Project Title: Variance TWW-2021-LG-00632 to Allow the Generation, Accumulation, and Transport of Treated Wood Waste under Alternate Procedures by Daggett Solar Power 3 LLC

Project Location: Site 8 GPS Point 34.866296, -116.794219; Site 6 GPS Point 34.869738, -116.812154; Site 5 GPS Point 34.874101, -116.807330; Site 3 GPS Point 34.879897, -116.810477; Site 2 GPS Point 34.876369, -116.811679; Site 1 GPS Point 34.872815, -116.818220

County: San Bernardino

Project Applicant: Julie Babcock, Sr. Environmental Manager, Daggett Solar Power 3 LLC

Approval Action Under Consideration by DTSC: Variance

Statutory/Regulatory Authority: California Health and Safety Code, Section 25143; CCR Title 22, Section 66260.210

Project Description: The Department of Toxic Substances Control (DTSC) has issued a variance to Daggett Solar Power 3 LLC to generate and accumulate treated wood waste at the following sites: Site 1 CAP000325431, Site 2 CAR000325456, Site 3 CAP000325464, Site 5 CAP000325480, Site 6 CAP000325506 and Site 8 CAP000325522. The applicant may transport the treated wood waste generated on-site to an authorized handler or disposal facility. The treated wood waste is generated as a result of removal of old structures and old utility poles. The variance allows treated wood waste to be managed under procedures different from, but equally protective to human health and the environment to, the provisions of California Health and Safety Code (HSC) Articles 6, 6.5 and 9 of Chapter 6.5 and California Code of Regulations (CCR), Title 22, Division 4.5, Chapters 12, 13, 14, 15, 16, 18, and/or 20. Under the terms and conditions of Variance TWW-2021-LG-00632, Daggett Solar Power 3 LLC will ensure the treated wood waste will be appropriately managed.

The treated wood waste management activities include removal of old structures, farm equipment and general garbage from all locations. A utility scale solar site will be built on the land.

Background: Treated wood waste is a fully regulated California-only hazardous waste because it exhibits the hazardous waste characteristic of toxicity. From 2007 to December 31, 2020, treated wood waste was managed under alternative management standards, established in 22 CCR 67386. The legislation that authorized the alternative management standards for treated wood waste expired on December 31, 2020. Without the issuance of the variance, Daggett Solar Power 3 LLC would be required to register as a hazardous waste transporter with DTSC and manifest treated wood waste as a hazardous waste prior to disposal at a hazardous waste disposal facility.

Daggett Solar Power 3 LLC is a renewable energy company.

Project Activities: Under the variance, the authorized large quantity generator may generate, accumulate, treated wood waste on-site. The generator may transport the treated wood waste generated on site to authorized handler and/or disposal facilities. Operations generally include loading and unloading operations and shipping treated wood waste along existing transportation routes. Accumulation and transport of treated wood waste includes taking appropriate precautions to prevent unauthorized access to and prevent leaching to the environment of the treated wood waste. The variance will expire on January 10, 2022 with possibility of extension for an additional six months.

Name of Public Agency Approving Project: Department of Toxic Substances Control

Name of Person or Agency Carrying Out Project: Daggett Solar Power 3 LLC

Exempt Status: Existing Facilities [CCR Title 14, Sec. 15301]

Reasons Why Project is Exempt: All analysis conducted included the potential extension of the variance for an additional six months. DTSC has determined none of the exceptions to the categorical exemptions apply to this project, as described in Public Resources Code Section 21084(c), (d), and (e), and 14 CCR Section 15300.2. This project consists of the accumulation and storage of the treated wood waste is consistent with the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structure, involving negligible or no expansion of existing or former use.

The administrative record for this project is available to the public by appointment at the following location:
