/1995	Last EDR Contact: 12/28/1998
Number of Days to Update: 24	Next Scheduled EDR Contact: N/A
	Data Release Frequency: No Update Planned

## CERS TANKS: California Environmental Reporting System (CERS) Tanks

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs.

Date of Government Version: 10/19/2020	Source: California Environmental Protection Agency
Date Data Arrived at EDR: 10/19/2020	Telephone: 916-323-2514
Date Made Active in Reports: 01/07/2021	Last EDR Contact: 01/20/2021
Number of Days to Update: 80	Next Scheduled EDR Contact: 05/03/2021
	Data Release Frequency: Quarterly

## Local Land Records

### LIENS: Environmental Liens Listing

A listing of property locations with environmental liens for California where DTSC is a lien holder.

Date of Government Version: 11/24/2020	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 11/30/2020	Telephone: 916-323-3400
Date Made Active in Reports: 02/10/2021	Last EDR Contact: 02/26/2021
Number of Days to Update: 72	Next Scheduled EDR Contact: 06/14/2021
	Data Release Frequency: Varies

### LIENS 2: CERCLA Lien Information

A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

Date of Government Version: 12/30/2020	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/14/2021	Telephone: 202-564-6023
Date Made Active in Reports: 02/18/2021	Last EDR Contact: 03/04/2021
Number of Days to Update: 35	Next Scheduled EDR Contact: 04/12/2021
	Data Release Frequency: Semi-Annually

### DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Date of Government Version: 11/30/2020	Source: DTSC and SWRCB

	Data Release Frequency: Semi-Annually

## Records of Emergency Release Reports

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## HMIRS: Hazardous Materials Information Reporting System

Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT.

Date of Government Version: 12/16/2020	Source: U.S. Department of Transportation
Date Data Arrived at EDR: 12/17/2020	Telephone: 202-366-4555
Date Made Active in Reports: 03/12/2021	Last EDR Contact: 12/17/2020
Number of Days to Update: 85	Next Scheduled EDR Contact: 04/05/2021
	Data Release Frequency: Quarterly

## CHMIRS: California Hazardous Material Incident Report System

California Hazardous Material Incident Reporting System. CHMIRS contains information on reported hazardous material incidents (accidental releases or spills).

Date of Government Version: 09/30/2020	Source: Office of Emergency Services
Date Data Arrived at EDR: 10/19/2020	Telephone: 916-845-8400
Date Made Active in Reports: 01/07/2021	Last EDR Contact: 01/20/2021
Number of Days to Update: 80	Next Scheduled EDR Contact: 05/03/2021
	Data Release Frequency: Semi-Annually

## LDS: Land Disposal Sites Listing (GEOTRACKER)

Land Disposal sites (Landfills) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

Date of Government Version: 12/04/2020	Source: State Water Quality Control Board
Date Data Arrived at EDR: 12/04/2020	Telephone: 866-480-1028
Date Made Active in Reports: 02/18/2021	Last EDR Contact: 03/09/2021
Number of Days to Update: 76	Next Scheduled EDR Contact: 06/21/2021
	Data Release Frequency: Quarterly

## MCS: Military Cleanup Sites Listing (GEOTRACKER)

Military sites (consisting of: Military UST sites; Military Privatized sites; and Military Cleanup sites [formerly known as DoD non UST]) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

Date of Government Version: 12/04/2020	Source: State Water Resources Control Board
Date Data Arrived at EDR: 12/04/2020	Telephone: 866-480-1028
Date Made Active in Reports: 02/18/2021	Last EDR Contact: 03/09/2021
Number of Days to Update: 76	Next Scheduled EDR Contact: 06/21/2021
	Data Release Frequency: Quarterly

## SPILLS 90: SPILLS90 data from FirstSearch

Spills 90 includes those spill and release records available exclusively from FirstSearch databases. Typically, they may include chemical, oil and/or hazardous substance spills recorded after 1990. Duplicate records that are already included in EDR incident and release records are not included in Spills 90.

Date of Government Version: 06/06/2012	Source: FirstSearch
Date Data Arrived at EDR: 01/03/2013	Telephone: N/A
Date Made Active in Reports: 02/22/2013	Last EDR Contact: 01/03/2013
Number of Days to Update: 50	Next Scheduled EDR Contact: N/A
	Data Release Frequency: No Update Planned

## **Other Ascertainable Records**

### RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/21/2014	Telephone: 617-520-3000
Date Made Active in Reports: 06/17/2014	Last EDR Contact: 02/02/2021
Number of Days to Update: 88	Next Scheduled EDR Contact: 05/17/2021
	Data Release Frequency: Quarterly

## 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 09/30/2017	Source: Environmental Protection Agency
Date Data Arrived at EDR: 05/08/2018	Telephone: 703-308-4044

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## ROD: Records Of Decision

Record of Decision. ROD documents mandate a permanent remedy at an NPL (Superfund) site containing technical and health information to aid in the cleanup.

Date of Government Version: 12/30/2020	Source: EPA
Date Data Arrived at EDR: 01/14/2021	Telephone: 703-416-0223
Date Made Active in Reports: 02/18/2021	Last EDR Contact: 03/04/2021
Number of Days to Update: 35	Next Scheduled EDR Contact: 06/14/2021
	Data Release Frequency: Annually

## RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: 11/02/2020	Source: Environmental Protection Agency
Date Data Arrived at EDR: 11/12/2020	Telephone: 202-564-8600

## RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA
Date Data Arrived at EDR: 07/03/1995	Telephone: 202-564-4104

	Data Release Frequency: Quarterly

## HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/01/2007	Telephone: 202-564-2501

Data Release Frequency: Varies

## UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

## US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

## ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

**HAZNET:** Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

Date of Government Version: 11/19/2019	Source: RWQCB, Central Valley Region

## WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

## EDR HIGH RISK HISTORICAL RECORDS

### ***EDR Exclusive Records***

#### EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

#### EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

#### EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

## LOS ANGELES CO LF METHANE: Methane Producing Landfills

This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health
