**Project Title:** Transfer of up to 2,500 acre-feet (af) of Orange Cove Irrigation Districts' (Orange Cove) 2021 Central Valley Project (CVP) Friant Recirculation Water to the Kern County Water Agency (Agency) on behalf of Wheeler Ridge-Maricopa Water Storage District (Wheeler Ridge).

**Location -- County:** Kern, Fresno and Tulare Counties.

**Description of Activity:** In 2021, Orange Cove will transfer up to 2,500 af of its 2021 CVP Friant Recirculation water to the Agency for delivery to Wheeler Ridge from California Aqueduct turnouts located in the Agency's service area.

**Name of Public Agency Approving or Carrying Out Activity:** Agency (Lead Agency).

**Exempt Status:**

- Ministerial
- Declared Emergency
- Emergency Project
- Categorical Exemption.** State type and section number: See CEQA Guideline 15301(b).
- Statutory Exemption.** State code number: See CEQA Guidelines Section 15061(b)3.

CEQA Guideline Section 15301(b) provides that a lead agency may determine an activity to be exempt from CEQA in that it utilizes only existing facilities. This transfer involves delivery water entirely within the Agency's service area, and exclusively utilizes existing facilities. Additionally, CEQA Guideline Section 15061(b)3 provides that a Lead Agency may determine an activity to be exempt based on a general rule that CEQA applies only to projects that have a potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. The Agency finds that approval of the proposed water transfer has no possibility of significant effect on the environment for the following reasons:

1. The proposed action consists of a one-time water transfer that will use existing facilities and would not require any construction or grading.
